Nyrius LT12

Nyrius LT12 Global Digital Talking Translator

User Manual

1. PRODUCT OVERVIEW

The Nyrius LT12 is a compact, pocket-sized electronic talking translator designed to assist users with communication in foreign languages. It features a comprehensive database of over 8,400 travel-related phrases across 12 international languages, organized into eight conversational categories for quick access. The device displays translated phrases on a backlit LCD screen and pronounces them aloud through a built-in speaker or included earphone, ensuring correct pronunciation and clear understanding.

2. SETUP

2.1 Battery Installation

1. Locate the battery compartment cover on the back of the device.
2. Slide or unclip the cover to open the compartment.
3. Insert the required batteries (typically AAA, refer to the compartment for specific type and polarity) ensuring correct orientation.
4. Replace the battery compartment cover, ensuring it is securely closed.

2.2 Initial Power On

After installing batteries, press and hold the **POWER** button (usually located on the front or side of the device) until the LCD screen illuminates. The device will typically display a welcome screen or the home menu.

3. OPERATING INSTRUCTIONS

3.1 Power On/Off

- To power on: Press and hold the **POWER** button.
- To power off: The device features an auto power-off function to conserve battery life. Alternatively, press and hold the **POWER** button again to manually turn it off.

3.2 Language Selection

The LT12 supports cross-translation between 12 languages. Use the navigation buttons (up/down/left/right) and the **ENTER** button to select your desired source and target languages from the main menu. The supported languages are:

- English
- French
- German
- Spanish
- Italian
- Turkish
- Dutch
- Russian
- Portuguese
- Japanese
- Mandarin Chinese
- Swedish

3.3 Accessing Phrase Categories

The device organizes over 8,400 phrases into eight conversational categories. Each category has a dedicated button for quick access. Press the corresponding category button to browse phrases related to:

- General Speech
- Emergency
- Entertainment
- Sightseeing
- Direction
- Restaurants
- Transport
- Hotel & Accommodation

3.4 Displaying and Speaking Phrases

Once a category is selected, use the navigation buttons to scroll through the available phrases. Press **ENTER** to select a phrase. The translated phrase will be displayed on the LCD screen, and the device will speak the phrase aloud in the selected target language.

3.5 Saving and Recalling Phrases

- To save a frequently used phrase: While a phrase is displayed, press the **SAVE** button. Follow the on-screen prompts to add it to your customized list.
- To recall saved phrases: Press the **SAVED** button (or similar, as indicated on the device) to display your list of frequently used sentences.

3.6 Volume Adjustment

Use the dedicated volume buttons (usually marked with '+' and '-') to adjust the audio output level of the speaker or earphone.

3.7 Backlight Function

The LCD screen features a backlight for improved visibility in dimly lit environments. The backlight typically activates automatically when a button is pressed or can be toggled via a dedicated button (if available).

3.8 Earphone Use

For private listening or in noisy environments, connect the included earphone to the earphone jack on the device. The

audio output will automatically switch from the speaker to the earphone.

3.9 Additional Features

- **Integrated Alarm Clock:** Set alarms for reminders.
- **Data Bank with Password Lock:** Store personal information securely.
- **Home and World Time Display:** View current time for various global locations.

4. MAINTENANCE

4.1 Cleaning

To clean the device, gently wipe the exterior with a soft, dry, lint-free cloth. Do not use liquid cleaners, aerosols, or abrasive materials, as these can damage the device.

4.2 Battery Replacement

When the battery indicator shows low power or the device fails to turn on, replace the batteries following the instructions in Section 2.1. Always use fresh batteries of the specified type.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on.	Low or depleted batteries; incorrect battery installation.	Replace batteries with fresh ones; ensure batteries are inserted with correct polarity.
No sound from speaker/earphone.	Volume too low; earphone not fully inserted; faulty earphone.	Increase volume; ensure earphone is fully plugged in; test with another earphone if available.
Screen is blank or frozen.	Temporary software glitch.	Press the RESET button (usually a small pinhole, requiring a paperclip to press). This will restart the device without losing saved data.
Incorrect translation or pronunciation.	Incorrect language selected; phrase not accurately matching context.	Verify that the correct source and target languages are selected. Choose phrases that best fit the intended meaning.
