PATONA SB 9505

PATONA Paper Vacuum Cleaner Bags Instruction Manual

For AEG 12, 15, Vampyr 6002-6009 Series

Introduction

Thank you for choosing PATONA paper vacuum cleaner bags. These bags are designed for compatibility with various AEG vacuum cleaner models, offering effective dust collection and filtration. This manual provides essential information for the correct installation, usage, and maintenance of your vacuum cleaner bags to ensure optimal performance and longevity of your appliance.

Compatibility

These PATONA vacuum cleaner bags (Model SB 9505) are compatible with the following vacuum cleaner models:

- AEG - Electrolux Gr.12 / 15
- AEG Comfort
- TY Standard
- TZ Electronic 2
- Vampyr series: 6002, 6003, 6004, 6005, 6006, 6007, 6008, 6009

Please verify your vacuum cleaner model against this list to ensure proper fit and function.

Setup and Installation

Follow these steps to correctly install a new PATONA vacuum cleaner bag:

1. **Power Off and Unplug:** Before attempting any installation or maintenance, ensure your vacuum cleaner is turned off and unplugged from the power outlet to prevent accidental startup.
2. **Open the Vacuum Cleaner Compartment:** Locate and open the dust compartment cover on your vacuum cleaner. This usually involves releasing a latch or pressing a button.
3. **Remove the Old Bag:** Carefully remove the full or old vacuum cleaner bag. Many bags have a closing flap to prevent dust from escaping during removal. Dispose of the old bag responsibly.
4. **Insert the New Bag:** Take a new PATONA paper vacuum cleaner bag. Align the cardboard collar of the new bag with the bag holder inside the vacuum cleaner compartment. Push the collar firmly until it is securely seated. Ensure the bag is fully unfolded inside the compartment without obstructing the closing mechanism.

5. **Close the Compartment:** Close the dust compartment cover securely until you hear or feel it latch into place. Ensure there are no gaps.
6. **Check Filters (Optional but Recommended):** While the compartment is open, it is a good practice to check and clean or replace any motor protection filters or exhaust filters if your vacuum cleaner model requires it.

Operating Instructions

Once the bag is installed, your vacuum cleaner is ready for use. For optimal performance:

- **Regular Replacement:** Replace the vacuum cleaner bag when it is approximately two-thirds full, or when you notice a decrease in suction power. Overfilling the bag can strain the motor and reduce cleaning efficiency.
- **Microfiltration:** These bags feature microfiltration, designed to capture fine dust particles and allergens, contributing to cleaner exhaust air.

- **Tear-Resistant Design:** The bags are constructed with tear-resistant paper to minimize the risk of rupture during use or removal.

Maintenance

PATONA vacuum cleaner bags are disposable and do not require cleaning. However, proper maintenance of your vacuum cleaner is essential for the bags to function effectively:

- **Check Filters:** Regularly check and clean or replace your vacuum cleaner's motor protection filter and exhaust filter according to your appliance's instruction manual. Clogged filters can reduce suction and put stress on the motor, even with a new bag.
- **Inspect Hoses and Attachments:** Ensure hoses and attachments are free from blockages, which can mimic the symptoms of a full bag.

Troubleshooting

If you experience issues with your vacuum cleaner after installing a new bag, consider the following:

- **Reduced Suction Power:**
  - Ensure the bag is correctly seated in the holder and the compartment cover is fully closed.
  - Check if the bag is overfilled. Replace if necessary.
  - Inspect other filters (motor protection, exhaust) for clogging.
  - Check for blockages in the hose, wand, or floor tool.
- **Dust Leakage:**
  - Verify the bag's cardboard collar is firmly sealed in the bag holder.
  - Ensure the dust compartment cover is properly closed and sealed.
  - Check for any damage to the bag itself before installation.

Specifications

Brand	PATONA

Model Number	SB 9505
Material	Paper
Number of Products	10 bags
Features	Microfiltration, Tear-resistant
Compatible Devices	AEG 12, 15, Vampyr 6002-6009 series vacuum cleaners
Package Dimensions	23 x 20 x 5 cm
Product Weight	500 g
