# Sauder Harbor View Computer Desk Instruction Manual

Model: 417586 | Brand: Sauder

## 1. Product Overview

The Sauder Harbor View Computer Desk, in a Salt Oak finish, is designed to transform your workspace with its functionality and style. This L-shaped desk provides ample space for your computer, notepads, and other essentials, while offering integrated storage solutions. It features a smooth-gliding keyboard shelf, multiple drawers for office supplies and files, and a hidden panel door for CPU tower storage. Its coastal cottage charm makes it a suitable addition to any home office.

- Spacious L-shaped design for ample workspace.
- Slide-out keyboard/mouse shelf with metal runners and safety stops.
- Multiple drawers for organized storage of office essentials.
- Lower drawer designed to hold letter or European size hanging files.
- Hidden storage area behind a framed panel door, suitable for a vertical CPU tower, with an adjustable shelf.
- Door and drawers can be fastened on either the left or right side during assembly.
- Integrated grommet hole for efficient cord management.
- Constructed from engineered wood with a durable Salt Oak finish.

## 2. Safety Information

Please read and understand all safety instructions before assembly and use of this product. Failure to follow these instructions may result in injury or damage to the product.

- **Assembly Safety:** Always follow the provided assembly instructions carefully. It is recommended to have at least two people for assembly due to the size and weight of the components.
- **Weight Capacity:** The desk has a maximum weight recommendation of 150 pounds (68 kg). Do not exceed this limit to prevent structural damage or collapse.
- **Stability:** Ensure the desk is assembled on a flat, level surface. If necessary, consider anchoring the desk to a wall, especially if it will hold heavy equipment or if there is a risk of tipping.
- **Handling Heavy Objects:** Be cautious when handling heavy desk components during assembly and when moving the assembled desk. Use proper lifting techniques or seek assistance.
- **Tool Usage:** Use only the recommended tools for assembly. Avoid using power drills or cordless screwdrivers for tightening screws, as this can strip holes and compromise the desk's integrity. Hand-tighten screws to be snug but not overly tight.
- **Sharp Edges:** Some edges of the desk may be sharp. Exercise caution during assembly and use. Consider using a desk pad for comfort if you frequently rest your forearms or wrists on the desk.
- **Cord Management:** Utilize the grommet hole for cord management to prevent tripping hazards and keep your workspace tidy.
- **Children and Pets:** Keep children and pets away from the assembly area. Small parts can be a choking hazard.

## 3. Setup and Assembly

The Sauder Harbor View Computer Desk requires assembly. All necessary hardware and detailed instructions are included. Please ensure you have ample space and the recommended tools before beginning.

### 3.1 Before You Begin

- **Unpack All Parts:** Carefully unpack all components and hardware. Verify that all parts listed in the assembly instructions are present and undamaged.
- **Clear Workspace:** Choose a large, clear, and flat area for assembly to prevent scratching the desk components or your floor.
- **Tools Required:** A Phillips head screwdriver and a hammer are typically sufficient. Do NOT use power tools for assembly to avoid stripping screws or damaging the engineered wood.
- **Assistance:** Assembly is significantly easier and safer with two people.

### 3.2 Assembly Steps

1. Refer to the detailed step-by-step assembly instructions provided in the packaging. Each step will illustrate the parts needed and how they connect.
2. Pay close attention to the orientation of each piece as indicated in the diagrams.
3. Assemble the main L-shaped frame first, ensuring all cam locks and screws are securely tightened by hand.
4. Install the slide-out keyboard/mouse shelf according to the instructions, ensuring the metal runners operate smoothly.
5. Assemble the drawers and install their runners. Ensure drawers slide in and out freely. Note that drawers may not extend fully, leaving a portion under the desktop.
6. Attach the framed panel door for the CPU storage area. Decide whether the door and drawers will be on the left or right side based on your preferred desk configuration.

7. Once assembled, carefully move the desk to its final position. If on a hard floor, consider adding felt pads to the bottom to prevent scratching and ease movement.

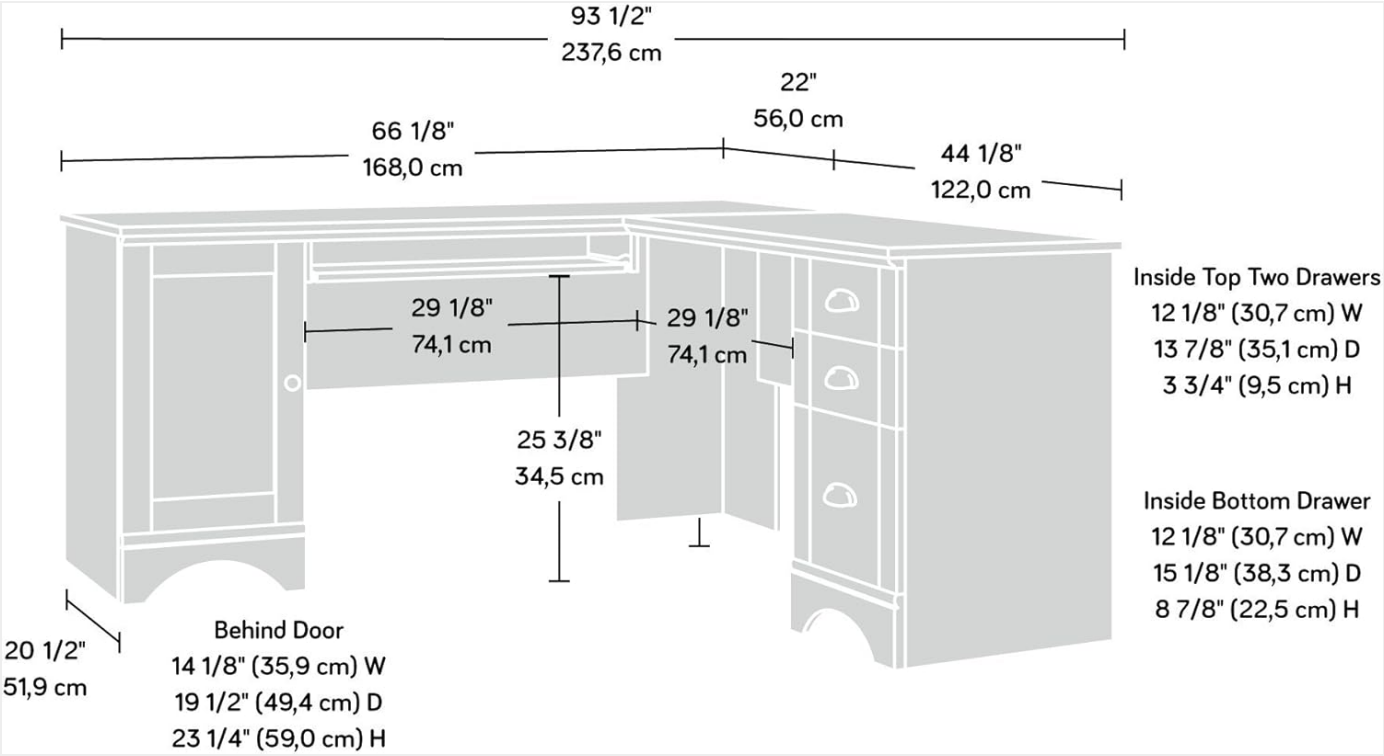

Image 3.1: Detailed dimensions of the Sauder Harbor View Computer Desk, including measurements for the overall L-shape, keyboard tray, and internal storage compartments. This diagram is crucial for planning your space and understanding component sizes.

## 4. Operating Instructions

The Sauder Harbor View Computer Desk is designed for intuitive use, providing a functional and organized workspace.

### 4.1 Utilizing Workspace

- The L-shaped design offers a generous surface area for multiple monitors, laptops, and other work essentials. Arrange your setup to maximize comfort and productivity.
- The integrated grommet hole allows for neat routing of power cables and peripheral wires, keeping your desktop clutter-free.

### 4.2 Keyboard/Mouse Shelf

- Gently pull the keyboard tray forward to extend it for use. Push it back in when not needed to save space. The metal runners ensure smooth operation.

Image 4.1: A close-up view of the slide-out keyboard and mouse shelf, demonstrating its functionality and the space it provides for peripherals.

### 4.3 Storage Drawers

- The top two drawers are suitable for general office supplies, stationery, and small accessories.
- The bottom drawer is designed to accommodate letter or European size hanging files, helping you keep important documents organized.

Image 4.2: A detailed view of the desk's three drawers, highlighting the cup-style pull handles and the wood grain finish.

### 4.4 CPU Storage Cabinet

- The cabinet behind the framed panel door provides a dedicated space for a vertical CPU tower. An adjustable shelf allows for customization of the internal space.
- Ensure your CPU tower fits within the specified dimensions before placing it inside.

Image 4.3: The hidden storage compartment, with the door open, revealing space for a CPU tower and an adjustable shelf for additional storage.

## 5. Maintenance

Proper care and maintenance will ensure the longevity and appearance of your Sauder Harbor View Computer Desk.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the finish.
- **Spills:** Immediately wipe up any spills to prevent moisture damage or staining.
- **Heat and Moisture:** Avoid placing hot items directly on the desk surface. Use coasters for drinks and protective pads for hot dishes. Keep the desk away from direct sunlight and excessive humidity.
- **Scratches:** Use desk pads or placemats under items that might scratch the surface, such as monitors, keyboards, or decorative objects.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten if necessary, but do so by hand to avoid overtightening.

- **Color Fading:** Over time, areas of frequent use or exposure to light may show slight color changes. A wood color marker can be used for minor touch-ups if needed.

## 6. Troubleshooting

If you encounter any issues with your Sauder Harbor View Computer Desk, refer to the common problems and solutions below.

| Problem | Possible Cause | Solution |
|---|---|---|
| Desk feels wobbly or unstable. | Loose fasteners; uneven floor. | Check and tighten all screws and cam locks. Ensure the desk is on a level surface. Use shims if necessary to level the desk. |
| Drawers do not slide smoothly or get stuck. | Improperly installed runners; obstruction; overloaded drawer. | Verify that drawer runners are correctly installed and aligned. Check for any objects obstructing the drawer path. Do not overload drawers beyond their capacity. |
| Keyboard tray is difficult to slide. | Misaligned runners; debris in track. | Inspect the metal runners for proper alignment. Clean any dust or debris from the tracks. |
| CPU tower does not fit in the cabinet. | CPU dimensions exceed cabinet capacity. | Refer to the dimensions diagram (Image 3.1) to confirm the internal cabinet measurements. If your CPU is too large, it cannot be stored inside. |
| Edges losing color or showing wear. | Normal wear and tear from frequent contact. | This is common with engineered wood furniture. A wood color marker can be used for touch-ups. Consider using a desk pad for areas of high contact. |

## 7. Specifications

Key specifications for the Sauder Harbor View Computer Desk (Model 417586):

- **Brand:** Sauder
- **Model Number:** 417586
- **Model Name:** Harbor View
- **Product Dimensions (D x W x H):** 66.14"D x 66.14"W x 30.28"H
- **Color:** Salt Oak
- **Style:** Country Rustic
- **Base Material:** Engineered Wood
- **Top Material Type:** Engineered Wood
- **Finish Type:** Salt Oak Finish
- **Special Features:** Adjustable shelf, Keyboard Tray Included
- **Room Type:** Office
- **Mounting Type:** Freestanding
- **Shape:** L-Shape
- **Number of Drawers:** 3 (Two utility, one file)
- **Number of Shelves:** 2 (One adjustable in cabinet, one fixed under keyboard tray)
- **Drawer Glide Mechanism:** Metal runners
- **Maximum Weight Recommendation:** 150 Pounds (68 kg)

- **Required Assembly:** Yes
- **Included Components:** Assembly instructions, Hardware, Materials
- **UPC:** 042666005081

## 8. Warranty Information

Sauder provides a limited warranty for the Harbor View Computer Desk.

- **Warranty Type:** Limited
- **Manufacturer Warranty Description:** 5 years parts.

For specific details regarding warranty coverage, claims, or to request replacement parts, please refer to the warranty documentation included with your product or contact Sauder customer support directly.
