Truper PR-202

Truper PR-202 Insulated Metal Pistol Nozzle Instruction Manual

1. Introduction

Thank you for choosing the Truper PR-202 Insulated Metal Pistol Nozzle. This durable and versatile nozzle is designed for various watering tasks, offering adjustable spray patterns and a comfortable grip. Please read this manual carefully before use to ensure proper operation and maintenance.

2. Safety Information

- Always turn off the water supply before attaching or detaching the nozzle.
- Do not aim the water stream at electrical outlets or equipment.
- Do not leave the nozzle unattended with the water supply on.
- Keep out of reach of children when not in use.
- Wear appropriate eye protection when using high-pressure spray settings.

3. Package Contents

- 1 x Truper PR-202 Insulated Metal Pistol Nozzle

4. Setup

1. Ensure your garden hose is turned off at the spigot.
2. Thread the female end of the Truper PR-202 nozzle onto the male end of your garden hose.
3. Tighten securely by hand. Do not overtighten with tools, as this may damage the threads.
4. Turn on the water supply slowly at the spigot. Check for any leaks at the connection point.

Figure 1: Truper PR-202 Insulated Metal Pistol Nozzle. The nozzle features an insulated grip, adjustable spray head, and a lock-on clip for continuous flow.

5. Operating Instructions

5.1 Activating Water Flow

To activate the water flow, simply squeeze the trigger handle. The water flow will stop when the trigger is released.

5.2 Adjusting Spray Pattern

The Truper PR-202 features an adjustable nozzle head. Rotate the nozzle head (the brass-colored front part) clockwise or counter-clockwise to change the spray pattern from a fine mist to a powerful jet stream. Experiment with different rotations to find the desired spray for your task.

5.3 Using the Lock-on Clip

For continuous water flow without holding the trigger, engage the lock-on clip. Squeeze the trigger fully, then push the small metal clip located near the trigger forward to lock it in place. To disengage, simply squeeze the trigger again.

6. Maintenance

- After each use, turn off the water supply and release any remaining pressure by squeezing the trigger.
- Store the nozzle in a dry, protected area to prevent freezing and prolong its lifespan.
- Periodically check the hose connection for wear and tear on the washer. Replace if necessary to prevent leaks.
- Clean the nozzle head if debris or mineral buildup affects the spray pattern.

7. Troubleshooting

Problem	Possible Cause	Solution
Water leaks from hose connection.	Loose connection or worn washer.	Tighten connection or replace rubber washer.
Irregular or weak spray pattern.	Debris in nozzle head or low water pressure.	Clean nozzle head; check water supply pressure.
Trigger is stiff or stuck.	Mineral buildup or lack of lubrication.	Clean and lubricate moving parts with silicone spray.

8. Specifications

- **Model:** PR-202
- **Brand:** Truper
- **Material:** Metal, Stainless Steel
- **Item Dimensions (L x W x H):** 8.58 x 6.46 x 6.38 inches
- **Item Weight:** 0.29 Kilograms
- **Inlet Connection Type:** Threaded
- **Outlet Connection Type:** MNPT
- **Number of Ports:** 2

9. Warranty and Support

This Truper PR-202 Insulated Metal Pistol Nozzle comes with a**10-year warranty**, as indicated on the product packaging. For warranty claims or technical support, please contact Truper customer service through their official website or the retailer where the product was purchased.
