# Relaxdays 4-Tier Plant Cold Frame Greenhouse User Manual

**Brand:** Relaxdays | **Model:** B00UZ59SWQ

## 1. INTRODUCTION

---

This manual provides instructions for the assembly, operation, and maintenance of your Relaxdays 4-Tier Plant Cold Frame Greenhouse. This greenhouse is designed to protect and cultivate plants, making it suitable for balconies, patios, or small garden spaces.

Figure 1: Overview of the Relaxdays 4-Tier Plant Cold Frame Greenhouse.

Key features include a transparent, robust cover, a roll-up door with two zippers, and a peaked roof designed to prevent water accumulation. The four tiers provide ample space for various plants.

## 2. SAFETY INFORMATION

---

- Always assemble the greenhouse on a flat, stable surface to ensure structural integrity.
- Exercise caution when handling components during assembly and use, as some edges may be sharp.
- Avoid prolonged exposure of the greenhouse to direct, intense sunlight to prevent potential UV damage to the cover material.
- Ensure the greenhouse is properly anchored, especially in windy conditions, to prevent it from tipping over.
- Provide adequate ventilation to prevent excessive heat buildup and ensure healthy plant growth.

## 3. PACKAGE CONTENTS

---

Before beginning assembly, verify that all components are present and undamaged. The package

should contain the following items:

- 1 x Greenhouse frame (metal poles and connectors)
- 4 x Wire shelves
- 1 x Transparent polyethylene (PE) cover with roll-up door and zippers
- 1 x Instruction manual (this document)

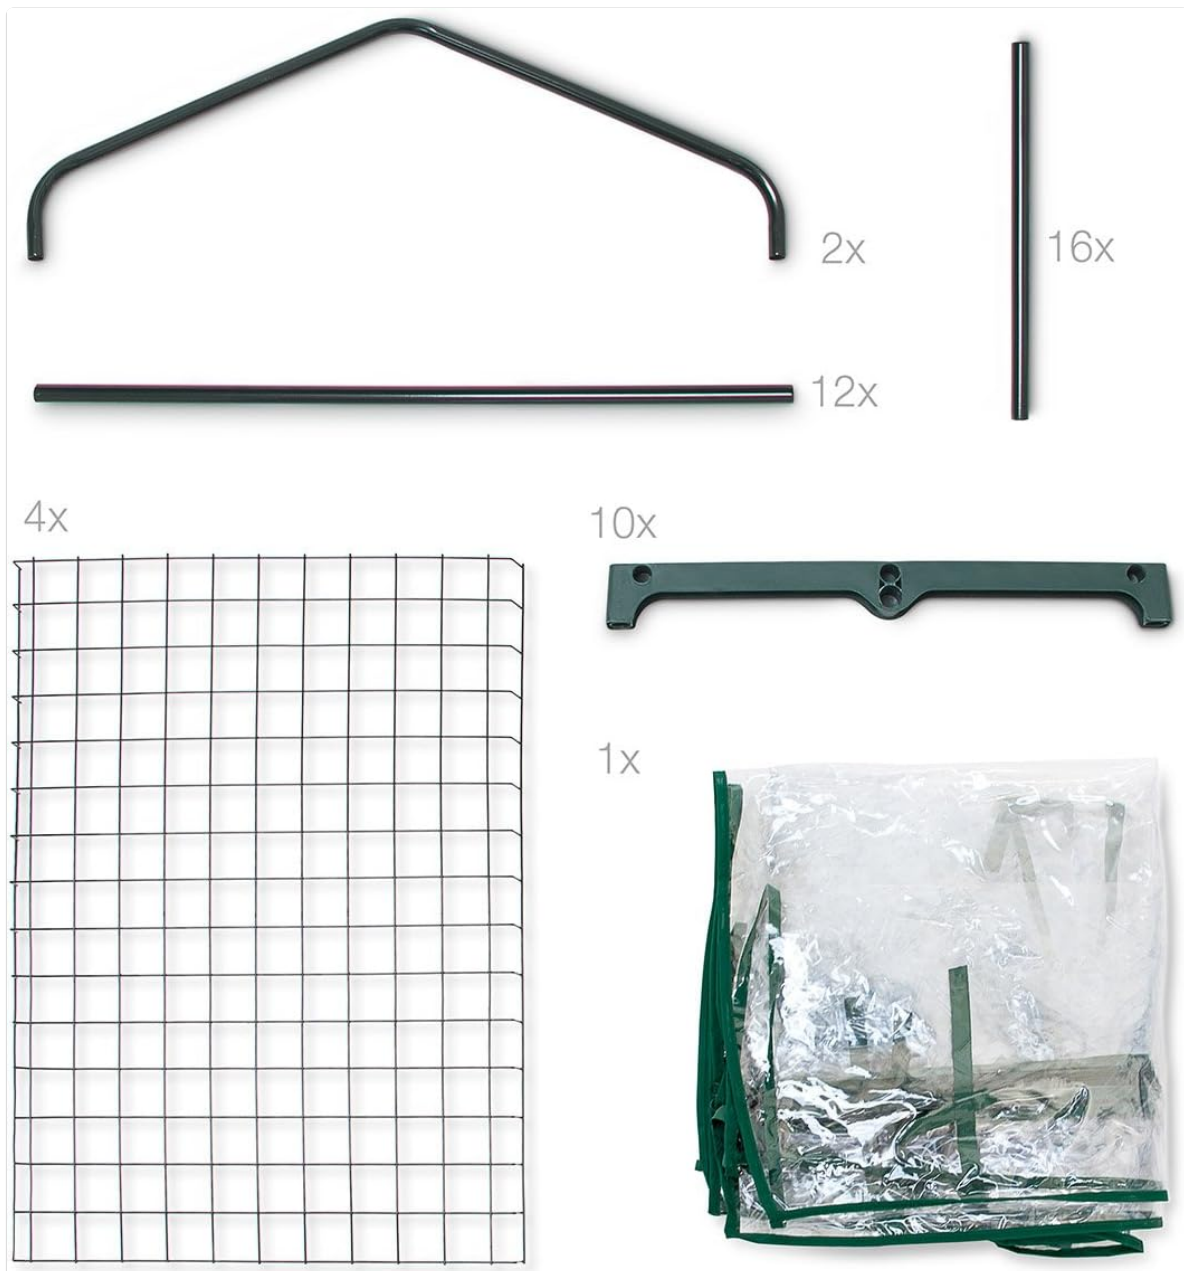

Figure 2: All components included in the package for assembly.

## 4. ASSEMBLY INSTRUCTIONS

Assembly of the Relaxdays 4-Tier Plant Cold Frame Greenhouse is designed to be straightforward. No tools are typically required as components click together.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface. Refer to Figure 2 to identify each component.
2. **Assemble Base Frame:** Connect the shortest metal poles to the base connectors to form the rectangular base of the greenhouse. Ensure all connections are secure.
3. **Install Vertical Poles:** Insert the longer vertical metal poles into the base connectors.

4. **Add Shelves and Connectors:** Slide the wire shelves onto the frame at the desired heights. Secure them by attaching the next set of horizontal poles and connectors. The shelves are designed to simply click into place. Repeat this process for all four tiers.
5. **Attach Roof Frame:** Connect the curved roof poles to the top vertical poles using the appropriate connectors to form the peaked roof structure.
6. **Drape Cover:** Carefully drape the transparent polyethylene cover over the assembled metal frame. Ensure the roll-up door is positioned correctly at the front.
7. **Secure Cover:** Fasten the cover to the frame using any integrated ties or fasteners to ensure a snug fit and prevent it from being dislodged by wind.

Figure 3: Detail of a shelf connection, illustrating how components click together.

## 5. OPERATING INSTRUCTIONS

---

To maximize the benefits of your cold frame greenhouse, follow these operational guidelines:

- **Plant Placement:** Arrange plants on the four tiers, considering their light requirements and growth height. Taller plants may require removal of an upper shelf.

- **Ventilation:** Use the roll-up door to regulate temperature and humidity inside the greenhouse. On warm days, roll up the door and secure it to allow for air circulation. On cooler days or nights, keep the door zipped down to retain heat.
- **Watering:** Water plants as needed. The enclosed environment may reduce evaporation, so monitor soil moisture carefully.
- **Protection:** The transparent cover protects plants from adverse weather conditions such as cold, wind, and heavy rain, extending the growing season.

Figure 4: Interior view showing the four tiers with plants.

## 6. MAINTENANCE

---

Regular maintenance will prolong the life of your greenhouse:

- **Cleaning the Cover:** Periodically clean the transparent polyethylene cover with a soft cloth and mild

soapy water to remove dirt and ensure maximum light penetration. Rinse thoroughly with clean water. Avoid abrasive cleaners.

- **Frame Inspection:** Regularly check the metal frame and connectors for any signs of rust, damage, or loose connections. Tighten or replace components as necessary.
- **Zipper Care:** Keep the zippers clean and lubricated with a silicone-based spray if they become stiff.
- **Winter Storage:** If not used during winter, disassemble the greenhouse and store the components in a dry, protected area to prevent damage from extreme weather.

## 7. TROUBLESHOOTING

---

Here are solutions to common issues you might encounter:

- **Greenhouse Instability:**
  - Ensure all frame connections are fully clicked into place.
  - Verify the greenhouse is on a flat, level surface.
  - Anchor the greenhouse securely, especially in windy conditions, using weights or ground stakes (not included).
- **Poor Plant Growth:**
  - Check for adequate ventilation; excessive heat or humidity can harm plants.
  - Ensure plants are receiving sufficient light. Clean the cover if it's dirty.
  - Review watering schedule; plants in a greenhouse may require less frequent watering.
- **Cover Damage (Tears/Holes):**
  - Small tears can often be repaired with clear greenhouse repair tape.
  - For significant damage, a replacement cover may be necessary.

## 8. SPECIFICATIONS

---

<b>Model</b>	4-Tier Plant Cold Frame (B00UZ59SWQ)
<b>Dimensions (Height)</b>	Approx. 156 cm (61.4 in) for 4-tier model
<b>Floor Area</b>	Approx. 49.5 x 70 cm (19.5 x 27.6 in)
<b>Shelf Height</b>	Approx. 31.5 and 98 cm (12.4 and 38.6 in) from base (variable depending on assembly)
<b>Weight</b>	Approx. 4.5 kg (9.9 lbs)
<b>Frame Material</b>	Metal
<b>Cover Material</b>	Polyethylene (PE)
<b>Color</b>	Transparent cover, Green frame
<b>Closure Type</b>	Zipper
<b>Door Style</b>	Roll-Up Door
<b>Number of Doors</b>	1

## 9. WARRANTY INFORMATION

---

Warranty information for the Relaxdays 4-Tier Plant Cold Frame Greenhouse is not provided in the available product data. Please refer to your purchase documentation or contact the retailer for details regarding warranty coverage.

## 10. SUPPORT INFORMATION

---

Contact information for product support is not provided in the available product data. For assistance with your Relaxdays 4-Tier Plant Cold Frame Greenhouse, please refer to the contact details provided by your retailer or visit the official Relaxdays website.
