CuddleBug YellowWrap1

CuddleBug Baby Wrap Sling + Carrier Instruction Manual

Model: YellowWrap1

1. INTRODUCTION

The CuddleBug Baby Wrap Sling + Carrier is designed to provide a comfortable and secure way to carry your baby, fostering bonding while allowing you to remain hands-free. This manual provides essential information for safe and effective use of your CuddleBug wrap.

2. SAFETY INFORMATION

Your baby's safety is paramount. Always follow these guidelines when using the CuddleBug Baby Wrap Sling + Carrier:

- **Weight Limits:** This wrap is suitable for newborns and toddlers weighing between 7 lbs (3.2 kg) and 35 lbs (15.8 kg). Do not use for infants under 7 lbs without consulting a healthcare professional.
- **T.I.C.K.S. Rule for Safe Babywearing:**
 - **Tight:** The wrap should be tight enough to hug your baby close to you. Any slack will allow your baby to slump, which can hinder breathing.
 - **In View:** You should always be able to see your baby's face by glancing down. The fabric should not obscure their face.
 - **Close Enough to Kiss:** Your baby's head should be as close to your chin as is comfortable.
 - **Keep Chin Off Chest:** A baby should never be curled so their chin is forced onto their chest, as this can restrict their breathing. Ensure there is always a space of at least a finger width under your baby's chin.
 - **Supported Back:** Your baby's back should be supported in its natural position, and their tummy

and chest should be against you.

- **Hip Health:** The CuddleBug wrap supports healthy hip development and is certified hip-healthy by the International Hip Dysplasia Institute. Ensure your baby's legs are in an 'M' position, with knees higher than their bottom.
- **Regular Checks:** Periodically check the wrap for any signs of wear or damage. Discontinue use if any damage is found.
- **Awareness:** Be mindful of your baby's position and comfort at all times. Avoid activities that could put your baby at risk, such as cooking over an open flame or operating machinery.

3. PRODUCT COMPONENTS

Your CuddleBug Baby Wrap Sling + Carrier package includes:

- One (1) CuddleBug Baby Wrap Sling + Carrier (Yellow, Model YellowWrap1)

4. SETUP AND WEARING INSTRUCTIONS

The CuddleBug wrap is designed for simple, stress-free use. Follow these steps for a secure and comfortable fit:

1. **Step 1: Find the Center.** Locate the CuddleBug logo tag. This marks the center of the wrap.
2. **Step 2: Position the Center.** Place the center of the wrap (with the logo) against your stomach, just above your navel.
3. **Step 3: Cross Behind.** Bring both ends of the wrap around your back and cross them over each other. Ensure the fabric lies flat and is not twisted.
4. **Step 4: Bring Forward.** Bring the two ends over your shoulders, creating two 'X' shapes on your back. The fabric should spread wide over your shoulders for comfort.
5. **Step 5: Create the Pouch.** Tuck the two ends under the horizontal section of the wrap at your stomach, forming a pouch.
6. **Step 6: Cross and Tie.** Cross the two ends in front of you, then bring them around your back again and tie a double knot securely. Alternatively, you can tie the knot in front if there is enough length.
7. **Step 7: Insert Baby.** Gently place your baby into the wrap, ensuring their legs are in the 'M' position and their head is supported. Spread the fabric wide over your baby's back and bottom for full support.

5. OPERATING AND USAGE GUIDELINES

The CuddleBug wrap offers versatility and comfort for both parent and baby:

- **Age Range:** Suitable for infants from 0 to 36 months, within the specified weight limits.
- **Ergonomic Design:** The wrap provides even weight distribution across your shoulders and back, reducing strain and offering optimal support for your baby.
- **Promotes Bonding:** Close contact with your baby helps foster strong emotional bonds and provides constant stimulation.
- **Comfort for Baby:** The upright position in the wrap can help calm gas and reflux, and many babies find the snug embrace conducive to sleep.
- **Breastfeeding Friendly:** The wrap allows for discreet and hands-free nursing, making it convenient for feeding on the go.

6. CARE AND MAINTENANCE

To ensure the longevity and hygiene of your CuddleBug Baby Wrap, follow these care instructions:

- **Washing:** The wrap is machine washable. Use cold water on a gentle cycle.
- **Detergent:** Use a mild, baby-safe detergent. Avoid bleach or harsh chemicals.
- **Drying:** Tumble dry on low heat or hang to air dry. Avoid high heat, which can damage the fabric's elasticity.
- **Storage:** Store the wrap in a clean, dry place away from direct sunlight when not in use.

7. TROUBLESHOOTING

If you encounter any issues with your CuddleBug Baby Wrap, consider the following:

- **Baby feels too loose/sags:** Ensure the wrap is tied tightly before inserting your baby. The fabric should be snug against your body. Re-tie if necessary, ensuring the 'X' on your back is high and spread.

- **Discomfort for wearer:** Ensure the fabric is spread wide over your shoulders and back to distribute weight evenly. Adjust the wrap to avoid any pressure points.
- **Baby's head not supported:** For newborns and sleeping babies, ensure the top edge of the wrap comes up to their earlobes or higher, providing adequate head and neck support.

8. SPECIFICATIONS

Feature	Detail
Model Number	YellowWrap1
