BIC BL241-AST

BIC Brite Liner Highlighters Instruction Manual

Model: BL241-AST

Product Overview

The BIC Brite Liner Highlighters are designed to make organizing and emphasizing information effortless. This pack includes 24 highlighters in vibrant, assorted colors, featuring a versatile chisel tip for both broad highlighting and fine underlining. The ink is formulated to be long-lasting, allowing the highlighters to remain uncapped for up to eight hours without drying out. They are ACMI-approved, ensuring they are non-toxic and safe for use in various environments, including school, office, and home.

Key Features

- **Assorted Colors:** Includes 24 highlighters in a variety of vibrant colors: yellow, pink, blue, green, and orange.
- **Versatile Chisel Tip:** Allows for both broad highlighting of text and fine underlining for detailed work.
- **Long-Lasting Ink:** Engineered to prevent drying out for up to 8 hours even when the cap is left off.
- **Non-Toxic:** ACMI-approved, ensuring safety for all users.
- **Comfortable Design:** Features a pen-shaped design for a comfortable grip during extended use.

Setup

The BIC Brite Liner Highlighters are ready for immediate use directly out of the packaging. No assembly or special preparation is required.

1. Remove the highlighters from the packaging.
2. Select your desired color.
3. Remove the cap from the highlighter.

Operating Instructions

Using your BIC Brite Liner Highlighter is straightforward, offering flexibility for various highlighting and

underlining needs.

Highlighting Text

To highlight, position the broad side of the chisel tip flat against the paper and drag it smoothly over the text you wish to emphasize. The vibrant ink will clearly mark the selected area.

Underlining Text

For fine underlining, use the narrow edge of the chisel tip. Position the tip precisely under the text and draw a clean, thin line.

Color-Coding

Utilize the assorted colors to create an organized color-coding system for notes, documents, or study materials. Assign different colors to specific categories or levels of importance for quick visual identification.

Maintenance

Proper care ensures the longevity and optimal performance of your highlighters.

- **Recap After Use:** Although the ink is designed to resist drying for up to 8 hours uncapped, always recap the highlighter firmly after each use to preserve ink freshness and prevent premature drying.
- **Storage:** Store highlighters horizontally when not in use to ensure even ink distribution and prevent one side of the tip from drying out.
- **Cleaning:** If the highlighter tip accumulates dust or debris, gently wipe it with a clean, damp cloth. Avoid using harsh chemicals or abrasive materials.

Troubleshooting

Most issues with highlighters are minor and easily resolved.

Ink Appears Faint or Dry

- Ensure the cap was securely replaced after the last use.
- Try drawing a few lines on a scrap piece of paper to re-prime the tip.
- If the highlighter has been left uncapped for an extended period beyond 8 hours, the ink may have dried out. In this case, replacement is recommended.

Bleeding Through Paper

- While BIC Brite Liner Highlighters are designed to minimize bleed-through, results can vary depending on the paper thickness and quality. Thinner papers are more prone to ink bleed.
- Apply less pressure when highlighting, especially on delicate paper.

Specifications

Attribute	Detail
Brand	BIC
Model Number	BL241-AST
Item Weight	8.5 ounces

Attribute	Detail
Product Dimensions	2.75 x 2.75 x 5.5 inches
