PILOT 77363

Pilot G2 Gel Ink Refills Instruction Manual

MODEL: 77363 - BOLD POINT 1 MM, PURPLE

Introduction

This manual provides instructions for the installation, use, and care of your Pilot G2 Gel Ink Refills. These refills are designed to ensure your Pilot gel pens continue to function effectively, offering a cost-effective solution and extending the lifespan of your writing instrument.

Pilot G2 gel ink refills feature smooth and vibrant ink that delivers clean and crisp lines. The quick-drying ink resists smudges and smears, contributing to neat and professional-quality documents. The 1 mm bold point size provides a distinct line width for expressive writing.

Installation Instructions

Follow these steps to replace the ink refill in your Pilot G2 pen:

- 1. Unscrew the rubber grip end:** Carefully unscrew the rubber grip section from the pen barrel. Remove the old refill from the barrel. Be careful not to discard the small spring, as it is essential for the pen's

function.

2. **Drop new refill into barrel:** Insert the new Pilot G2 gel ink refill into the pen barrel. Ensure it is seated correctly.
3. **Reconnect rubber grip end:** Screw the rubber grip end back onto the barrel until it is secure. Your pen is now ready for use.

Using Your Pilot G2 Gel Ink Refills

Pilot G2 gel ink refills are designed for a variety of writing tasks, from everyday notes to creative projects. The bold 1.0mm point provides a strong, clear line, suitable for emphasis or general writing where visibility is key.

- **Smooth Ink Flow:** The gel ink formulation ensures consistent and smooth writing without skipping.
- **Quick-Drying:** The ink dries quickly to minimize smudging, making it suitable for both right-handed and left-handed users.
- **Versatile Use:** Ideal for note-taking, journaling, sketching, doodling, and other writing applications at home, school, or the office.

Care and Maintenance

Proper care of your Pilot G2 pen and refills will ensure optimal performance and longevity.

- **Storage:** Store pens and refills horizontally when not in use to prevent ink from settling at one end.
- **Temperature:** Avoid exposing pens and refills to extreme temperatures, both hot and cold, as this can affect ink viscosity and flow.
- **Cap/Retract:** Always retract the pen tip or replace the cap after use to prevent the ink from drying out.
- **Cleaning:** If the pen tip accumulates debris, gently wipe it with a soft, damp cloth.

Troubleshooting Common Issues

If you encounter issues with your Pilot G2 Gel Ink Refill, consider the following:

- **Skipping or Fading Ink:** This can occur if the pen tip is clogged or if the refill is running low on ink. Try writing on a scrap piece of paper to clear the tip. If the issue persists, replace the refill.
- **Ink Not Flowing:** Ensure the pen has been stored correctly and has not been exposed to extreme temperatures. A gentle shake or a few scribbles on paper can sometimes restart ink flow. If not, the refill

may be dry or defective and should be replaced.

- **Smudging:** While G2 ink is quick-drying, allow a moment for the ink to set on certain paper types, especially glossy surfaces, to prevent smudging.

Product Specifications

Brand	PILOT
Model Number	77363
Ink Color	Purple
Point Type	Bold
Point Size	1.0 mm
Item Weight	0.32 ounces
Product Dimensions	1.88 x 0.25 x 6 inches
