ZINUS AZ-BSLB-T

ZINUS Keenan Metal Mattress Foundation User Manual

Model: AZ-BSLB-T | Brand: ZINUS

Introduction

The ZINUS Keenan Metal Mattress Foundation is designed to provide robust support for your mattress, combining the function of a box spring and a bed frame into one easy-to-assemble unit. Its solid steel framework ensures durability and longevity. This foundation includes built-in brackets for attaching a headboard, allowing for personalization of your bedroom decor. It is engineered for quick and simple setup, with all necessary tools and parts conveniently packed in a single box.

Important Safety Information

- Do not exceed the maximum weight capacity.
- Handle with care during assembly to avoid pinch points.
- Ensure proper assembly for stability.
- Using the foundation without a bed frame may affect overall stability.
- This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

Package Contents

Your ZINUS Keenan Metal Mattress Foundation package includes all necessary components for assembly. Please verify that all parts are present before beginning assembly.

- Metal Frame Components
- Support Slats
- Fabric Cover with Zipper
- Legs (Plastic)
- Headboard Brackets (pre-attached or included)
- Assembly Tools (e.g., ratcheting Allen wrench)
- Instruction Manual

Setup and Assembly

Assembly of the ZINUS Keenan Metal Mattress Foundation is designed to be straightforward and can typically be completed in less than 10 minutes. Follow these steps for proper setup:

1. Unpack all components from the compact box. Lay out the metal frame pieces on a clean, flat surface.
2. Assemble the main metal frame. The pieces are designed to fit together easily.
3. Insert the support slats into their designated slots on the frame. These slats provide the direct support for your mattress.
4. Carefully slip the fabric cover over the assembled metal frame. Ensure it is properly aligned and zip it closed.
5. Attach the plastic legs to the designated points on the underside of the covered frame. The plastic feet are designed to prevent scuffing of floors.
6. If desired, attach your headboard to the pre-installed headboard brackets. (Note: Headboard attachment hardware is not included).

Operating Instructions

Once assembled, the ZINUS Keenan Metal Mattress Foundation is ready for immediate use. Simply place your mattress directly on top of the foundation. The sturdy steel slats provide ample support, eliminating the need for a traditional box spring. The integrated design ensures a stable and comfortable sleeping surface.

Maintenance

To maintain the quality and appearance of your ZINUS Keenan Metal Mattress Foundation, simply wipe it with a dry cloth as needed. Avoid using harsh chemicals or abrasive cleaners, which may damage the finish or fabric cover. Periodically check all connections to ensure they remain secure.

Troubleshooting

Squeaking Noises

If you experience squeaking noises, first ensure all bolts and connections are tightened securely. Over time, normal use can cause connections to loosen slightly. Re-tightening all fasteners should resolve most squeaking issues. Verify that the mattress is properly seated on the slats and not shifting.

Instability

If the foundation feels unstable, double-check that all legs are firmly attached and evenly distributed. Ensure the frame is assembled correctly according to the instructions. Uneven flooring can also contribute to perceived instability; consider using furniture pads or shims if necessary.

Specifications

Size	Twin
Product Dimensions	74"L x 38"W x 14"H (187.4 cm L x 96.3 cm W x 35.56 cm H)
