2. Setup

2.1 Connecting Your Device

The havit Keyboard Mouse Combo is designed for simple plug-and-play functionality. No additional software or drivers are required for basic operation.

1. Locate an available USB port on your computer.
2. Plug the USB connector of the keyboard into the USB port.
3. Plug the USB connector of the mouse into another available USB port.

4. The devices should be automatically recognized by your operating system within a few seconds.

2.2 System Compatibility

This keyboard and mouse combo is compatible with the following operating systems:

- Windows 2000
- Windows 2003
- Windows XP
- Windows Vista
- Windows 7
- Windows 8
- Windows 10
- Mac OS (Note: Multimedia keys may only function on Windows operating systems.)
- Linux

3. Operating Instructions

3.1 Keyboard Functions

The keyboard features a full 104-key layout with additional multimedia and gaming-specific functions.

- **Rainbow Backlighting:** The keyboard features a vibrant rainbow backlight that illuminates the keys, creating an immersive gaming atmosphere. The backlighting is static and cannot be customized to a single color.
- **Multimedia Combination Keys:** Access various multimedia functions using the **FN** key in combination with the **F1** through **F10**, and **F12** keys. These functions include media playback control, volume adjustment, and more.
- **Anti-Ghosting:** Supports simultaneous operation of up to 19 keys without conflict, ensuring accurate input during intense gaming sessions.
- **Interchangeable WASD Keys:** The **W**, **A**, **S**, **D** keys can be interchanged with the arrow keys for personalized gaming control.
- **WIN Key Lock:** The Windows key can be disabled during gaming to prevent accidental interruptions.

3.2 Mouse Functions

The gaming mouse is designed for precision and comfort, featuring adjustable sensitivity and dynamic LED lighting.

- **Adjustable DPI:** The mouse offers four adjustable DPI levels: 800, 1200, 2400, and 3200 DPI. Press the DPI switch button on the mouse to cycle through the sensitivity settings. The LED indicator will flash to show the current DPI level.
- **7 Circular Breathing LED Colors:** The mouse features a circular breathing LED light effect with seven colors: Red, Green, Blue, Yellow, Purple, Cyan, and Pink. This creates a dynamic visual effect.
- **Turning Off Mouse Light:** To turn off the mouse light, press the Forward / Back Button + DPI button simultaneously.
- **6-Buttons:** The mouse is equipped with 6 buttons for superior productivity and efficiency in gaming and general use.

4. Maintenance

4.1 Care and Cleaning

To ensure the longevity and optimal performance of your havit Keyboard Mouse Combo, follow these cleaning guidelines:

- **General Cleaning:** Use a soft, dry cloth to wipe down the surfaces of both the keyboard and mouse regularly.
- **Keyboard Keys:** Due to the elevated design of the keys, dust and debris can accumulate underneath. Use compressed air to blow out particles from between the keys. For deeper cleaning, keycaps can be carefully removed (refer to online guides if unsure) to clean the base, but ensure you remember the key placement for reassembly.
- **Mouse Sensor:** Periodically clean the optical sensor on the underside of the mouse with a cotton swab lightly dampened with rubbing alcohol. Ensure it is completely dry before use.
- **Avoid Liquids:** Do not immerse the keyboard or mouse in water or any other liquids. Avoid using harsh chemicals or abrasive cleaners.

5. Troubleshooting

5.1 Common Issues and Solutions

If you encounter any issues with your havit Keyboard Mouse Combo, please refer to the following common troubleshooting steps:

- **No Power/Lights Not On:**
  - Ensure both the keyboard and mouse USB cables are securely plugged into working USB ports on your computer.
  - Try plugging the devices into different USB ports.
  - Test the devices on another computer to rule out a computer-specific issue.
- **Mouse Not Tracking Smoothly:**
  - Clean the optical sensor on the bottom of the mouse.
  - Ensure you are using the mouse on a suitable surface, preferably a mouse pad. Uneven or reflective surfaces can affect tracking.
  - Adjust the DPI settings to see if a different sensitivity improves tracking.
- **Keys Sticking or Not Responding:**
  - Check for any debris or crumbs lodged under the keys. Use compressed air to clear them.
  - Ensure the keyboard is connected properly.
- **Multimedia Keys Not Working (Mac OS):**
  - As noted in compatibility, some multimedia keys may have limited or no functionality on Mac OS. This is expected behavior.
