

Snap-on P7100

Snap-on P7100 Delivery Valve Socket Instruction Manual

Model: P7100 | Brand: Snap-on

1. INTRODUCTION

This manual provides instructions for the proper use and maintenance of the Snap-on P7100 Delivery Valve Socket. This specialized 32-spline tooth socket is designed for the removal and replacement of delivery valves on Bosch P7100 P-Pumps, commonly found in Dodge Cummins applications. Its robust construction ensures reliable performance for fuel system maintenance tasks.

Figure 1: Snap-on P7100 Delivery Valve Socket. This image displays the black, cylindrical socket with its internal 32-spline teeth visible at one end, designed for engaging with delivery valves. A small hole for a drive pin is visible on the side of the socket's drive end.

2. SETUP AND PREPARATION

Before using the P7100 Delivery Valve Socket, ensure you have the necessary tools and safety equipment. This socket requires a 1/2-inch drive ratchet or breaker bar for operation.

2.1 Required Tools and Materials:

- Snap-on P7100 Delivery Valve Socket (32-spline)
- 1/2-inch drive ratchet or breaker bar
- Torque wrench (for reinstallation)
- Appropriate personal protective equipment (e.g., safety glasses, gloves)

- Clean rags and solvent for cleaning

2.2 Safety Precautions:

- Always wear safety glasses to protect against fuel spray or debris.
- Ensure the engine is cool and depressurized before working on the fuel system.
- Work in a well-ventilated area to avoid inhaling fuel fumes.
- Keep a fire extinguisher nearby when working with fuel.

3. OPERATING INSTRUCTIONS

Follow these steps for the removal and replacement of P7100 delivery valves:

3.1 Delivery Valve Removal:

1. **Prepare the Area:** Clean the area around the delivery valves to prevent contaminants from entering the fuel system.
2. **Position the Socket:** Carefully place the 32-spline end of the Snap-on P7100 socket onto the delivery valve holder. Ensure the socket is fully seated and engaged with all splines. Due to manufacturing tolerances or accumulated debris, a snug fit is expected. In some cases, a light tap with a rubber mallet may be necessary to fully seat the socket.
3. **Attach Drive Tool:** Insert your 1/2-inch drive ratchet or breaker bar into the square drive opening of the socket.
4. **Loosen the Valve:** Apply steady, counter-clockwise pressure to loosen the delivery valve holder. Avoid sudden jerking motions to prevent damage to the valve or socket.
5. **Remove Valve:** Once loosened, carefully unthread the delivery valve holder by hand or with the socket until it can be removed.

3.2 Delivery Valve Replacement:

1. **Prepare New Valve:** Ensure the new delivery valve and its sealing components are clean and correctly oriented.
2. **Install Valve:** Hand-thread the delivery valve holder into its port until finger-tight.
3. **Torque to Specification:** Place the P7100 socket onto the delivery valve holder, attach a 1/2-inch drive torque wrench, and tighten to the manufacturer's specified torque settings. Refer to your vehicle's service manual for exact torque values.
4. **Final Check:** After installation, inspect for proper seating and clean any spilled fuel.

4. MAINTENANCE

To ensure the longevity and optimal performance of your Snap-on P7100 Delivery Valve Socket, follow these maintenance guidelines:

- **Cleaning:** After each use, clean the socket to remove any fuel, oil, or debris. Use a suitable solvent and a clean rag.
- **Inspection:** Regularly inspect the socket for signs of wear, cracks, or damage to the splines. Discontinue use if any damage is observed.
- **Storage:** Store the socket in a dry, clean environment to prevent rust and corrosion.

5. TROUBLESHOOTING

If you encounter issues while using the P7100 Delivery Valve Socket, consider the following:

- **Socket Not Seating Properly:** Ensure the delivery valve holder is free of paint, rust, or debris that might obstruct the socket's fit. A light tap with a rubber mallet can help seat the socket if the fit is tight. Do not force the socket if it does not align, as this may damage the splines on either the socket or the valve.
- **Difficulty Loosening Valve:** If the valve is excessively tight, ensure you are using a breaker bar for increased leverage. Apply steady, increasing pressure rather than sudden force. Ensure the socket is fully engaged to prevent stripping.
- **Damaged Splines:** If the socket's splines appear worn or damaged, replace the socket to prevent damage to the delivery valve holders.

6. SPECIFICATIONS

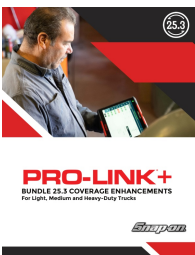

Brand	Snap-on
Model Number	P7100 (Manufacturer Part Number: DAP-DVSOC)
Drive Size	1/2-inch
Spline Count	32-spline
Item Weight	7.2 ounces
Package Dimensions	7.01 x 5 x 1.5 inches
UPC	718122535187

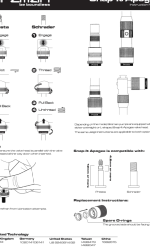

7. WARRANTY AND SUPPORT

Information regarding specific warranty terms or direct support contacts for the Snap-on P7100 Delivery Valve Socket is not available in the provided product data. For warranty claims or technical assistance, please refer to the official Snap-on website or contact an authorized Snap-on dealer.

This manual is intended for informational purposes only. Always consult professional service manuals for specific vehicle repair procedures and safety guidelines.

2023 OTTO PRODUCT LIST	
Accessories For OTTO Speaker Mics and Headsets	
Earphone with Acoustic Tube	
PART NUMBER	DESCRIPTION
02-10401	Earphone K15, listen only 2.5mm rt, angle plug
02-10412.5	Earphone K15, listen only 2.5mm rt, angle plug
02-10402	Earphone K15, listen only 2.5mm straight plug
02-10403	Earphone K15, 40 inch, listen only 2.5mm straight plug
02-10404	Earphone K15, listen only 2.5mm straight plug
02-10413	Earphone K15, listen only 2.5mm rt, angle plug
02-10415	Earphone K15, listen only 2.5mm rt, angle plug
02-10405	Earphone K15, 40 inch, listen only 2.5mm rt, angle plug, black
02-10407	Earphone K15, 40 inch, listen only 2.5mm rt, angle plug, beige
02-10408	Earphone K15, 12 inch, listen only 2.5mm straight plug
02-10420	Earphone K15, listen only for Gemalto, 4 Pin version
02-10442	Earphone K15, listen only 2.5mm rt, angle "surround" plug
02-11443	Earphone K15, listen only 2.5mm rt, angle "surround" plug
02-11444	Lo-Vol Earphone K15, 2.5mm, left
02-11445	Lo-Vol Earphone K15, 2.5mm, right
02-11446	Lo-Vol Earphone K15, 2.5mm, right
02-11447	Lo-Vol Earphone K15, 2.5mm, right
02-11448	One Wire bottom RJ45T, 2.5mm earphone jack, 40
02-11570	One Wire bottom RJ45T, 2.5mm earphone jack, 40
02-11571	One Wire bottom RJ45T, 2.5mm earphone jack, 40
EAR HANGER OPTION	
PART NUMBER	DESCRIPTION
02-12011.1	Earphone K15, listen only 2.5mm rt, angle PTT
02-12011.2	Earphone K15, listen only 2.5mm rt, angle plug
DUAL EARPHONE KIT	
PART NUMBER	DESCRIPTION
02-10001	Dual Earphone K15, listen only 2.5mm straight plug, noise attenuating plug
02-10002	Dual Earphone K15, listen only 2.5mm straight plug, noise attenuating plug
REMOTE PTT ACCESSORIES FOR VARIOUS HEADSETS WITH 2.5MM EARPHONE JACK	
PART NUMBER	DESCRIPTION
02-10513	Plug PTT, 40 inches, 2.5mm rt, angle plug
02-10513.5	Plug PTT, 40 inches, 2.5mm rt, angle plug
02-10513	Shim Body PTT, coiled cord 2.5mm rt, angle plug
PROFESSIONAL WIRELESS ACCESSORIES FOR USE WITH PROFESSIONAL SURVEILLANCE KITS	
PART NUMBER	DESCRIPTION
02-11114	Max Tap (15) and Installation Tool (patented) for V10 Wireless Ear Receiver
02-11115	Battery 141 for Wireless Ear Receiver
02-11116	Conventional Wireless Ear Receiver (to be used with Flat Pack Indicator or Neckloop), beige
