

Orzly ORZAPPLEWATCHSTAND

Orzly DuoStand Charge Station User Manual

Aluminum Desk Stand Cradle for Apple Watch & iPhone

PRODUCT OVERVIEW

The Orzly DuoStand Charge Station is an all-in-one aluminum desk stand designed to securely hold and charge both your Apple Watch and iPhone simultaneously. Crafted from aircraft-grade aluminum, it offers a lightweight, compact, and durable solution for organizing your devices on any desk or nightstand. The stand features built-in insert slots for your Apple Watch's grommet wireless charger and your iPhone's Lightning cable, ensuring a neat and organized charging experience. Anti-slip rubber mats provide stability and protection for your devices and surfaces.

SETUP INSTRUCTIONS

Follow these steps to set up your Orzly DuoStand Charge Station:

1. **Prepare Chargers:** Ensure you have your official Apple Watch magnetic charging cable (grommet wireless charger) and your iPhone Lightning cable. These are not included with the stand.
2. **Install Apple Watch Charger:** Carefully insert the Apple Watch magnetic charging grommet into the designated circular slot on the stand. The charger should fit snugly and flush within the opening.

Comfortable Viewing Angle

Continue using your watch whilst it charges

Image: A close-up view of the Orzly DuoStand showing the Apple Watch magnetic charging grommet being inserted into its dedicated slot, ensuring a secure and flush fit for cable management.

3. **Route Apple Watch Cable:** Guide the Apple Watch charging cable through the channel provided on the underside of the stand to keep it organized and out of sight.
4. **Install iPhone Lightning Cable:** Thread your iPhone Lightning cable through the opening at the base of the iPhone cradle. Ensure the Lightning connector protrudes sufficiently to connect to your iPhone.

Dual Charge

Charge both at the same time

Image: The Orzly DuoStand demonstrating the routing of the iPhone Lightning cable through its integrated channel, designed for clean cable management and easy device connection.

5. **Connect to Power:** Connect both charging cables to a suitable USB power adapter (not included) and plug it into a power outlet.

OPERATING INSTRUCTIONS

Using your Orzly DuoStand for charging and display is straightforward:

- **Charging Apple Watch:** Place your Apple Watch onto the magnetic charging grommet. Ensure the watch aligns correctly with the charger for optimal contact and charging to begin. The stand supports both 38mm/40mm and 42mm/44mm Apple Watch models.

Image: An Apple Watch positioned on the Orzly DuoStand, actively charging. The stand holds the watch at an angle that allows for continued interaction and visibility.

- **Charging iPhone:** Gently place your iPhone onto the Lightning connector protruding from the stand's base. The stand is compatible with all iPhone models (5 / 5S / 5C / 6 / 6 PLUS and newer models with Lightning port).

Charge your iPhone

Whilst keeping it in full view

Image: An iPhone securely docked and charging on the Orzly DuoStand. The phone is held upright, allowing for easy viewing and access to the screen.

- **Viewing Angle:** The stand is designed to provide a comfortable viewing angle for both devices, allowing for continued interaction and visibility while they are charging. You can place your iPhone in either portrait or landscape orientation.

Image: The Orzly DuoStand displaying an Apple Watch at a comfortable viewing angle, highlighting the stand's ergonomic design for user interaction while charging.

- **Stability:** The anti-slip rubber mats on the base and device contact points ensure the stand remains stable and prevents scratches to your devices.

MAINTENANCE

To ensure the longevity and appearance of your Orzly DuoStand Charge Station, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry, lint-free cloth to wipe down the aluminum surface. For stubborn smudges, slightly dampen the cloth with water. Avoid abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish.
- **Rubber Mats:** Periodically check the anti-slip rubber mats for any debris or wear. Clean them gently with a damp cloth if necessary to maintain their grip.
- **Cable Channels:** Ensure the cable routing channels remain clear of dust or obstructions to allow for smooth insertion and removal of charging cables.
- **Storage:** When not in use for extended periods, store the stand in a clean, dry environment away from extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your Orzly DuoStand, refer to the following common problems and solutions:

Problem	Possible Cause / Solution
Apple Watch not charging.	<ul style="list-style-type: none">• Ensure the Apple Watch magnetic charger is fully seated and flush in its slot.• Verify the Apple Watch is correctly aligned on the charger. Some watch bands (e.g., Milanese loop, protective cases) might prevent full contact; try adjusting the watch's position or removing the band/case if necessary.• Check if the charging cable is securely connected to the power adapter and outlet.• Test the Apple Watch charger independently to ensure it is functional.
iPhone not charging.	<ul style="list-style-type: none">• Ensure the Lightning cable is properly threaded through the stand and the connector is fully inserted into the iPhone's charging port.• Check for debris in the iPhone's charging port.• Verify the Lightning cable is securely connected to the power adapter and outlet.• Test the Lightning cable independently to ensure it is functional.• If using a thick phone case, it might prevent the Lightning connector from fully engaging. Consider removing the case or using a case-friendly cable.
Stand feels unstable or slides.	<ul style="list-style-type: none">• Ensure the stand is placed on a flat, level surface.• Check the anti-slip rubber mats on the bottom of the stand for dirt or damage. Clean them if necessary.• Verify that devices are placed correctly and balanced on the stand.
