# Garmin NuviCam LMTHD 6-Inch Navigator with Built-in Dash Cam Instruction Manual

Model: 010-01378-01 | Brand: Garmin

## 1. OVERVIEW

The Garmin NuviCam LMTHD is a premium auto navigator featuring a 6-inch glass display, a built-in dash camera, and advanced driver awareness features. It continuously records your drive, automatically saving files on impact, and uses GPS to record event locations and times. Driver awareness features include Forward Collision Warning and Lane Departure Warning. Garmin Real Vision provides camera views for select destinations. This device also includes free lifetime map updates.

### Key Features:

- **Built-in Dash Cam:** Continuously records your drive and automatically saves files on impact; GPS records where and when events occurred.
- **Forward Collision Warning:** Alerts if you drive too close to the vehicle ahead.
- **Lane Departure Warning:** Alerts if you drift off the road or into oncoming traffic.
- **Garmin Real Vision:** Displays camera view when approaching select destinations.
- **Free Lifetime Map Updates:** Ensures your routes reflect the latest map data available.

Image: The Garmin NuviCam LMTHD device displaying a navigation map with a "Forward Collision Warning" alert. The device also features a visible dash cam lens on its rear side.

## 2. SETUP

### 2.1 What's in the Box

Verify that all components are present in the product packaging:

- Garmin NuviCam LMTHD device
- USB cable
- Suction mount
- Magnetic mount
- Minimum 4 GB microSD card

### 2.2 Mounting the Device

The device can be mounted to your vehicle's windshield using the provided suction mount. Ensure the mounting surface is clean and dry for optimal adhesion. The magnetic mount facilitates easy attachment and removal of the device from the suction cup.

### 2.3 Powering On and Initial Configuration

Connect the device to your vehicle's power outlet using the provided USB cable and car charger. The device will power on automatically. Follow the on-screen prompts to complete the initial setup, including language selection, time zone, and map preferences. It is recommended to connect the device to a Wi-Fi network for map and software updates during initial setup.

## 3. OPERATING THE DEVICE

### 3.1 Navigation Basics

To begin navigation, touch the "Where To?" icon on the main menu. You can search for addresses, points of interest, or select from saved locations or recent destinations. The device provides turn-by-turn directions and

displays the route on the 6-inch screen. Map views can be switched between 2D overhead and 3D perspectives.

### 3.2 Using the Built-in Dash Cam

The integrated dash cam continuously records your drive. In the event of an impact, the device automatically saves the video footage, along with GPS data indicating the location and time of the incident. Ensure a microSD card is inserted for recording. Video files are typically saved in one-minute segments.

### 3.3 Driver Awareness Features

- **Forward Collision Warning:** This feature monitors the distance to the vehicle ahead and provides visual and audible alerts if you are approaching too quickly.
- **Lane Departure Warning:** If the device detects that you are drifting out of your lane without signaling, it will provide alerts.
- **Garmin Real Vision:** When approaching certain destinations, the device can display a camera view to assist with navigation.

### 3.4 Map Updates

The NuviCam LMTHD includes free lifetime map updates. Connect the device to a Wi-Fi network to download and install the latest map data. Regular updates ensure accurate navigation and reflect changes in road networks and points of interest.

## 4. MAINTENANCE

---

### 4.1 Cleaning

To clean the device, use a soft, lint-free cloth. Avoid abrasive cleaners or solvents that may damage the screen or casing. For the camera lens, use a lens cleaning solution and a microfiber cloth.

### 4.2 Software Updates

Periodically check for software updates via Wi-Fi to ensure optimal performance and access to new features. Updates can improve device stability and functionality.

### 4.3 Battery Care

The device contains a Lithium Ion battery. For best battery life, avoid exposing the device to extreme temperatures. If the device will not be used for an extended period, store it in a cool, dry place with a partial charge.

## 5. TROUBLESHOOTING

---

### 5.1 Device Not Powering On

- Ensure the device is properly connected to a power source in your vehicle.
- Check the vehicle's power outlet for functionality.
- Verify the USB cable is not damaged.

### 5.2 GPS Signal Loss

- Ensure the device has a clear view of the sky.
- Avoid mounting the device near metallic objects that may interfere with the signal.

- Move to an open area if operating indoors or in a covered parking structure.

### 5.3 Dash Cam Recording Issues

- Verify that a compatible microSD card (MLC NAND Flash recommended) is inserted and properly formatted.
- Check the available storage space on the microSD card.
- Ensure the dash cam feature is enabled in the device settings.

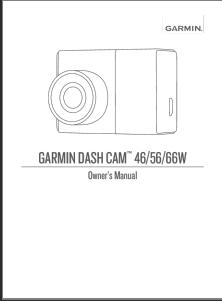

## 6. SPECIFICATIONS

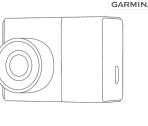

<b>Product Dimensions</b>	0.6 x 7.2 x 3.7 inches
<b>Item Weight</b>	11.7 ounces
<b>Item Model Number</b>	010-01378-01
