Setup and Installation

The HD101 is designed for easy installation and removal, allowing for flexible use in your vehicle or at home.

In-Car Installation:

1. Attach the mounting bracket to the headrest posts. Ensure a secure fit.
2. Slide the headrest DVD player onto the mounting bracket until it clicks into place.
3. Connect the power cable. Two options are provided:
    - Use the cigarette lighter adapter for simple plug-and-play power.
    - Hardwire the unit to a 12V power source using the provided ISO wiring harness for a more permanent installation.
4. Adjust the viewing angle for optimal comfort.

Home Use:

For home use, the unit can be easily removed from the car and powered using an optional AC power adapter (not included). This allows you to enjoy your media content in any room.

Operating Instructions

Playing DVDs/CDs:

The HD101 features a region-free DVD player. To insert a disc, gently open the disc cover on the back of the unit and place the disc with the label facing up. Close the cover securely. The unit will automatically begin playing the disc.

Multimedia Playback (USB & SD):

Insert your USB stick or SD card into the designated slots on the side of the unit. The maximum capacity supported is 32GB, with individual files not exceeding 4GB. The unit will detect the media and allow you to browse and play music, videos, or view photos.

HDMI Connectivity:

Connect your mobile phone or other HDMI-enabled devices to the built-in HDMI port for seamless video sharing and gaming. This allows you to mirror your device's screen directly onto the HD101 display.

Demonstration of connecting a smartphone to the headrest player via HDMI for screen mirroring, supporting both wired and wireless options.

Audio Output Options:

- **Built-in Speakers:** Play audio directly from the unit for personal listening.
- **Built-in IR Transmitter:** Connect wireless infrared headphones (not included, XTRONS DWH002, DWH003, DWH004 are compatible) for private listening. Supports dual channel (A: 2.3-2.8MHz, B: 3.2-3.8MHz).
- **Built-in FM Transmitter:** Send the audio signal from the headrest to your car's radio receiver (car stereo) to share audio with other passengers.

Playing Games:

The unit supports 32-bit games. Insert the provided game disc into the DVD player. Use the included remote control, which doubles as a gamepad, to navigate and play games.

Maintenance

To ensure the longevity and optimal performance of your XTRONS HD101 headrest DVD player, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. Avoid abrasive cleaners or solvents that may damage the surface.
- **Disc Care:** Handle discs by their edges to prevent fingerprints and scratches. Store discs in their cases when not in use.
- **Ventilation:** Ensure the unit's ventilation openings are not blocked to prevent overheating.
- **Temperature:** Avoid exposing the unit to extreme temperatures, both hot and cold, for extended periods.

Troubleshooting

If you encounter issues with your XTRONS HD101, please refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
No Power	Loose power connection; Blown fuse; Vehicle power issue.	Check all power connections. Ensure cigarette lighter socket is working. Check vehicle's fuse box.
No Picture/Sound	Incorrect input source selected; Loose AV cables; Disc/USB/SD card issue.	Verify correct input source (DVD, HDMI, USB, SD). Check AV cable connections. Try a different disc/media.
Disc Ejection Difficulty	Disc not properly seated; Mechanism jam.	Gently try to re-seat the disc. If persistent, contact customer support.
Remote Not Working	Dead batteries; Obstruction between remote and unit.	Replace remote batteries. Ensure clear line of sight to the unit's IR receiver.

For further assistance, please contact XTRONS customer support.
