Inter Link Claas Multifunctional Single Bed with Storage

Model: 30400630 | Size: 90x200 cm | Material: Natural Pine

INTRODUCTION

Thank you for choosing the Inter Link Claas Multifunctional Single Bed. This manual provides essential information for the safe assembly, operation, and maintenance of your new bed. Please read these instructions carefully before beginning assembly and retain them for future reference.

SAFETY INFORMATION

Important: Always prioritize safety during assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- Check the stability of the bed after assembly and periodically during use. Ensure all connections are secure.
- Confirm the bed can support the recommended weight capacity.
- Keep small children away from the bed during assembly and ensure adult supervision when children are near the bed, especially due to its height.
- Do not allow children to play on or around the bed without supervision.

SETUP AND ASSEMBLY

This bed requires assembly. It is recommended that two people assemble this product. Please allow sufficient time for assembly, as it can be a lengthy process.

Before You Begin:

- **Packaging:** This item is shipped in 2 separate boxes. These boxes may arrive at different times, up to 72 hours apart. Please ensure you have received all packages before starting assembly.
- **Unpack and Sort:** Carefully unpack all components and hardware. Lay them out on a clean, soft surface to prevent scratches. Note that components are not numbered; refer to the instruction diagrams for identification. All small parts (screws, dowels, etc.) are typically mixed in one bag, requiring sorting.
- **Tools Required:** A screwdriver and a hammer are essential. A power drill is highly recommended to assist with assembly, as some holes may not be pre-drilled.

Assembly Steps:

1. Follow the step-by-step diagrams provided in the separate assembly instructions.
2. Insert dowels into designated holes, applying wood glue where indicated for added stability.
3. Connect the main frame components, ensuring all joints are flush and secure.
4. Attach the bed slats individually to the frame. These are wooden strips, not flexible sprung slats.
5. Assemble the drawers and niches according to the diagrams.
6. Carefully tighten all screws. As the bed is made of solid pine, avoid overtightening to prevent stripping or damaging the wood.

OPERATING THE BED FEATURES

The Inter Link Claas bed is designed for functionality and storage, making it ideal for smaller spaces or for those needing extra organization.

Integrated Storage:

- The bed features three drawers (two small, one large) and two open niches located beneath the bed frame.
- These storage compartments are suitable for bedding, clothes, books, or other personal items.
- The drawers are equipped with wheels for easy access. Ensure they are properly aligned when opening and closing to prevent them from going under the bed.

Pull-out Bedside Table:

- An integrated bedside table can be pulled out from the side of the bed, providing a convenient surface for personal items.
- Gently pull the table out when needed and push it back in when not in use to save space.

MAINTENANCE AND CARE

Proper care will ensure the longevity and appearance of your Inter Link Claas bed.

- **Cleaning:** Clean the natural pine wood surfaces with a soft, slightly damp cloth. Avoid using abrasive cleaners, harsh chemicals, or excessive moisture, as these can damage the wood finish.
- **Stability Check:** Periodically check all screws and connections to ensure they remain tight. Re-tighten any loose hardware to maintain the bed's structural integrity.
- **Wood Care:** Pine wood is a natural material. Protect it from direct sunlight and extreme temperature changes to prevent warping or discoloration.
- **Drawer Maintenance:** Keep the drawer wheels free from dust and debris to ensure smooth operation.

TROUBLESHOOTING

This section addresses common issues you might encounter.

- **Missing or Damaged Parts:** If you discover any parts are missing or damaged upon delivery, immediately stop assembly and contact customer support with your purchase details. Do not attempt to force damaged parts.
- **Assembly Difficulty:** If the assembly instructions are unclear or parts are difficult to identify due to lack of numbering, carefully compare each component to the diagrams. A power drill with appropriate bits can be helpful for holes that are not fully pre-drilled.
- **Drawers Not Sliding Smoothly:** Ensure the drawers are correctly placed on their wheels and that the wheels are clean. Check for any obstructions on the floor or within the bed frame that might impede movement.
- **Bed Instability:** If the bed feels wobbly after assembly, re-check all screw connections. Ensure every screw is tightened securely, but avoid overtightening, especially in soft wood. Verify that all structural components are correctly aligned.

SPECIFICATIONS

Feature	Detail
Model Number	30400630
Brand	Inter Link
Color	Natural
Product Dimensions (L x W x H)	209 x 96 x 48 cm
