KAWADA NBC_143

KAWADA Nanoblock Chameleon NBC_143 Instruction Manual

Model: NBC_143

1. Introduction

This instruction manual provides detailed guidance for assembling your KAWADA Nanoblock Chameleon (Model: NBC_143). Nanoblock offers a unique building experience with micro-sized blocks, allowing for intricate detail and realistic models. Follow these instructions carefully to construct your own chameleon model.

Figure 1: The completed Nanoblock Chameleon model.

What's in the Box:

- Nanoblock Chameleon [Reptilia] building kit pieces (approximately 120 pieces)
- Instruction booklet

Figure 2: Nanoblock Chameleon kit packaging.

2. Important Safety Information

WARNING:

- Product contains small parts considered to be a choking hazard. Not suitable for children under 3 years.
- Recommended age for assembly: 15 years and up.

3. Setup and Preparation

Before beginning assembly, ensure you have a clean, well-lit, and flat workspace. Due to the micro-size of the Nanoblock pieces (as small as 4mm x 5mm), it is recommended to:

- Carefully open the bags containing the blocks.
- Sort the pieces by color and shape to facilitate easier identification during construction.
- Keep all pieces contained to prevent loss, as they are very small.

4. Assembly Instructions

Follow the step-by-step diagrams provided in the included instruction booklet. Each step will illustrate which pieces to use and where to place them. Pay close attention to the orientation of each block.

General Building Tips:

- **Layer by Layer:** Nanoblock models are typically built in layers. Ensure each layer is securely connected before proceeding to the next.
- **Piece Identification:** The instruction diagrams will show the exact number and type of blocks required for each step. Double-check your pieces before attaching them.
- **Firm Connection:** Apply gentle, even pressure to ensure blocks snap together firmly.
- **Patience is Key:** Due to the small size and intricate nature, assembly requires patience and precision. Take breaks if needed.

Specific Assembly Notes for Chameleon:

1. Begin by constructing the base structure of the chameleon's body, following the numbered steps in the manual.
2. Carefully attach the legs and tail sections, ensuring they are oriented correctly for stability.
3. Assemble the head, including the distinctive eyes and mouth.
4. Integrate the red tongue piece as shown in the instructions.
5. Once the chameleon body is complete, assemble the brown branch and the clear display stand (if included with your specific kit, refer to Figure 3).
6. Securely place the chameleon onto the branch.

Figure 3: The Nanoblock Chameleon displayed on its stand.

5. Operating Tips

Your Nanoblock Chameleon is a display model. While durable, it is composed of many small, interlocking pieces. Handle with care to prevent accidental disassembly.

- Avoid dropping the model.
- Do not apply excessive force or pressure to any part of the model.
- Keep the model away from pets and young children who might attempt to play with or dismantle it.

6. Maintenance and Cleaning

To keep your Nanoblock Chameleon looking its best:

- **Dusting:** Use a soft, dry brush (like a clean makeup brush or a soft paintbrush) to gently remove dust from the model. Compressed air can also be used from a safe distance.
- **Deep Cleaning:** If necessary, the model can be carefully disassembled and washed with mild soap and cool water.

Ensure all pieces are thoroughly dried before reassembly.

- **Storage:** If storing the model, place it in a secure container to protect it from dust and damage.

7. Troubleshooting

Here are solutions to common issues you might encounter:

- **Pieces not staying together:**
  - Ensure blocks are fully pressed down and interlocked.
  - Verify that the correct pieces are being used for each step according to the instructions.
  - If a section repeatedly comes apart, try reassembling that specific part with extra care.
- **Missing pieces:**
  - Carefully check your workspace and packaging for any overlooked small pieces.
  - Contact KAWADA customer support if pieces are genuinely missing from a new kit.

8. Specifications

Feature	Detail
Product Dimensions	2.44 x 2.04 x 2.91 inches
Item Weight	1 ounces
Item Model Number	NAN14938
Manufacturer Recommended Age	15 years and up
Number of Pieces	120
Brand	KAWADA

9. Warranty and Support

For specific warranty information or customer support regarding your Nanoblock Chameleon, please refer to the contact details provided on the product packaging or visit the official KAWADA website. If you purchased this item from a retailer, you may also contact their customer service for assistance.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
