# Infanti Lifestyle Baby Care Set - 14 Pieces

Model: 23AG112

## INTRODUCTION

The Infanti Lifestyle Baby Care Set provides 14 essential tools for your baby's daily hygiene and grooming needs. This comprehensive kit is designed with your baby's comfort and safety in mind, offering gentle solutions for nail care, hair grooming, nasal congestion, and oral hygiene. All items are conveniently stored in a practical carrying bag, making it ideal for home use or travel.

## PRODUCT COMPONENTS

This 14-piece set includes the following items:

- **6 Nail Files:** For gently smoothing baby's nails.
- **1 Nail Clipper:** Designed for safe and precise trimming of baby's nails.
- **1 Hair Brush:** Soft bristles for delicate baby hair and scalp.
- **1 Comb:** Fine teeth for detangling baby's hair.
- **1 Nasal Aspirator:** To gently clear excess mucus from baby's nose.
- **1 Teething Brush:** For massaging gums and cleaning first teeth.
- **1 Spray Bottle (Atomizer):** For applying water or gentle solutions.
- **1 Towel:** Soft and absorbent for baby's face and body.
- **1 Handy Bag:** For convenient storage and transport of all items.

SETUP AND PREPARATION

---

Upon receiving your Infanti Lifestyle Baby Care Set, please follow these steps:

1. **Unpack:** Carefully remove all 14 items from the handy bag.
2. **Inspect:** Check each item for any signs of damage or manufacturing defects.
3. **Clean:** Before first use, wash all items that will come into contact with your baby's skin or mouth (e.g., brush, comb, nasal aspirator, teething brush, towel) with mild soap and warm water. Rinse thoroughly and allow to air dry.
4. **Organize:** Place all cleaned items back into the handy bag for easy access and storage.

## OPERATING INSTRUCTIONS

---

Always ensure your baby is calm and comfortable before using any grooming tools. Adult supervision is required at all times.

### Nail Care (Nail Clipper & Nail Files)

- **Nail Clipper:** Hold your baby's finger or toe firmly. Gently press down on the skin around the nail to expose the nail tip. Carefully clip straight across the nail, avoiding cutting too short or into the quick.
- **Nail Files:** After clipping, use a nail file to gently smooth any sharp edges or snags. File in one direction to prevent splitting.

### Hair Grooming (Hair Brush & Comb)

- **Hair Brush:** Use the soft-bristled brush to gently comb and style your baby's hair. It is suitable for delicate scalps and can help stimulate circulation.
- **Comb:** For detangling small knots or styling, use the comb with gentle strokes.

### Nasal Aspirator

- **To Use:** Squeeze the bulb of the aspirator to expel air. Gently insert the soft tip into one of your baby's nostrils. Release the bulb slowly to draw out mucus.
- **Repeat:** Remove the aspirator, squeeze the bulb to expel mucus into a tissue, and repeat for the other nostril if necessary.

### Oral Hygiene (Teething Brush)

- **For Gums:** Gently massage your baby's gums with the soft bristles of the teething brush to soothe discomfort during teething.
- **For First Teeth:** Once teeth emerge, use the brush with a tiny smear of baby-safe toothpaste (if recommended by your pediatrician) to gently clean them.

### Facial Care (Spray Bottle & Towel)

- **Spray Bottle:** Fill with clean water or a pediatrician-approved gentle facial mist. Use to lightly moisten your baby's face.
- **Towel:** Use the soft towel to gently pat dry your baby's face or for general cleaning.

## CARE AND MAINTENANCE

---

Proper cleaning and storage will extend the life of your baby care set.

- **General Cleaning:** After each use, wash items like the brush, comb, nasal aspirator, and teething brush with mild soap and warm water. Rinse thoroughly to remove all soap residue.
- **Nasal Aspirator:** Disassemble if possible (some models allow the tip to be removed) and clean all parts thoroughly to prevent bacterial growth. Ensure it is completely dry before reassembling.
- **Towel:** Machine wash with baby-safe detergent and tumble dry on low heat.
- **Drying:** Allow all items to air dry completely before storing them in the handy bag to prevent mold or mildew.
- **Storage:** Store the set in the provided handy bag in a clean, dry place, away from direct sunlight and extreme temperatures.

## TROUBLESHOOTING

---

Here are solutions to common issues you might encounter:

- **Nasal Aspirator not suctioning effectively:** Ensure the tip is properly sealed against the nostril. If the bulb feels stiff, it might be due to dried mucus; clean thoroughly as per maintenance instructions.
- **Brush bristles becoming stiff:** This can happen with repeated washing. Ensure you are using mild soap and rinsing thoroughly. Allow to air dry completely.
- **Nail clipper feels dull:** If the nail clipper is no longer cutting cleanly, it may need replacement. Sharp tools are crucial for baby safety.
