OPERATING INSTRUCTIONS

Charging Your Device:

- Once connected to a power source (wall adapter, power bank, car charger), your device should begin charging automatically.
- Monitor your device's screen for the charging indicator.
- For optimal charging speed, use a compatible power adapter with appropriate voltage and amperage.

Data Transfer:

- Connect the USB Type-A end of the cable to a USB port on your computer.
- Connect the Micro USB end to your LG Optimus G Pro phone.
- Your computer should recognize the phone as a removable device or media device.

- Follow your computer's operating system prompts to access files for transfer.

MAINTENANCE

Proper care will extend the life of your SLLEA USB cable:

- **Storage:** Store the cable in a cool, dry place away from direct sunlight and extreme temperatures. Avoid tightly coiling or bending the cable sharply, especially near the connectors.
- **Cleaning:** If necessary, gently wipe the cable with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- **Handling:** Always grasp the connector ends when plugging or unplugging the cable. Avoid pulling on the cable itself, as this can damage the internal wires.
- **Inspection:** Periodically inspect the cable and connectors for any signs of wear, fraying, or damage. Discontinue use if damage is observed.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging.	Cable not fully inserted. Faulty power adapter or USB port. Damaged cable. Incompatible device.	Ensure both ends of the cable are securely connected. Try a different power adapter or USB port. Inspect the cable for visible damage. If damaged, replace it. Verify your device is listed as compatible.
Data transfer not working.	Cable not fully inserted. Computer USB port issue. Device driver issue on computer. Phone not in data transfer mode.	Ensure both ends of the cable are securely connected. Try a different USB port on your computer. Check your computer's device manager for driver issues. On your phone, select "File Transfer" or "MTP" mode when prompted after connecting.
Slow charging.	Low power output from source. Background apps on device.	Use a wall adapter with higher amperage (e.g., 2A or more). Close unnecessary applications on your phone.
