

Koss KSC32i GRY

Koss KSC32iGry In-Ear Sport Clip Headphones User Manual

Model: KSC32i GRY | Brand: Koss

1. INTRODUCTION

Thank you for choosing the Koss KSC32iGry In-Ear Sport Clip Headphones. These headphones are designed for active lifestyles, featuring a secure sport clip fit, sweat resistance, and an in-line microphone for convenient communication. This manual provides essential information for setting up, operating, and maintaining your headphones to ensure optimal performance and longevity.

2. PACKAGE CONTENTS

Ensure all items are present in your package:

- Koss KSC32i Fitclips Earbuds with Microphone (Gray)
- Multiple sizes of silicone ear cushions (small, medium, large)

Image 2.1: Included ear cushions in three different sizes to ensure a comfortable and secure fit.

3. SETUP AND FIT

Proper fit is crucial for both comfort and sound quality, especially during physical activity. The KSC32i headphones feature a unique sport clip design that rests securely over your ear.

1. **Select Ear Cushions:** Choose the ear cushion size (small, medium, or large) that provides the most comfortable and secure seal within your ear canal. A good seal enhances bass response and noise isolation.
2. **Positioning the Sport Clip:** Gently place the earbud into your ear canal. Then, guide the flexible sport clip over the top and behind your ear. The clip is designed to conform to the shape of your ear, holding the earbud firmly in place without discomfort.
3. **Cable Management:** The cable runs through the back of the sport clip. Allow gravity to assist in creating a perfect fit as the cable hangs naturally.
4. **Connect to Device:** Plug the 3.5mm audio jack into your audio source (smartphone, MP3 player, etc.).

4. OPERATING INSTRUCTIONS

The KSC32i headphones feature an in-line microphone with a one-touch control button for managing audio and calls.

- **Audio Playback:** Once connected to your device, audio will play through the headphones. Use your device's volume controls to adjust the listening level.
- **Play/Pause:** Press the button on the in-line microphone once to play or pause audio.
- **Answer/End Call:** When a call comes in, press the button once to answer. Press it again to end the call.
- **Microphone Usage:** The integrated microphone allows for hands-free communication during calls. Ensure the microphone is positioned appropriately for clear voice pickup.

5. MAINTENANCE AND CARE

To ensure the longevity and performance of your Koss KSC32i headphones, follow these care guidelines:

- **Cleaning:** The headphones are sweat resistant. After intense workouts, gently wipe the earbuds and sport clips with a soft, damp cloth. Ensure they are dry before storage. Do not submerge in water.
- **Ear Cushions:** Remove ear cushions periodically and clean them with mild soap and water. Rinse thoroughly and allow them to air dry completely before reattaching.
- **Storage:** Store your headphones in a clean, dry place away from extreme temperatures and direct sunlight. Avoid tangling the cable by coiling it loosely.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or strong detergents, as these can damage the materials.

6. TROUBLESHOOTING

If you encounter issues with your headphones, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No sound or low volume	Cable not fully plugged in. Device volume too low or muted. Incorrect ear cushion size/poor seal. Damaged cable or connector.	Ensure 3.5mm jack is fully inserted into your device. Increase volume on your device and check for mute settings. Try different ear cushion sizes to achieve a proper seal. Test with another audio device or cable if possible.
Poor sound quality (tinny, distorted)	Poor earbud seal. Audio source quality.	Adjust earbud position and try different ear cushion sizes for a better seal. Test with high-quality audio files or another device.
Microphone not working	Device settings. Microphone port issue.	Check your device's audio input settings to ensure the external microphone is selected. Ensure the 3.5mm jack is fully inserted.
Headphones fall out during activity	Improper fit of sport clip or ear cushion.	Experiment with different ear cushion sizes. Adjust the sport clip to ensure it sits snugly over and behind your ear.

7. SPECIFICATIONS

Feature	Detail
Model Name	KSC32i
Connectivity Technology	Wired
Headphones Jack	3.5 mm Jack
Frequency Response	15 Hz - 25 kHz
Impedance	16 Ohm
