AIRCARE CM330DWHT

AIRCARE CM330DWHT Companion Evaporative Humidifier User Manual

Model: CM330DWHT

1. PRODUCT OVERVIEW

The AIRCARE CM330DWHT Companion Evaporative Humidifier is designed to add essential moisture to your indoor environment, improving air quality and comfort. This compact unit features digital controls and Trapmax Filter Technology for efficient operation.

Figure 1: Overview of the AIRCARE CM330DWHT Companion Evaporative Humidifier highlighting its compact design and key features.

2. SETUP AND FILLING

Proper setup ensures optimal performance of your humidifier. Follow these steps to prepare your unit for

use.

1. **Unpacking:** Carefully remove all packaging materials and ensure all components are present.
2. **Placement:** Place the humidifier on a flat, water-resistant surface in the area where humidification is desired. Ensure adequate space around the unit for air circulation.
3. **Filling the Reservoir:**
 - Remove the top section of the humidifier.
 - Pour water directly into the reservoir. The unit features an easy-to-use pour-in-fill design.
 - Fill until the water refill indicator shows full. The capacity is approximately 1.6 gallons.
 - Optionally, add a humidifier bacteriostatic treatment to help keep the filter clean.
 - Replace the top section securely.

3. OPERATING INSTRUCTIONS

Your humidifier features digital controls for easy adjustment of humidity levels and fan speeds.

1. **Power On/Off:** Press the power button to turn the unit on or off.

2. **Adjusting Fan Speed:** The unit has 3 fan speeds. Press the fan speed button to cycle through the available settings (Low, Medium, High).
3. **Setting Humidity Level (Auto Humidistat):** Use the humidity adjustment buttons to set your desired humidity level. The auto humidistat will automatically maintain this level. The unit will shut off when the desired humidity is reached or when the reservoir is empty.
4. **Indicators:** The humidifier includes indicators for checking the filter and water refill status.

4. MAINTENANCE

Regular maintenance ensures the longevity and efficiency of your humidifier.

1. **Filter Replacement:** The humidifier uses Trapmax Filter Technology. Replace the 1040 Super Wick filter regularly as indicated by the 'Check Filter' light or approximately every 1-3 months, depending on usage and water quality.
2. **Cleaning:** Periodically clean the water reservoir and other accessible parts to prevent mineral buildup and maintain hygiene. Refer to the full user manual for detailed cleaning instructions.
