### Key Features

- **Magnetic Mounting:** Attaches securely with high strength neodymium magnets.
- **Versatile Usage:** Can be used on car dash, kitchen counter, bedside table, bathroom mirror.
- **Adhesive Mounting:** Stick-on magnetic holder with authentic 3M adhesive for a no-slip grip.
- **Compatible Devices:** Fits most smartphones, tablets, GPS units and smartwatches.
- **Durable Construction:** Made from flexible silicone material that is easy to clean.

## VERSATILE

Great for the car, truck, office, and around all around the house. Ball joint for perfect viewing.

## SAFE

100% Safe on your device. These high strength magnets will not damage or interfere with your device

## STRONG

Strong 3M adhesive keeps your Stick On mount secure but is still easily removable

## SMART

Simply place your phone near the mount and it locks into place.

## COMPATIBLE

Works seamlessly with all devices under 2lb. Including smartphones, tablets, GPS Units

## SECURE

Strong magnets keep your phone seated securely on the mount even on bumpy roads.

## WHAT'S INCLUDED

Verify that all components are present in your package:

# Includes:

- 1 - Magnetic Dash Mount
- 2 - Metal Disks
- 1 - Round Disk
- 2 - Re-install Adhesives
- 1 - Alcohol Pad
- 1 - Dry Wipe

## WHAT'S **IN THE BOX**

Image: Contents of the Tackform Magnetic Phone Holder package, including the mount, metal disks, re-install adhesives, alcohol pad, and dry wipe.

- 1 - Magnetic Dash Mount
- 2 - Metal Disks
- 1 - Round Disk
- 2 - Re-install Adhesives
- 1 - Alcohol Pad
- 1 - Dry Wipe

### SETUP AND INSTALLATION

---

#### Step 1: Choose a Mounting Location

Select a flat, clean surface for mounting the holder. Common locations include car dashboards, kitchen counters, or bedside tables. Ensure the surface is free from dust, grease, and moisture.

#### Step 2: Prepare the Surface

Use the included alcohol pad to thoroughly clean the chosen mounting surface. Allow it to dry completely.

### Step 3: Attach the Magnetic Dash Mount

Remove the protective film from the 3M adhesive on the base of the magnetic dash mount. Carefully position the mount on the prepared surface. Press firmly for at least 30 seconds to ensure strong adhesion. For optimal bonding, allow the adhesive to cure for 24 hours before attaching your device.

Video: This video demonstrates the installation process of the Tackform Magnetic Phone Holder on a car dashboard, showing how to apply the adhesive mount.

### Step 4: Prepare Your Device

Choose one of the provided metal disks. You can either stick it directly to the back of your phone or phone case, or place it between your phone and its case (if the case is not too thick). If sticking the disk, ensure the surface is clean and dry before applying.

## OPERATING INSTRUCTIONS

### Attaching Your Device

Once the magnetic dash mount is securely installed and the metal disk is attached to your device, simply bring your device close to the magnetic surface of the mount. The strong N52 magnets will automatically align and hold your device in place.

### Adjusting Viewing Angle

The mount features a ball joint for 360-degree rotation, allowing you to adjust your device to the perfect viewing angle. Loosen the collar on the ball joint, adjust the angle, and then tighten the collar to secure it.

### MAINTENANCE

---

To clean the magnetic mount, wipe it with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish or adhesive. Ensure the magnetic surface and the metal disk on your device are kept clean for optimal magnetic connection.

### TROUBLESHOOTING

---

**Issue: Mount is not sticking securely.**

- **Solution:** Ensure the mounting surface was thoroughly cleaned with the alcohol pad and completely dry before application. Press firmly for the recommended time and allow 24 hours for the adhesive to cure without a device attached. Extreme temperatures can affect adhesive performance; apply in moderate conditions.

**Issue: Device is not holding firmly to the magnet.**

- **Solution:** Verify that the metal disk is correctly positioned on your device or inside your case. If using a phone case, ensure it is not excessively thick, as this can weaken the magnetic connection. Ensure both the mount's magnetic surface and the metal disk are clean.

**SPECIFICATIONS**

Feature	Detail
Product Dimensions	0.75 x 1.2 x 1.2 inches
Item Weight	1.6 ounces
Manufacturer	Tackform
Item Model Number	TF00-0N0M
Brand	Tackform
Color	Black
Compatible Devices	Smartphones, Tablets, GPS Units
Mounting Type	Adhesive (3M)
