STANLEY 19-1500

STANLEY 19-1500 Reusable Blue Cloth Filter Instruction Manual

For 5-6 Gallon Wet/Dry Vacuums

Introduction

This manual provides essential information for the proper installation, operation, and maintenance of your STANLEY 19-1500 Reusable Blue Cloth Filter. This filter is designed for use with 5-6 gallon STANLEY wet/dry vacuums to effectively manage debris and maintain air quality during various cleaning tasks.

Setup and Installation

Follow these steps to properly install the reusable cloth filter into your STANLEY wet/dry vacuum:

1. Ensure the vacuum is unplugged and the canister is empty.
2. Remove the motor head from the vacuum canister.
3. If a foam filter or cartridge filter is present, remove it from the filter cage.
4. Position the blue cloth filter over the filter cage.
5. Secure the filter by placing the clamp ring over the filter and twisting it into place until it is firmly seated. No tools are required for this step.
6. Reattach the motor head to the vacuum canister.

Operating Instructions

The STANLEY 19-1500 reusable blue cloth filter is designed for efficient dust control during both wet and dry vacuuming operations. It helps to capture fine dust and debris, contributing to cleaner air output and reducing particulate matter in your workspace.

When performing dry vacuuming, ensure the filter is clean and dry for optimal performance. For wet vacuuming, the filter can remain installed, as its design allows for both applications.

Maintenance

The STANLEY 19-1500 filter is designed for durability and reusability. Regular cleaning will extend its lifespan and maintain optimal vacuum performance.

Cleaning Instructions:

1. Remove the filter from the vacuum as described in the "Setup and Installation" section.
2. Rinse the blue cloth filter thoroughly under running water to remove accumulated dust and debris.
3. Gently squeeze out excess water.
4. Allow the filter to air dry completely before reinstallation. Ensure it is fully dry to prevent mold or mildew growth and to maintain filtration efficiency.

Note: Do not use harsh chemicals or abrasive brushes, as these can damage the filter material.

Troubleshooting

Problem	Possible Cause	Solution
Filter does not fit correctly.	Incorrect model size or incompatible vacuum.	Verify your vacuum model number against the "Compatible Models" list. Ensure the filter is correctly aligned with the filter cage before securing the clamp ring.
Reduced suction or poor filtration.	Clogged or dirty filter.	Clean the filter according to the "Maintenance" instructions. Ensure it is completely dry before reinstallation.
Clamp ring is damaged or broken.	Physical damage during installation or use.	Inspect the clamp ring for cracks or breaks. A damaged clamp ring may prevent proper sealing. Contact customer support for replacement parts if necessary.

Specifications

- **Model Number:** 19-1500
- **Material:** Non-woven fabric
- **Compatibility:** Designed for 5-6 Gallon STANLEY Wet/Dry Vacuums (e.g., SL18143, SL18115, SL18115P, SL18116, SL18116P, SL18117, SL18191P, SL18199P, SL18701P-10A, SL18410P-5A)
- **Filter Dimensions:** Approximately 9.84 x 9.84 inches (25 x 25 cm)
- **Clamp Ring Size:** Approximately 6.9 x 6.1 inches (17.5 x 15.5 cm)
- **Reusability:** Reusable and washable
- **Item Weight:** 1.1 ounces (approximately 31 grams)
- **Product Dimensions (overall):** 0.5 x 7.87 x 13.58 inches (approximately 1.27 x 19.99 x 34.49 cm)
