- Unpack the Car Seat:** Remove the car seat from its packaging. The collapsible metal frame will expand into shape.
- Position the Seat:** Place the car seat on the desired passenger seat (front or back).
- Secure Top Straps:** Locate the two adjustable straps at the top of the car seat. Loop these straps around the headrest of your car seat and buckle them securely. Adjust the length to ensure the booster seat is at the desired height and snug against the car seat back.
- Secure Bottom Strap:** Locate the adjustable strap at the bottom rear of the car seat. Wrap this strap around the back of your car seat and buckle it. Tighten the strap to prevent the booster seat from sliding forward.
- Adjust Internal Leash:** The car seat includes an internal adjustable leash. Clip this leash to your pet's harness or collar to keep them safely contained within the booster seat. Ensure the leash allows enough movement for comfort but prevents your pet from jumping out.
