## Eureka 27237-3

# Eureka 4467 Crevice Tool Instruction Manual

Model: 27237-3

## 1. INTRODUCTION

The Eureka 4467 Crevice Tool, part number 27237-3, is an authentic OEM authorized accessory designed to enhance the cleaning capabilities of various Eureka vacuum models. This tool is specifically engineered to reach into narrow spaces, corners, and tight areas where standard vacuum heads cannot access, ensuring thorough cleaning.

*Image 1.1: The Eureka 4467 Crevice Tool. This image shows the slender, angled design of the crevice tool, ideal for reaching tight spaces.*

## 2. COMPATIBILITY

---

This crevice tool (OEM part number 27237-3) is designed to fit various Eureka vacuum cleaner models. It is important to verify the compatibility with your specific vacuum model before attachment. The tool is generally compatible with vacuum hoses that accept standard attachments.

- **OEM Authorized Part:** Ensures proper fit and function with compatible Eureka models.
- **Model Number:** 27237-3.

## 3. SETUP AND INSTALLATION

---

Attaching the Eureka 4467 Crevice Tool to your vacuum cleaner is a straightforward process.

1. **Ensure Vacuum is Off:** Before attaching or detaching any accessories, always turn off and unplug your vacuum cleaner from the power outlet to prevent accidental operation.
2. **Locate Attachment Port:** Identify the attachment port on your vacuum's hose or wand. This is typically a circular opening designed to accept various tools.
3. **Insert Crevice Tool:** Align the open end of the Eureka 4467 Crevice Tool with the attachment port. Push the tool firmly into the port until it is securely seated. A snug fit is essential for optimal suction.
4. **Verify Connection:** Gently tug on the crevice tool to ensure it is securely attached and will not detach during use.

*Note:* If the fit is too loose or too tight, your vacuum model may require an adapter. Refer to your vacuum cleaner's manual for specific attachment instructions or adapter requirements.

## 4. OPERATING INSTRUCTIONS

The crevice tool is designed for precision cleaning in hard-to-reach areas.

- **Tight Spaces:** Use the narrow tip to clean along baseboards, between couch cushions, in car interiors, and around appliance edges.
- **Corners and Edges:** The angled design allows for effective cleaning of dust and debris accumulated in corners and along wall edges.
- **Delicate Areas:** Exercise caution when using the tool on delicate surfaces to avoid scratching.
- **Optimal Suction:** Ensure the tool is fully inserted into the vacuum hose for maximum suction power.

## 5. MAINTENANCE

Regular maintenance ensures the longevity and effectiveness of your crevice tool.

- **Cleaning:** After use, inspect the crevice tool for any trapped debris, lint, or hair. Remove any obstructions manually to maintain optimal airflow.
- **Washing:** The tool can be washed with mild soap and water if necessary. Ensure it is completely dry before reattaching it to the vacuum or storing it.
- **Storage:** Store the crevice tool in a clean, dry place, preferably with your vacuum's other accessories, to prevent damage or loss.

## 6. TROUBLESHOOTING

### Issue: Crevice tool does not fit the vacuum hose.

- **Check Compatibility:** Verify that your vacuum model is compatible with Eureka OEM part 27237-3.
- **Adapter Needed:** Some vacuum models may require a specific adapter to fit standard attachments. Consult your vacuum's user manual or the manufacturer's website for adapter information.
- **Hose Diameter:** Ensure the diameter of your vacuum hose's attachment port matches the crevice tool's diameter.

### Issue: Reduced suction when using the crevice tool.

- **Secure Connection:** Ensure the crevice tool is fully and securely inserted into the vacuum hose. A loose connection can cause air leaks and reduce suction.
- **Clear Obstructions:** Check the crevice tool and the vacuum hose for any blockages or debris that might be impeding airflow.
- **Vacuum Maintenance:** Ensure your vacuum cleaner's filter is clean and the dustbin/bag is not full, as these can affect overall suction power.

## 7. SPECIFICATIONS

| Feature            | Detail                             |
|--------------------|------------------------------------|
| Model Number       | 27237-3                            |
| Part Type          | O.E.M. Authorized Replacement Part |
| Product Dimensions | 1 x 1 x 1 inches (approximate)     |
| Item Weight        | 1.41 ounces (approximate)          |

| Feature      | Detail          |
|--------------|-----------------|
| Manufacturer | Eureka          |
| Material     | Durable plastic |

## 8. SUPPORT

For further assistance, compatibility questions, or to inquire about other Eureka products, please contact Eureka customer support or visit their official website. Always refer to your specific vacuum cleaner's user manual for detailed information regarding attachments and maintenance.
