Lighting EVER 2

LE Rechargeable LED Lantern User Manual

Brand: Lighting EVER | Model: 2

PRODUCT OVERVIEW

The LE Rechargeable LED Lantern is a versatile and powerful lighting solution designed for various applications, including camping, hiking, emergency situations, and home use. It features a superior Cree XML LED for intense brightness, multiple light modes, and convenient power bank functionality.

This lantern is equipped with built-in rechargeable batteries and offers a maximum illumination distance of

500m (1640ft) with its 1000 lumens front spotlight. Its IPX4 water resistance ensures durability in various weather conditions.

SETUP AND CHARGING

Initial Charge

Before first use, fully charge the lantern. Locate the USB charging port on the back of the unit, protected by a cross-shaped rubber plug. Connect the provided USB cable to the lantern and a compatible USB power adapter (not included). The blue indicator lights on the base will show the battery level during charging. A full charge typically takes 5-6 hours.

Power Bank Functionality

The lantern doubles as a power bank. You can use its USB output port to charge your mobile phone or other small electronic devices. Ensure the input and output voltage are both 5 volts for optimal performance.

RECHARGEABLE & 3600MAH POWER BANK

INDICATOR LIGHT:
25/50/75/100%

Attaching the Shoulder Strap

Attach the length-adjustable shoulder strap to the designated loops on the lantern for easy transportation, especially during outdoor activities.

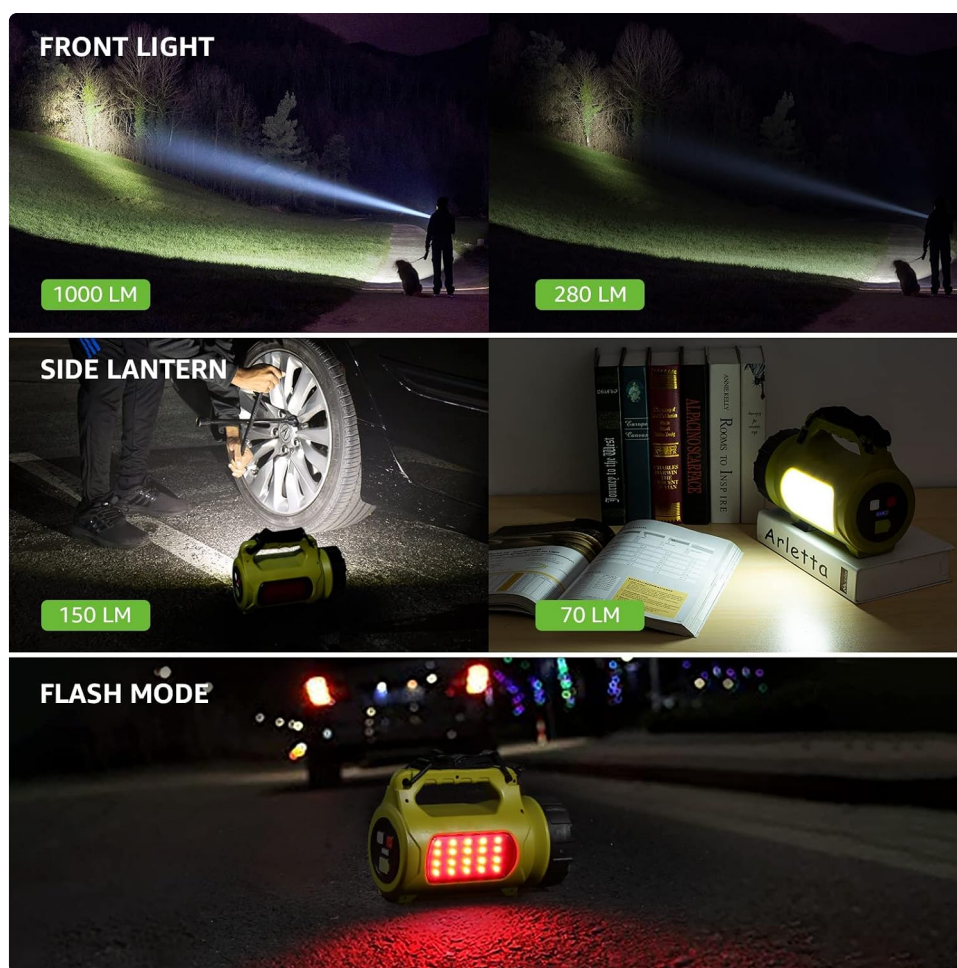

OPERATING INSTRUCTIONS

Light Modes

The lantern offers 5 distinct light modes:

- **Front Spotlight:** Activated by the main switch on the handle.
 - High Brightness: 1000 lumens (approx. 2.2 hours runtime).
 - Low Brightness: 280 lumens (approx. 4.6 hours runtime).
- **Side Lantern:** Activated by the yellow button on the back.
 - Full-brightness White Light: 150 lumens (approx. 6.3 hours runtime).
 - Low-brightness White Light: 70 lumens (approx. 12.7 hours runtime).
- **Red Flashing Light (S.O.S.):** Activated by the red button on the back. Ideal for emergencies and signaling.

Battery Level Indicator

Blue LED indicators on the back of the lantern show the current battery charge level (25%, 50%, 75%, 100%).

MAINTENANCE

To ensure the longevity and optimal performance of your LE Rechargeable LED Lantern, follow these maintenance guidelines:

- **Cleaning:** Wipe the lantern with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Storage:** Store the lantern in a cool, dry place away from direct sunlight and extreme temperatures. For long-term storage, ensure the battery is partially charged (around 50%) and recharge it every 3-6 months to maintain battery health.
- **Water Resistance:** While IPX4 water resistant, avoid submerging the lantern in water. Ensure the USB port cover is securely closed when not in use to prevent water ingress.

TROUBLESHOOTING

If you encounter any issues with your LE Rechargeable LED Lantern, please refer to the following common troubleshooting tips:

- **Light Not Turning On:** Check the battery level indicators. If the battery is low, recharge the lantern. Ensure the power switch is in the 'ON' position.
- **Not Charging:** Verify that the USB cable is securely connected to both the lantern and the power source. Try using a different USB cable or power adapter. Ensure the power adapter is functioning correctly.
- **Dim Light Output:** The battery may be low. Recharge the lantern fully.
- **Power Bank Not Charging Device:** Ensure your device is compatible with 5V USB charging. Check the battery level of the lantern. Try a different charging cable for your device.

If the problem persists after trying these steps, please contact customer support for further assistance.

PRODUCT SPECIFICATIONS

Feature	Specification
Brand	Lighting EVER
Model Name	LED Camping Lantern
Special Feature	Lightweight, Rechargeable, Water resistant, Adjustable light modes
Color	Green + Black
Power Source	Battery Powered
Light Source Type	LED
Material	plastic
White Brightness	1000 Lumens
Included Components	Battery, Charging Cable
Product Dimensions	9.84"D x 4.92"W x 6.89"H
Voltage	3.7 Volts
Light Path Distance	500 Meters (1640ft)

Feature	Specification
Battery Cell Composition	Lithium Ion
Item Weight	0.72 Kilograms
Number of Batteries	1 Lithium Ion batteries required. (included)
Water Resistance Level	IPX4 Water Resistant
Runtime	Up to 13 hours (side light low brightness)

WARRANTY AND SUPPORT

This LE Rechargeable LED Lantern comes with a **12-month limited warranty**. For warranty claims or technical support, please refer to the contact information provided with your purchase or visit the Lighting EVER official website.
