De'Longhi ECP3630

De'Longhi 15 Bar Pump Espresso and Cappuccino Machine

Model: ECP3630
Brand: De'Longhi

Introduction

The De'Longhi ECP3630 15 Bar Pump Espresso Machine is designed to deliver barista-quality espresso, cappuccinos, and lattes in the comfort of your home. Its advanced features and durable stainless steel construction ensure consistent performance and ease of use. This manual will guide you through the setup, operation, and maintenance of your new espresso machine.

Key Features

- **15-Bar Professional Pressure:** Ensures quality results every time with adjustable controls for personalized taste.
- **Advanced Cappuccino System:** Features a Premium Adjustable Frother to create rich, creamy froth for cappuccinos or hot milk for lattes.
- **3-in-1 Filter Holder:** Accommodates filter baskets for single espresso, double espresso, and easy-serve espresso pods.
- **No Waiting Between Cups:** The Advanced Cappuccino System maintains optimal temperature for instant brewing of multiple cups.
- **Accommodates Taller Cups:** Removable bottom tray allows for larger beverage cups.
- **Sleek Space-Saving Design:** Compact footprint fits beautifully on any kitchen countertop.
- **Convenient Water Tank:** Easily removable and refillable water tank with a visible water level indicator.
- **Easy to Clean:** Removable water tank and drip tray are dishwasher safe for simple cleanup.

Setup

1. Unpacking and Initial Placement

Carefully remove all packaging materials. Place the espresso machine on a flat, stable surface near a power outlet. Ensure adequate ventilation around the unit.

2. Water Tank Installation and Filling

Locate the removable water tank at the back of the machine. Lift it out, fill it with fresh, cold water up to the MAX line, and securely place it back into the machine. The water level is visible from the front.

Figure 1: Removing and filling the water tank.

3. First Use Cycle

Before first use, run a cycle without coffee to prime the system. Fill the water tank, place a cup under the portafilter spout, and turn the machine ON. Allow water to flow through until the tank is empty. This cleans the internal components and prepares the machine for brewing.

Operating Instructions

1. Brewing Espresso

1. Ensure the water tank is filled and the machine is turned ON and the
