Weather Guard 88064

Weather Guard 88064 Van Window Screen User Manual

Model: 88064

1. Introduction

This manual provides comprehensive instructions for the proper installation, operation, and maintenance of your Weather Guard 88064 Van Window Screen. This product is designed to enhance the security of your van's cargo area by providing a protective barrier for the rear windows, helping to prevent unauthorized access and protect valuables.

2. Safety Information

Please read and understand all safety instructions before installing or using this product. Failure to follow these instructions may result in injury or damage to the product or vehicle.

- Always wear appropriate personal protective equipment, such as safety glasses and gloves, during installation.
- Ensure the vehicle is parked on a level surface and the engine is off before beginning installation.
- Handle all components carefully to avoid pinching fingers or damaging vehicle surfaces.
- Verify that all fasteners are securely tightened after installation to prevent rattling or detachment during vehicle operation.
- Do not obstruct the driver's view or interfere with the safe operation of the vehicle.

3. Package Contents

Verify that all components are present and undamaged before proceeding with installation. If any parts are missing or damaged, contact Weather Guard customer support.

- Weather Guard 88064 Van Window Screen (Split Side, Low Roof) - 1 unit
- Mounting Hardware (specific fasteners and brackets)
- Installation Template (if applicable)

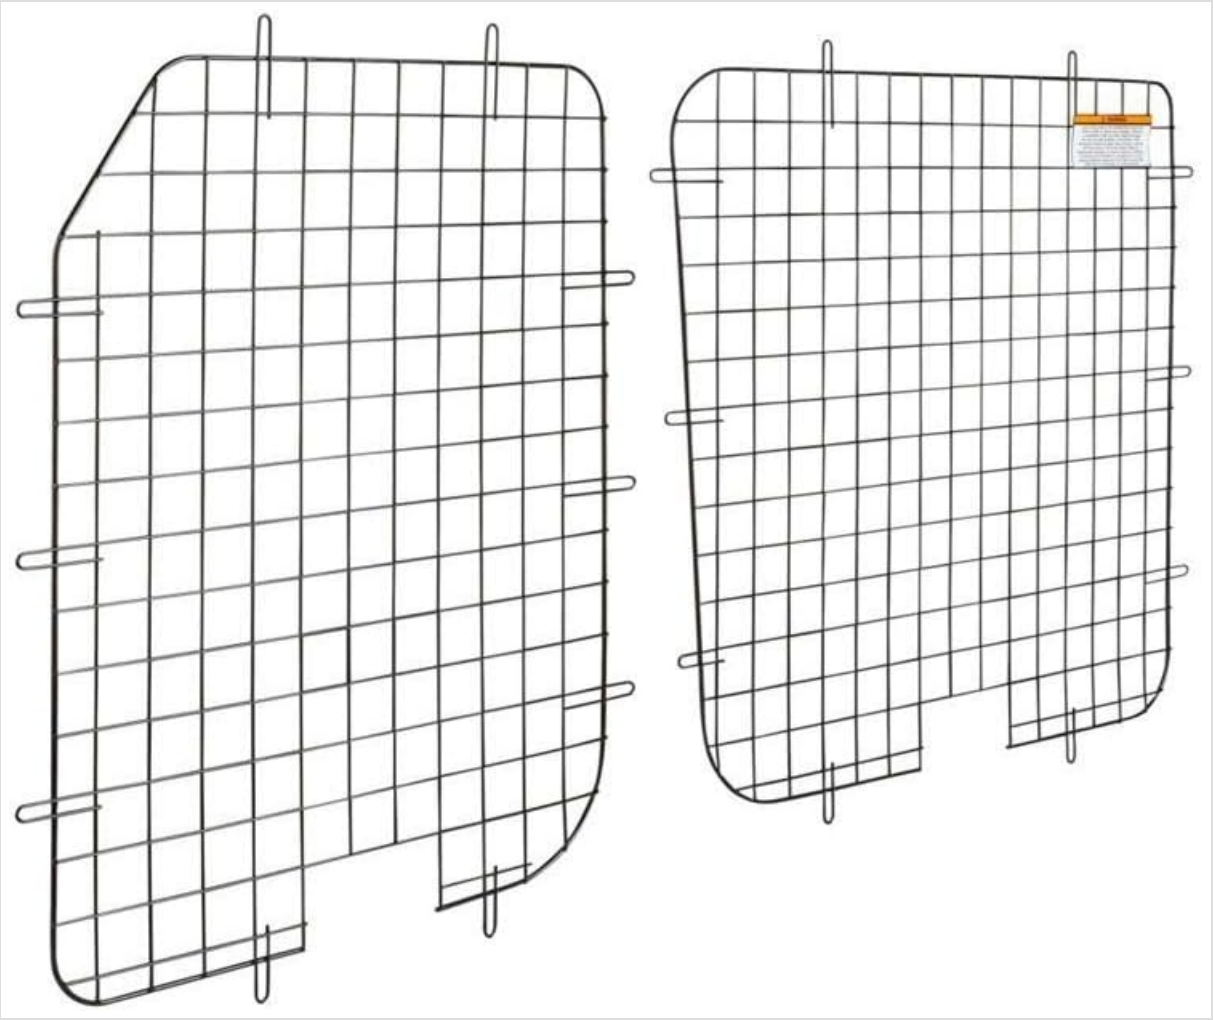

Image 1: The Weather Guard 88064 Van Window Screen, consisting of two distinct panels designed for split-side, low-roof van windows. The screens feature a grid pattern and integrated mounting points.

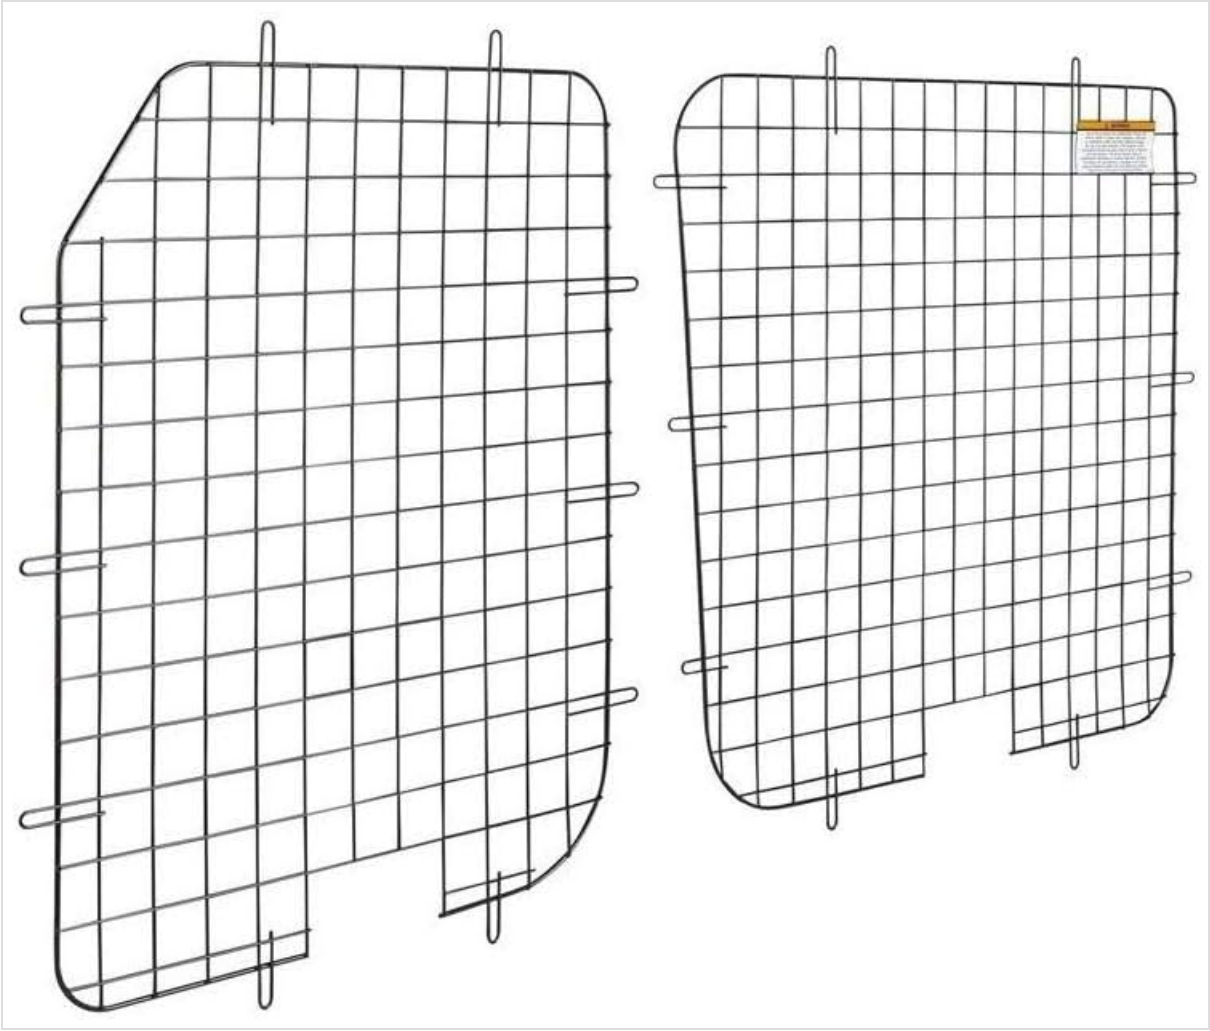

Image 2: A closer view of the two Weather Guard 88064 Van Window Screen panels, highlighting the robust steel construction and the various attachment points along the edges.

4. Setup and Installation

The following steps outline the general procedure for installing the Weather Guard 88064 Van Window Screen. Specific vehicle models may require slight variations. Refer to your vehicle's manual for any specific window panel removal or access instructions.

Required Tools:

- Drill
- Drill bits (appropriate size for fasteners)
- Measuring tape
- Marker or pencil
- Screwdriver or wrench set (appropriate for fasteners)

Installation Steps:

1. **Prepare the Vehicle:** Clean the interior window frame area where the screen will be mounted. Ensure the surface is free of dirt, grease, or debris.
2. **Position the Screen:** Carefully place one screen panel against the interior of the van window. Ensure it is centered and aligned correctly with the window opening.
3. **Mark Mounting Points:** Using a marker or pencil, carefully mark the locations for drilling through the designated mounting holes on the screen panel onto the van's interior frame.

4. **Drill Pilot Holes:** Remove the screen panel. Using the appropriate drill bit, drill pilot holes at the marked locations. Ensure not to drill through any critical vehicle components or wiring.
5. **Secure the Screen:** Reposition the screen panel over the pilot holes. Use the provided fasteners and tools to securely attach the screen to the van's interior frame. Do not overtighten.
6. **Repeat for Second Panel:** Follow steps 2-5 for the second screen panel on the opposite side.
7. **Final Check:** Once both panels are installed, gently tug on each screen to ensure it is firmly secured. Check for any loose connections or rattling.

5. Operating Instructions

The Weather Guard 88064 Van Window Screen is a static security accessory. Once properly installed, no further operational steps are required. Its function is to provide a permanent protective barrier for the van's rear windows.

6. Maintenance

Regular maintenance will ensure the longevity and continued effectiveness of your window screen.

- **Cleaning:** Periodically wipe down the screen with a damp cloth to remove dust and dirt. For stubborn grime, a mild soap solution can be used, followed by rinsing and drying. Avoid abrasive cleaners.
- **Inspection:** Annually inspect all mounting points and fasteners for tightness. Re-tighten any loose fasteners to prevent rattling or detachment. Check the screen for any signs of damage or corrosion.
- **Corrosion Prevention:** If the screen is exposed to harsh conditions, consider applying a rust-inhibiting spray to maintain its finish.

7. Troubleshooting

This section addresses common issues you might encounter with your window screen.

- **Rattling Noise:** If the screen rattles during vehicle operation, check all mounting fasteners for tightness. Ensure the screen is not making contact with any loose interior trim panels.
- **Loose Fit:** If the screen feels loose, re-check all installation points. Ensure the correct fasteners were used and are fully tightened.
- **Difficulty Installing:** Verify that the screen model (88064) is compatible with your specific van make and model's low-roof, split-side window configuration. Review the installation steps carefully.

8. Specifications

Brand	Weather Guard
Model Number	88064
Product Type	Vehicle Window Screen
Exterior Material	Steel
Item Weight	1 pounds
Product Dimensions	25 x 22 x 4 inches
Position	Rear
