Ecolab Solid Power XL GlassGuard Instruction Manual

Model: 6100185

INTRODUCTION

This manual provides essential information for the safe and effective use of Ecolab Solid Power XL GlassGuard. This industrial-strength detergent is designed to provide spotless results for glassware, protecting against spotting and etching in commercial dishwashing operations. It is formulated to be phosphate and phosphorus free, ensuring high performance while being environmentally conscious.

PRODUCT OVERVIEW

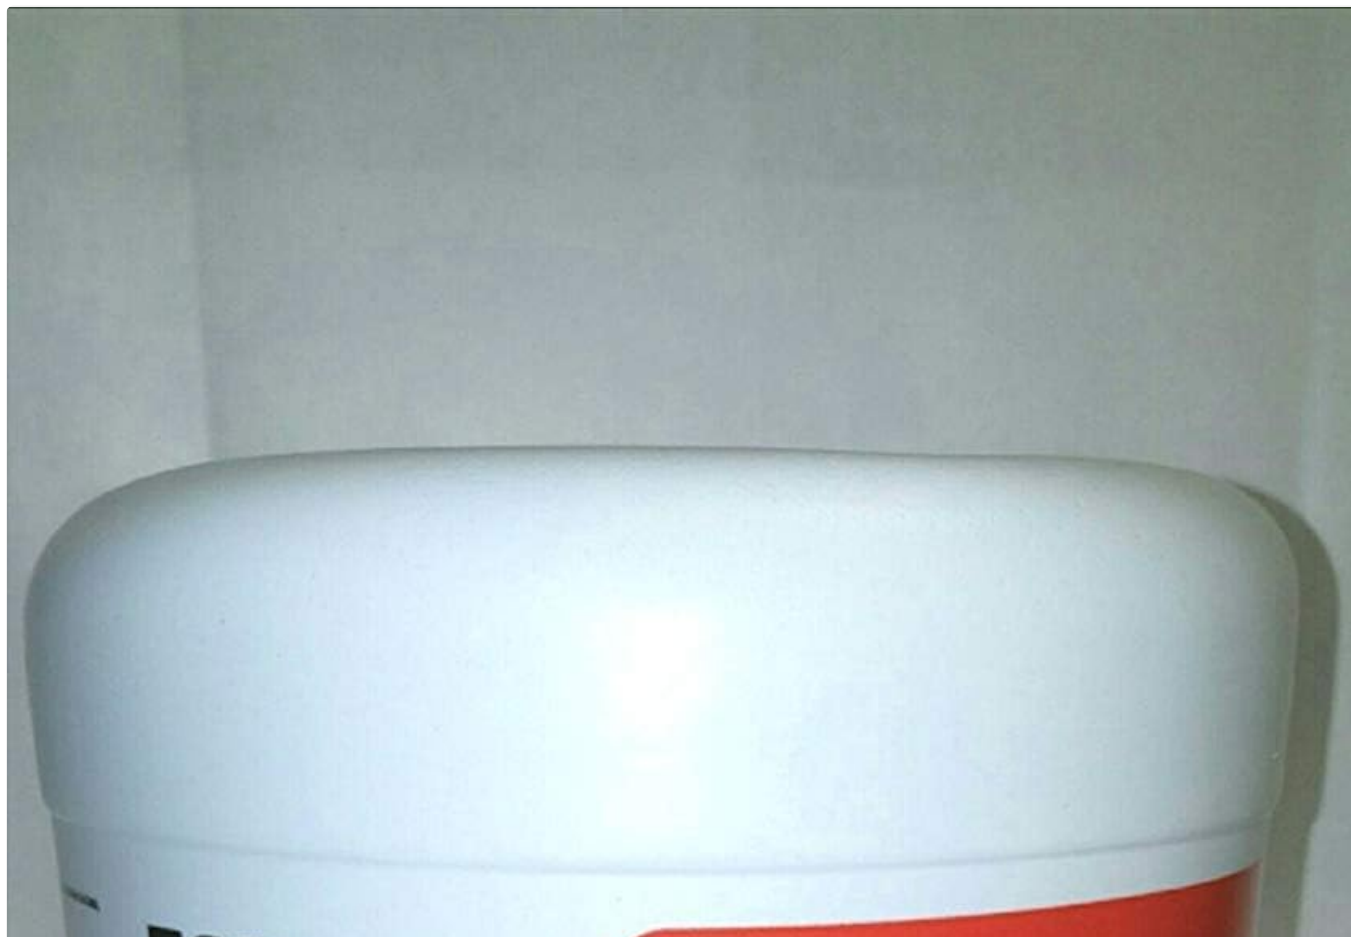

Figure 1: Front View of Ecolab Solid Power XL GlassGuard Container. This image displays the primary packaging of the product, a white cylindrical container with a red and black label. The label clearly shows the "Ecolab" brand and "Solid Power XL" product name, along with "Extended Life Dishmachine Detergent" and weight information (4.1 KG (9 LB)).

PARA PLANTAS DE ALIMENTOS Y USO INDUSTRIAL SOLAMENTE - NO ES PARA USO DOMESTICO
NO MEZCLE CON LAVA QUE NO SEA AGUA

INSTRUCCIONES DE USO

Este producto no debe usarse como esterilizante de lavadora de utensilios. El equipo, los utensilios y las superficies que entran en contacto directo con alimentos deben ser enjuagados minuciosamente con agua potable después de recibir tratamiento. Debido a la forma y envasado del producto, no se necesita equipo protector bajo condiciones normales de uso. Si existe la posibilidad de estar expuesto al producto concentrado, se deben usar lentes de seguridad, guantes y debentel resistentes a productos químicos.

- Saque cuidadosamente el contenedor vacío del deslizador y gire hacia arriba para evitar derrames.
- Quite la tapa del contenedor lleno y úsela para tapar el contenedor vacío. Deslízalo del contenedor vacío inmediatamente. No lo use nuevamente.
- Use la agarradera para colocar el contenedor lleno en el deslizador con la boca abierta hacia abajo.

Consulte a su Especialista de Ecolab para instrucciones de uso específicas.

Para información adicional, llame al 1-800-352-5326.

Para uso en el dispensador Ecolab.

Formula ingredients contain not more than 0.21% Phosphorus, 0.005 g/L (0.010 g/US gal) of recommended use concentration.

This image shows the reverse side of the product container, featuring various warning labels, usage instructions in multiple languages, and manufacturer details. Important information regarding handling and ingredients is visible on this side.

INGREDIENTS

The primary ingredient of this product is dishwasher detergent. For a complete list of chemical components and safety data sheets, please refer to the manufacturer's official documentation or contact Ecolab directly.

SETUP AND OPERATING INSTRUCTIONS

Follow these steps for proper setup and operation of Ecolab Solid Power XL GlassGuard in your commercial dishwasher:

1. **Preparation:** Ensure the dishwasher is clean and free from any obstructions in the detergent dispenser.
2. **Detergent Loading:** Remove the required number of solid detergent capsules from the package. Handle with dry hands to prevent premature dissolution.
3. **Dispenser Placement:** Place the capsules into the dishwasher's designated detergent dispenser.
4. **Secure Dispenser:** Close the dispenser securely, ensuring it is properly sealed to prevent water ingress before the wash cycle.
5. **Loading Dishes:** Load your dishes, particularly glassware, into the dishwasher racks, ensuring proper spacing for effective cleaning.
6. **Cycle Selection:** Select the appropriate wash cycle for your load, considering the soil level and type of items being washed.
7. **Initiate Wash:** Start the dishwasher. The Solid Power XL GlassGuard will be dispensed automatically during the wash cycle, providing a protective layer to prevent spotting and etching.

Note: GlassGuard is replenished each wash cycle and rinses away cleanly, providing optimal results while protecting against the damaging effects of etch. The high activity formula allows for more washes per capsule.

MAINTENANCE AND STORAGE

To ensure the longevity and effectiveness of Ecolab Solid Power XL GlassGuard, observe the following maintenance and storage guidelines:

- **Storage:** Store capsules in their original packaging in a cool, dry place, away from direct sunlight and moisture. Keep the container tightly sealed when not in use to prevent degradation.
- **Handling:** Always handle capsules with dry hands. Avoid contact with eyes and skin. In case of contact, rinse thoroughly with water.
- **Dispenser Cleaning:** Regularly inspect and clean the dishwasher's detergent dispenser to prevent residue buildup, which could affect dispensing efficiency.
- **Container Disposal:** Dispose of empty containers according to local regulations for industrial cleaning product waste.

TROUBLESHOOTING

If you encounter issues while using Ecolab Solid Power XL GlassGuard, consider the following general troubleshooting tips:

- **Spotting/Residue on Glassware:**
 - Ensure the correct number of capsules is used per wash cycle.
 - Verify that the dishwasher's rinse aid dispenser is filled and functioning correctly.
 - Check water hardness levels; very hard water may require adjustments to the wash cycle or additional water treatment.
 - Ensure proper loading of dishes to allow water and detergent to reach all surfaces.
- **Detergent Not Dissolving:**

- Confirm that the water temperature in the dishwasher is adequate for detergent dissolution.
- Check for any blockages in the detergent dispenser.
- Ensure capsules are stored in a dry environment to prevent premature hardening.

For persistent issues or technical support, please contact Ecolab customer service or your authorized distributor.

SPECIFICATIONS

Feature	Detail
Brand	Ecolab
Model Number	6100185
Item Form	Pac (Solid Capsule)
Scent	Unscented
Specific Uses	Dishwasher (Commercial)
Material Feature	Phosphate and Phosphorus free
Package Dimensions	14.25 x 14.25 x 7.5 inches
Item Weight	9 Pounds (per container)
Case Quantity	4 containers per case
Manufacturer	Ecolab
Date First Available	February 18, 2014

SAFETY INFORMATION AND LEGAL DISCLAIMER

Important Safety Precautions:

- Keep out of reach of children and pets.
- Avoid contact with eyes and skin. In case of contact, flush immediately with plenty of water for at least 15 minutes. If irritation persists, seek medical attention.
- Do not ingest. If swallowed, do not induce vomiting. Drink plenty of water and seek immediate medical attention.
- Use in a well-ventilated area.
- This product is for industrial/commercial use only, not for household use.
