## Timex Expedition Scout 40mm Men's Analog Watch User Manual

Model: TW4B01900

### 1. PRODUCT OVERVIEW

The Timex Expedition Scout 40mm Analog Watch is a robust and reliable timepiece designed for everyday wear and outdoor adventures. It combines classic field watch aesthetics with practical features for enhanced usability.

Figure 1: Timex Expedition Scout 40mm Analog Watch.

### Key Features:

- Adjustable 20mm genuine leather strap for comfortable fit.
- Black dial with clear Arabic numerals and a date window at 3 o'clock.
- Durable 40mm brass case with mineral glass crystal.
- INDIGLO® backlight for illumination in low-light conditions.
- Luminous hands for enhanced visibility.
- Water resistant to 50 meters (165 feet), suitable for recreational swimming.
- Quartz analog movement for accurate timekeeping.

Built For  
Adventure

## 2. SETUP AND INITIAL USE

### Setting Time:

1. Pull the crown (the knob on the side of the watch) out to its outermost position.
2. Turn the crown clockwise or counter-clockwise to move the hands to the correct time.
3. Push the crown back in to its original position to start the watch.

### Setting Date:

1. Pull the crown out to the middle position (one click out from the original position).
2. Turn the crown to adjust the date.
3. Once the correct date is displayed, push the crown back in to its original position.

## 3. OPERATING FEATURES

### INDIGLO® Backlight:

To activate the INDIGLO® backlight, simply press the crown inwards. The entire dial will illuminate, allowing you to read the time clearly in low-light or dark conditions. Release the crown to turn off the backlight.

### Water Resistance:

This watch is water resistant to 50 meters (165 feet). This means it is suitable for short periods of recreational swimming. It is **not** recommended for diving, snorkeling, or high-impact water sports. Avoid operating the crown or pushers while the watch is wet or submerged to prevent water intrusion.

## Rain or Shine, Inland or Coast- Expedition Goes the Distance

Engineered for exploration, with highly durable construction and premium materials that keep pace with your adventures.

Figure 3: The Timex Expedition is engineered for exploration and durability.

## 4. CARE AND MAINTENANCE

- **Cleaning:** Wipe the watch case and strap with a soft, damp cloth. For leather straps, avoid excessive moisture and harsh chemicals.
- **Battery:** This watch uses a quartz movement and requires a lithium metal battery (included). Battery life varies depending on usage. When the battery needs replacement, it is recommended to have it done by a qualified watch technician to ensure water resistance is maintained.
- **Storage:** Store your watch in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Chemicals:** Do not expose the watch to solvents, detergents, perfumes, or other chemical sprays, as these may damage the case, strap, or internal components.

## 5. TROUBLESHOOTING

### Watch Not Running:

- Ensure the crown is fully pushed in to its operating position.
- The battery may need replacement. Consult a watch technician.

### INDIGLO® Backlight Not Working:

- Ensure the crown is pressed firmly.
- A low battery may affect backlight performance. Consider battery replacement.

## 6. PRODUCT SPECIFICATIONS

Feature	Detail
