2.2 Windows Setup and Activation

Your Dell Venue 10 Pro 5055 comes with Microsoft Windows 8.1 pre-installed. During the initial boot-up, you will be guided through the Windows setup process. This typically involves selecting your language, creating a username and password, and configuring basic settings. For Windows 8, 8.1, or 10, the activation key is embedded directly on the motherboard, so you will not be prompted to enter it during setup.

You may be asked to access or create a Microsoft account during this process. Follow the on-screen instructions for account setup.

2.3 Product Registration

If you purchased your Dell Venue 10 Pro 5055 directly from Dell, it is likely already pre-registered. If purchased from a different retailer, you will need to register your device online. Registration is important for warranty and support services. To register your product, visit: onlineregister.com/dell

The Service Tag, which is your computer's unique identifier (a 7-digit code), is located on the bottom of your tablet, often under a flap. This tag is essential when contacting Dell support.
