1. PRODUCT OVERVIEW

The Winco WPC-60 is a clear plastic water pitcher designed for serving beverages. It features a 60-ounce capacity, making it suitable for various settings, including restaurants and home use. Constructed from durable polycarbonate, this pitcher is engineered to be break and rust resistant, ensuring longevity and reliability in daily operations.

Image: A clear plastic pitcher with a handle and pouring spout, designed for serving beverages. The pitcher has vertical ridges along its body.

2. SETUP AND FIRST USE

Before initial use, it is important to prepare your Winco WPC-60 pitcher to ensure hygiene and optimal performance.

1. **Unpack:** Carefully remove the pitcher from its packaging. Inspect for any signs of damage during transit.
2. **Wash:** Thoroughly wash the pitcher with warm, soapy water. Use a soft sponge or cloth to avoid scratching the plastic surface.
3. **Rinse:** Rinse the pitcher completely with clean water to remove all soap residue.
4. **Dry:** Allow the pitcher to air dry, or dry with a clean, lint-free cloth before first use.

3. OPERATING INSTRUCTIONS

The Winco WPC-60 pitcher is designed for simple and efficient beverage service.

- **Filling:** Hold the pitcher upright and pour your desired beverage into the opening. Do not overfill beyond the 60-ounce capacity to prevent spills.
- **Pouring:** Grasp the handle firmly. Tilt the pitcher forward, aligning the spout with the receiving glass or container. Pour slowly and steadily to control the flow of liquid.
- **Serving:** The ergonomic handle provides a comfortable grip for extended use, making it ideal for refilling drinks in various service environments.

4. MAINTENANCE AND CARE

Proper care will extend the life of your Winco WPC-60 pitcher and maintain its clear appearance.

- **Cleaning:** After each use, wash the pitcher with warm water and mild dish soap. For best results, clean immediately after use to prevent residue buildup.
- **Dishwasher Safety:** This polycarbonate pitcher is generally dishwasher safe. Place it on the top rack to avoid direct heat exposure from heating elements, which can cause warping or clouding over time.
- **Stain Removal:** For stubborn stains, a solution of baking soda and water can be used. Apply the paste, let it sit for a few minutes, then scrub gently and rinse thoroughly.
- **Storage:** Store the pitcher in a clean, dry place when not in use. Avoid storing near direct heat sources or in direct sunlight for prolonged periods.

5. TROUBLESHOOTING

Here are some common issues and their solutions for the Winco WPC-60 pitcher:

- **Cloudy Appearance:** If the pitcher appears cloudy, it may be due to hard water deposits or improper drying. Try soaking the pitcher in a solution of white vinegar and water (1:1 ratio) for 30 minutes, then wash and rinse thoroughly. Ensure the pitcher is completely dry after washing.
- **Lingering Odors:** If the pitcher retains odors from previous beverages, wash it thoroughly and then fill it with a mixture of baking soda and water. Let it sit overnight, then rinse well.
- **Leaking from Spout:** Ensure the pitcher is not overfilled. If the issue persists, check for any cracks or damage to the spout area. If damaged, the pitcher may need to be replaced.
