OtterBox Defender Series Case for iPhone 6 Plus/6s Plus

OtterBox Defender Series Case for iPhone 6 Plus/6s Plus

Model: Defender Series Case for iPhone 6 Plus/6s Plus

INTRODUCTION

The OtterBox Defender Series case is engineered to provide robust protection for your Apple iPhone 6 Plus or iPhone 6s Plus. This case features a multi-layer design to guard against drops, dust, and damage, ensuring the usability of your phone's features remains uncompromised. It is constructed from a high-impact polycarbonate shell, a durable synthetic rubber slipcover, and includes a built-in screen protector for comprehensive device security.

PACKAGE CONTENTS

Verify that all components are present in your package:

- OtterBox Defender Series Case (Polycarbonate Shell, Synthetic Rubber Slipcover, Built-in Screen Protector)
- Belt Clip Holster

SETUP GUIDE: CASE INSTALLATION

Follow these steps to properly install your iPhone 6 Plus or 6s Plus into the Defender Series case:

1. **Separate the Layers:** Carefully pry apart the outer synthetic rubber slipcover from the inner polycarbonate shell. The inner shell consists of two pieces. Separate these two pieces.
2. **Insert Phone into Inner Shell:** Place your iPhone 6 Plus/6s Plus into the front half of the polycarbonate shell, ensuring the built-in screen protector aligns correctly with your phone's screen.

3. **Close Inner Shell:** Snap the back half of the polycarbonate shell onto the front half, securing your phone firmly within. Ensure all edges are sealed.
4. **Apply Outer Slipcover:** Stretch the synthetic rubber slipcover over the assembled polycarbonate shell. Ensure all corners and edges are fully covered and the port covers are properly seated.

OPERATING INSTRUCTIONS

Port Covers

The Defender Series case features integrated port covers designed to prevent dust, dirt, and debris from entering your phone's charging port and headphone jack. To access a port, gently lift the corresponding cover. Ensure the covers are firmly pressed back into place after use to maintain protection.

buttons.

Belt Clip Holster

The included holster provides an additional layer of screen protection and can be used as a kickstand for media viewing. To attach your phone to the holster, slide the phone (screen-side in for maximum protection) into the holster until it clicks securely. To use as a kickstand, rotate the clip to the desired angle and prop the phone up.

Screen Protection

The case includes a built-in screen protector and a raised bumper around the screen edge. This design helps protect your device's screen from direct impacts and surface scratches when placed face down.

Image: Illustration of the raised bumper design, which provides additional screen protection by preventing direct contact with surfaces.

MAINTENANCE

To maintain the effectiveness and appearance of your OtterBox Defender Series case, follow these simple cleaning guidelines:

- **Regular Cleaning:** Wipe the case regularly with a soft, damp cloth to remove dust and smudges.
- **Deep Cleaning:** For more stubborn dirt, you may remove the case from your phone and gently wash the rubber slipcover and polycarbonate shell with mild soap and water. Ensure all components are completely dry before reassembling the case onto your phone.

- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the case materials or built-in screen protector.

TROUBLESHOOTING

Screen Protector Sensitivity

If you experience reduced touch screen sensitivity after installing the case, especially if you have an additional tempered glass screen protector on your phone, consider the following:

- The Defender Series case includes a built-in screen protector. Using an additional screen protector may create an air gap or interfere with touch responsiveness. For optimal performance, it is recommended to use only the built-in screen protector.
- Ensure the built-in screen protector is clean and free of debris on both sides before installation.

Charging Cable Compatibility

The port covers are designed to fit standard Apple Lightning cables. Some third-party or non-Apple branded USB to Lightning cables, especially those with larger connectors or 30-pin to Lightning adapters, may not be compatible with the case's port opening. Ensure your charging cable fits properly without forcing it.

SPECIFICATIONS

Brand	OtterBox
Model Number	77-52236
Compatible Phone Models	iPhone 6s Plus, iPhone 6 Plus
Material	Polycarbonate shell, Synthetic rubber slipcover, Clear membrane screen protector, Polycarbonate holster
Water Resistance Level	Not Water Resistant
Item Dimensions (L x W x H)	8.63 x 4.75 x 1.75 inches
