3. SETUP AND INITIAL INSPECTION

Upon receiving your Hertzko Self-Cleaning Slicker Brush, please inspect it for any signs of damage. Ensure the retractable bristle mechanism operates smoothly by pressing the button on the handle. No assembly is required.

4. OPERATING INSTRUCTIONS

Follow these steps for effective and comfortable grooming:

1. **Extend Bristles:** Press the button on the brush handle until the bristles fully extend and lock into place.

2. **Brush Your Pet:** Gently brush your pet's fur in the direction of hair growth. Use smooth, even strokes. Avoid applying excessive pressure, especially on sensitive areas. The angled bristles are designed to penetrate deep into the coat without scratching the skin.
3. **Retract Bristles:** Once the brush collects a significant amount of hair, or after completing a section, press the button again to retract the bristles.
4. **Remove Hair:** The collected fur will be pushed to the surface, forming a compact mat. Simply wipe or peel the hair off the brush and dispose of it.
5. **Repeat:** Extend the bristles and continue brushing until your pet's coat is smooth and free of loose hair.

5. MAINTENANCE

- **Cleaning the Brush:** After each use, retract the bristles and remove all collected hair. If necessary, use a damp cloth to wipe down the brush head and handle. Ensure the brush is completely dry before storing.
- **Storage:** Store the brush in a clean, dry place. The retractable bristles allow for compact and safe storage, preventing damage to the bristles.

6. TROUBLESHOOTING

- **Bristles not extending/retracting smoothly:** Ensure no hair or debris is lodged in the mechanism. Clean the brush thoroughly. If the issue persists, contact customer support.
- **Brush not collecting hair effectively:** Ensure bristles are fully extended. Adjust brushing pressure and technique. For very matted fur, consider professional grooming or a detangling spray before brushing.
- **Pet shows discomfort:** Ensure you are brushing gently and in the direction of hair growth. Check bristles for any damage or bending that might cause discomfort. If your pet has sensitive skin, consider shorter grooming sessions.
