# Beautyrest Heated Electric Blanket Instruction Manual

Model: BR54-0521

Brand: Beautyrest

### 1. PRODUCT OVERVIEW

The Beautyrest Heated Electric Blanket is designed to provide warmth and comfort. It features Secure Comfort Technology to virtually eliminate Electromagnetic Field (EMF) emissions. Made with soft, flexible wires and ultra-soft microlight plush fabric, it offers customizable warmth with multiple heat settings and an auto shut-off timer for safety and convenience. This blanket is OEKO-TEX certified, ensuring it is free from harmful substances.

## 2. IMPORTANT SAFETY INFORMATION

For your safety, please read and follow all instructions carefully before use. This product is UL certified and independently tested to meet high safety standards. It features low EMF with flexible wires for comfort and enhanced durability.

- Do not use with infants, children, incapacitated persons, or persons insensitive to heat.
- Do not use with pets.
- Do not use if the blanket is wet.
- Always unplug the blanket from the power outlet when not in use or before cleaning.
- Ensure the controller is kept uncovered and not placed under the blanket or other bedding to prevent overheating.
- Keep the power cord loose and untwisted to prevent damage.

### 3. PACKAGE CONTENTS

Upon opening your package, please ensure all items are present and in good condition:

- 1 x Beautyrest Heated Electric Blanket (Twin size: 84 in x 62 in)
- 1 x Controller (Twin and Full sizes include one controller; Queen and King sizes include two controllers)

### 4. SETUP INSTRUCTIONS

1. **Unpack:** Carefully remove the blanket and controller from the packaging.
2. **Position the Blanket:** Lay the heated blanket flat on your bed, ensuring it is spread out evenly without any folds,

bunches, or wrinkles. The blanket should not hang over the sides of the mattress.

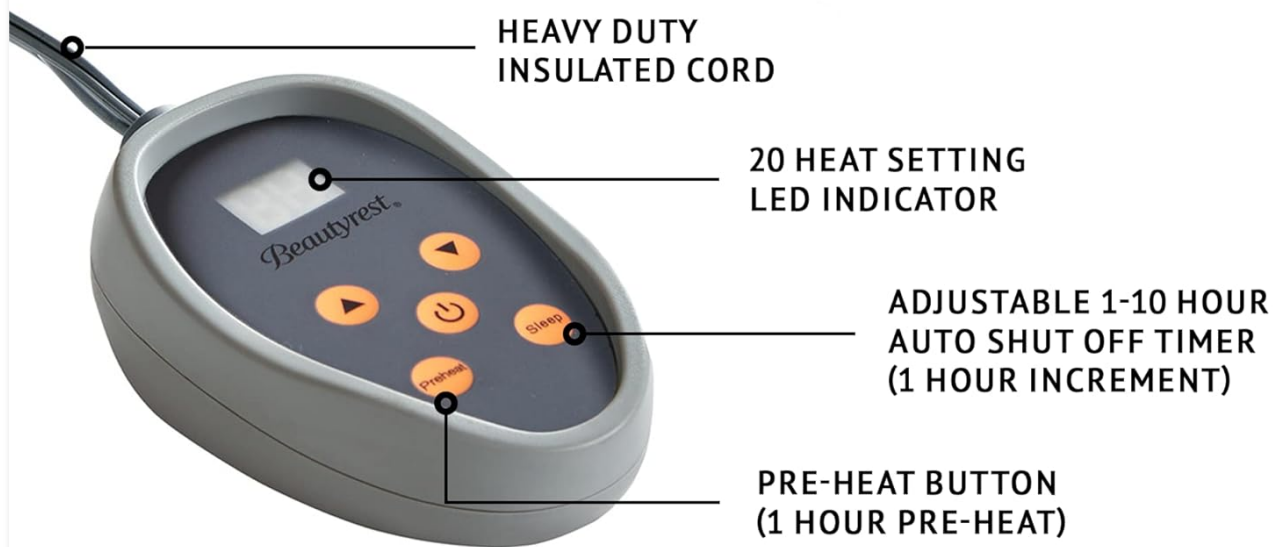

3. **Connect the Controller:** Locate the connector on the blanket and firmly plug the controller cord into it. Ensure a secure connection.
4. **Plug into Power:** Plug the power cord from the controller into a 110V-120V @60Hz electrical outlet. Ensure the outlet is easily accessible.
5. **Place Controller:** Position the controller on a nightstand or other flat surface where it will not be covered by other bedding or objects.

## 5. OPERATING INSTRUCTIONS

Your Beautyrest Heated Electric Blanket offers multiple settings for personalized comfort.

- **Power On/Off:** Press the power button on the controller to turn the blanket on or off.
- **Heat Settings:** Use the temperature control buttons to select from 20 different heat settings. The LED indicator will display the current setting. Heat ranges from 85°F to 105°F (temperature may vary based on ambient room temperature).
- **Pre-Heat Feature:** Press the "Pre-Heat" button for a 1-hour pre-heat cycle to quickly warm your bed before use.
- **Auto Shut-Off Timer:** The blanket features an adjustable auto shut-off timer that can be set from 1 to 10 hours. This feature automatically turns off the blanket after the selected duration for safety and energy saving.
- **Smart Home Compatibility:** This blanket is compatible with smart home outlets and automatic timers, allowing for integration into your smart home system.

## 6. MAINTENANCE AND CARE

To ensure the longevity and proper functioning of your heated blanket, follow these care instructions:

- **Machine Washable:** The blanket is machine washable for easy care.
- **Before Washing:** Always unplug the controller from the blanket and the wall outlet before washing.
- **Washing Instructions:** Wash on a gentle cycle with cold water. Do not bleach.
- **Drying Instructions:** Tumble dry on low heat or air dry. Ensure the blanket is completely dry before reconnecting the controller and using it.
- **Storage:** Store the blanket in a cool, dry place. Avoid folding or creasing the blanket tightly, especially around the heating elements.

## 7. TROUBLESHOOTING

If you encounter any issues with your Beautyrest Heated Electric Blanket, please refer to the following common problems and solutions:

**Q: Why is my light blinking?**

A: Unplug and reconnect the controller, ensuring it is properly connected to both the blanket and the wall outlet. If the issue persists, contact customer support.

**Q: Why does my blanket not heat well?**

A: Ensure the blanket is powered on and set to the maximum heat level. Allow sufficient time (e.g., 15-30 minutes) for the blanket to heat up fully. Ensure the blanket is spread out flat and not bunched or folded.

**Q: Only parts of my blanket are getting warm.**

A: This is usually caused by a bunched or pinched heating element. Lay the blanket flat, untucked, and free from heavy objects. Straighten the heating wires as needed to restore function. Lay the blanket flat and run your

fingers along the wire, paying special attention to the top and bottom of the blanket where the wire bends. If any portion of the wire is twisted on itself, manually twist it back.
