## Beautyrest BR54-0519

# Beautyrest Heated Electric Blanket Instruction Manual

Model: BR54-0519 (Queen Mink, 90in x 84in)

## INTRODUCTION

Thank you for choosing the Beautyrest Heated Electric Blanket. This blanket is designed to provide warmth and comfort with advanced features for your safety and convenience. It features Secure Comfort Technology to minimize electromagnetic field emissions, soft microlight plush fabric, and multiple heat settings with an auto shut-off function. Please read this manual thoroughly before use to ensure proper operation and maintenance.

## IMPORTANT SAFETY INFORMATION

Your safety is paramount. This Beautyrest Heated Electric Blanket is UL certified and independently tested to meet high safety standards. It incorporates low EMF technology and flexible wiring for enhanced durability. Adhere to the following guidelines to prevent hazards and ensure safe operation.

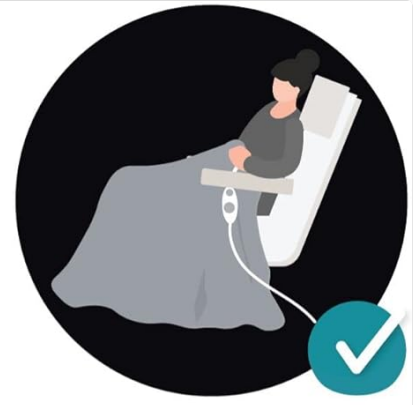

- Do not use with infants, children, incapacitated persons, or anyone insensitive to heat.
- Do not use with pets.
- Never use the blanket on a waterbed.
- Do not use if the blanket is wet.
- Avoid pinching, folding, or bunching the blanket, especially when it is powered on, as this can damage heating elements.
- Keep the controller uncovered and away from other heat sources.
- Ensure cords are loose and not twisted or pinched.
- Always unplug the blanket when not in use.

Keep Controller  
Uncovered

Keep Blanket  
Spread Out Evenly

Keep Cord Loose,  
Not Twisted & Pinched

## DOS/DON'TS

Don't Lay on  
Top of the Blanket to Prevent  
Damage to Internal Coils

Don't Ballup Your  
Blanket While On

Don't Fold your  
Blanket While On

**Figure 1:** Important Dos and Don'ts for Heated Blanket Use. This image illustrates correct practices such as keeping the controller uncovered, spreading the blanket evenly, and ensuring cords are not twisted. It also shows incorrect practices like laying on the blanket, balling it up, or folding it while powered on, which can cause damage.

## SETUP INSTRUCTIONS

1. **Unpack the Blanket:** Carefully remove the blanket and controllers from the packaging.
2. **Position the Blanket:** Lay the heated blanket flat on your bed, ensuring it is spread out evenly without any folds or bunches. The blanket should be placed directly on top of your mattress pad or sheet.
3. **Connect the Controller(s):** For Queen and King sizes, your blanket comes with two controllers. Locate the connector ports on the blanket and firmly plug in the controller cords. Ensure a secure connection.
4. **Plug into Power:** Plug the power cord(s) from the controller(s) into a standard 110-120V AC electrical outlet. Ensure the outlet is easily accessible.
5. **Controller Placement:** Place the controller(s) in a convenient location where they will not be covered by other bedding or objects.

Figure 3: Detailed view of the Beautyrest Heated Blanket Controller features.

1. **Power On/Off:** Press the 'Power' button to turn the blanket on or off. The LED indicator will illuminate when the blanket is active.
2. **Adjust Heat Settings:** Use the '+' and '-' buttons to cycle through the 20 available heat settings. Start with a lower setting and adjust as needed for your desired warmth. The temperature range is approximately 85°F - 105°F (actual temperature may vary based on room conditions).
3. **Pre-Heat Function:** Press the 'Pre-Heat' button to activate a 1-hour pre-heat cycle. This feature quickly warms the blanket before you get into bed. After 1 hour, the blanket will automatically revert to your last selected heat setting.
4. **Auto Shut-Off Timer:** Press the 'Sleep' button to set the auto shut-off timer. You can select a duration from 1 to 10 hours in 1-hour increments. The blanket will automatically turn off after the selected time has elapsed.
5. **Dual Controllers (Queen/King):** For Queen and King size blankets, each side has an independent controller, allowing two users to customize their individual heat settings and shut-off times.

## CARE AND MAINTENANCE

Proper care ensures the longevity and performance of your heated blanket. This blanket is machine washable.

1. **Before Washing:** Always disconnect the controller(s) from the blanket and unplug the power cord(s) from the wall outlet.
2. **Pre-Soak (Optional):** For best results, pre-soak the blanket for 15 minutes in mild soap and cold water.
3. **Machine Wash:** Wash on the 'delicate' or 'gentle' cycle in a washing machine with cold water and a small amount of mild, non-bleach detergent. Do not use bleach.
4. **Rinse:** Rinse on the 'normal' cycle.
5. **Machine Dry:** Tumble dry on low heat for 5-10 minutes to remove excess moisture. Do not use high heat.
6. **Air Dry:** Remove the blanket from the dryer while still damp and drape it over a clothesline or shower rod to air dry completely. Ensure the blanket is fully dry before reconnecting the controller(s) or storing.
7. **Storage:** Store the blanket loosely folded in a cool, dry place. Avoid tightly folding or placing heavy objects on the blanket, which can damage the internal wiring.

This blanket is OEKO-TEX certified, meaning it has been tested for harmful substances and is safe for human ecological requirements.

## TROUBLESHOOTING

If you encounter issues with your heated blanket, refer to the following common solutions:

- **Blinking Light on Controller:** If the controller light is blinking, unplug the blanket from the wall outlet and disconnect the controller from the blanket. Reconnect both securely and plug the blanket back into the outlet. If the issue persists, contact customer support.
- **Blanket Not Heating Well:** Ensure the blanket is powered on and set to a sufficiently high heat level. Allow adequate time for the blanket to reach the desired temperature, as heating can be gradual.
- **Only Parts of the Blanket are Warming:** This often indicates a bunched or pinched heating element. Lay the blanket completely flat, ensuring it is untucked and free from any heavy objects. Gently run your fingers along the blanket to straighten any twisted or bunched heating wires. Pay close attention to the top and bottom edges where wires may bend. If any portion of the wire is twisted on itself, manually untwist it.

## SPECIFICATIONS

Feature	Detail
Model Number	BR54-0519
Size	Queen (90 inches L x 84 inches W)
Color	Mink
Material	100% Microlight Plush Polyester
Power Input	110-120V AC, 60Hz (Max 160W)
