# Beautyrest Heated Electric Blanket User Manual

Model: BR54-0523 (Queen, 90 in x 84 in)

## INTRODUCTION

This manual provides essential information for the safe and effective use of your Beautyrest Heated Electric Blanket. Designed for comfort and warmth, this blanket features Secure Comfort Technology to minimize electromagnetic field emissions, multiple heat settings, and an auto shut-off function.

Figure 1: Beautyrest Queen Heated Electric Blanket (Ivory)

The blanket is crafted from 100% Microlight Plush polyester, offering a soft and cozy feel. It is UL certified, ensuring high safety standards.

## IMPORTANT SAFETY INFORMATION

### **READ ALL INSTRUCTIONS CAREFULLY BEFORE USE AND RETAIN FOR FUTURE REFERENCE.**

- Do not use this blanket with an infant, a child, an incapacitated person, a paraplegic, a quadriplegic, a diabetic, anyone insensitive to heat, or anyone who cannot clearly understand the instructions and/or operate the controls.
- Ensure the blanket is spread out evenly on the bed. Do not bunch or fold the blanket while it is in operation.
- Keep the controller uncovered and away from other heat sources.
- Ensure the power cord is loose, not twisted or pinched, to prevent damage.
- This product features Secure Comfort Technology designed to virtually eliminate Electromagnetic Field (EMF) emissions.
- The blanket is UL certified and independently tested to meet the highest safety standards.

Keep Controller  
Uncovered

Keep Blanket  
Spread Out Evenly

Keep Cord Loose,  
Not Twisted & Pinched

## DOS/DON'TS

Don't Lay on  
Top of the Blanket to Prevent  
Damage to Internal Coils

Don't Ballup Your  
Blanket While On

Don't Fold your  
Blanket While On

## SETUP INSTRUCTIONS

1. Unpack the blanket and controllers from the packaging.
2. Lay the blanket flat on your bed, ensuring it is spread out smoothly without any folds or creases.
3. Connect the controller(s) to the blanket. For Queen and King sizes, two controllers are provided for dual-zone heating. Ensure the connectors are firmly seated.
4. Plug the power cord(s) into a standard 110V-120V AC electrical outlet.

## OPERATING INSTRUCTIONS

Your Beautyrest Heated Electric Blanket features an easy-to-use controller with multiple settings for personalized comfort.

# CONTROLLER FEATURES

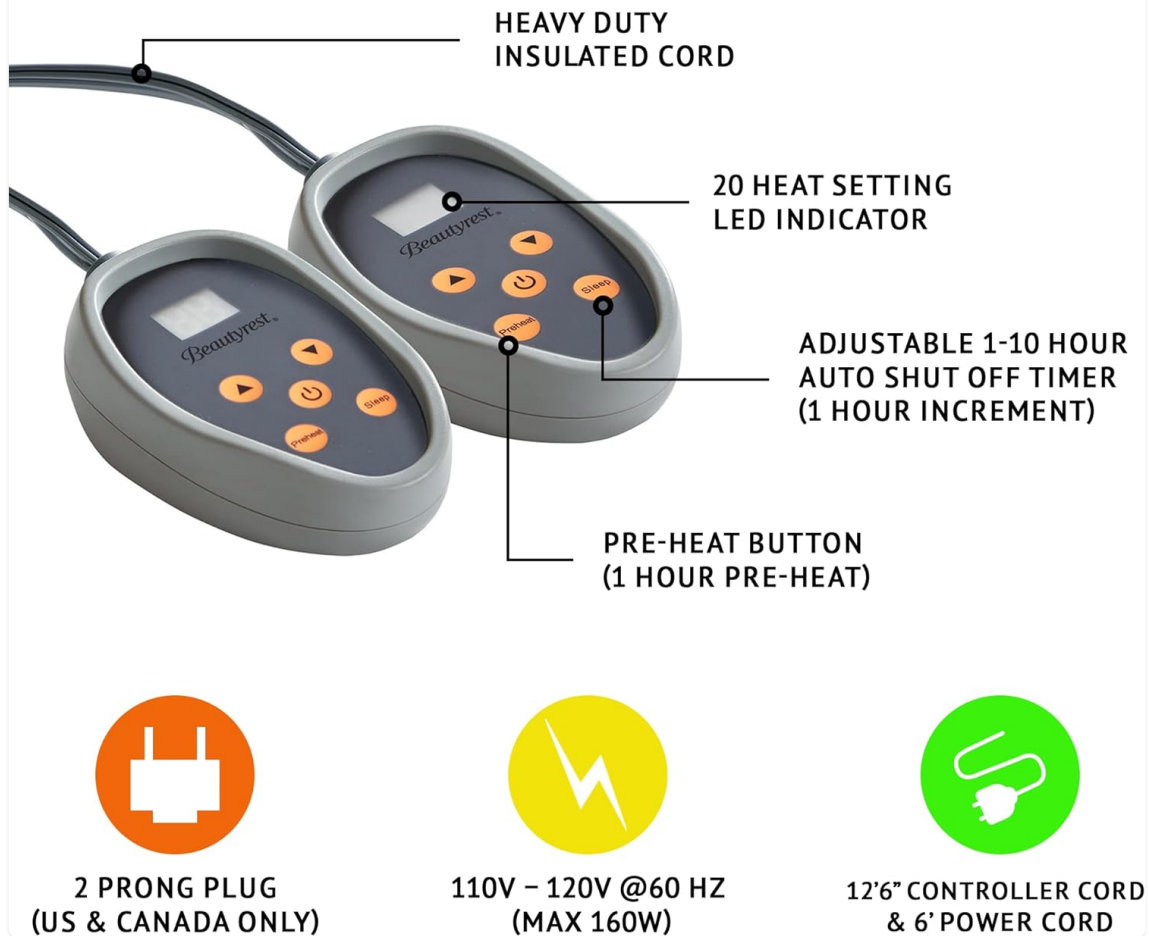

Figure 3: Controller Features

- **Power On/Off:** Press the power button to turn the blanket on or off.
- **Heat Settings:** Use the up/down arrows to select one of the 20 available heat settings. The LED indicator will display the current setting. The blanket delivers heat ranging from 85 - 105°F (temperature range may vary based on ambient room temperature).
- **Pre-Heat Function:** Press the "Pre-Heat" button for a 1-hour pre-heat cycle to quickly warm your bed.
- **Auto Shut-Off Timer:** Set the auto shut-off timer from 1 to 10 hours in 1-hour increments. The blanket will automatically turn off after the selected duration.
- **Dual Controls:** Queen and King size blankets come with two controllers, allowing individual temperature and timer settings for each side of the bed.

## MAINTENANCE AND CARE

Proper care will extend the life of your heated blanket.

1. Always unplug the power cord(s) from the wall outlet and detach the controller(s) from the blanket before washing.

2. The blanket is 100% machine washable. Use a gentle cycle with cold water.
3. Do not bleach or iron the blanket.
4. For drying, hang dry or tumble dry on low heat. Ensure the blanket and all connectors are completely dry before reattaching the controller(s) and plugging it back in.

## TROUBLESHOOTING

If you encounter any issues with your heated blanket, refer to the following common solutions:

- **Light Blinking:** Unplug and reconnect the controller, ensuring it is properly connected. If the issue persists, contact customer support.
- **Blanket Not Heating Well:** Ensure the blanket is powered on and set to the maximum heat level. Allow sufficient time for it to heat up.
- **Only Parts of Blanket are Warming:** This is often caused by bunched or pinched heating elements. Lay the blanket flat, untucked, and free from heavy objects. Straighten the heating wires as needed to restore function. Run your fingers along the wire, paying special attention to the top and bottom of the blanket where the wire bends. If any portion of the wire is twisted on itself, manually twist it back.
