2. SETUP

The Hot Wheels White Datsun 240z is a pre-assembled die-cast model and requires no complex setup. Follow these simple steps to prepare your model for display or play:

1. **Unboxing:** Carefully remove the model from its packaging. Retain the packaging for future storage or reference if desired.
2. **Inspection:** Examine the model for any visible damage or manufacturing defects. If any issues are found, refer to the Warranty & Support section.
3. **Placement:** Place the model on a flat, stable surface for display. Ensure it is away from direct sunlight, extreme temperatures, and high humidity to preserve its finish.

3. OPERATING INSTRUCTIONS

This die-cast model is designed for manual operation. It does not require batteries or external power sources.

- **Rolling:** Gently push the model forward or backward on a smooth, flat surface to engage its wheels. The wheels are designed to roll freely.
- **Handling:** Always handle the model by its body to avoid damaging delicate parts such as mirrors or spoilers, if present.
- **Display:** For static display, ensure the model is placed securely to prevent accidental falls.

4. MAINTENANCE

Proper care will help maintain the appearance and condition of your Hot Wheels model.

- **Cleaning:** Use a soft, dry cloth to gently wipe away dust from the model. For stubborn dirt, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid abrasive cleaners or solvents, as these can damage the paint finish.
- **Storage:** When not on display, store the model in its original packaging or a protective case to prevent dust accumulation and accidental damage.
- **Environmental Conditions:** Keep the model away from direct sunlight, high humidity, and extreme temperatures, which can cause fading, warping, or material degradation over time.

5. TROUBLESHOOTING

Most issues with die-cast models are minor and can be resolved with simple checks.

Problem	Possible Cause	Solution
Wheels do not roll smoothly.	Dust or debris caught in the axle.	Gently remove any visible debris from around the wheels and axles using a soft brush or compressed air. Do not force the wheels.

Problem	Possible Cause	Solution
Paint finish appears dull or scratched.	Improper cleaning or handling.	Ensure only soft cloths are used for cleaning. Avoid abrasive surfaces or materials during play. Minor scratches may not be repairable without professional intervention.
Small parts (e.g., mirrors) are loose or detached.	Accidental impact or rough handling.	If a part is detached, it may be reattached with a small amount of model-safe adhesive, if appropriate. Exercise caution and refer to specialized hobby resources if unsure.

6. SPECIFICATIONS
