Servo TL1515

Servo TL1515 Tough Light Soft Apron User Manual

Model: **TL1515** | Brand: **Servo**

1. PRODUCT OVERVIEW

1.1 Description

The Servo TL1515 Tough Light Soft Apron is designed for superior waterproof performance, durability, and antibacterial properties. It utilizes a welded processing method, which involves folding the edges and crimping them with high-frequency heating. This technique results in a lighter apron compared to traditional PVC materials, while maintaining excellent protective qualities.

1.2 Key Features

- **Type:** Aprons (Tough Light Soft)
- **Material:** Antibacterial blended P/U film (0.25 mm thick)
- **Construction:** Weldered for enhanced durability and waterproofing
- **Included:** Matching cord for secure fit
- **Size:** String length 130 cm x 2 cm, String width 1 cm

Figure 1: Front view of the Servo TL1515 Tough Light Soft Apron in pink.

2. SETUP AND PREPARATION

Before first use, please inspect the apron for any signs of damage or manufacturing defects. Ensure all components, including the matching cord, are present and in good condition.

1. **Unpack:** Carefully remove the apron from its packaging.
2. **Inspect:** Check the entire surface of the apron, especially the welded seams, for any tears, punctures, or irregularities.
3. **Initial Cleaning:** For hygiene, it is recommended to wipe down the apron with a damp cloth and mild soap before its first use. Rinse thoroughly and allow to air dry completely.

3. USAGE INSTRUCTIONS

The Servo TL1515 apron is designed for protection in various work environments where liquid splash or contamination is a concern. Its lightweight and flexible design ensures comfort during extended wear.

1. **Wearing the Apron:**
 - Place the neck loop over your head.
 - Adjust the apron to cover the desired area of your body.
 - Tie the matching cord securely around your waist or back to ensure a snug fit.
2. **Protective Qualities:**
 - The welded construction provides a strong, waterproof barrier against liquids.
 - The antibacterial blended P/U film helps inhibit the growth of bacteria on the apron's surface.

4. CARE AND MAINTENANCE

Proper care and maintenance will extend the lifespan and effectiveness of your Servo TL1515 apron.

1. **Cleaning:**
 - After each use, wipe the apron clean with a damp cloth and a mild, non-abrasive detergent.
 - For stubborn stains, a soft brush can be used gently.
 - Rinse thoroughly with clean water to remove all soap residue.
 - *Do not machine wash, tumble dry, iron, or dry clean.* These methods can damage the material and welded seams.
2. **Drying:**
 - Hang the apron in a well-ventilated area away from direct sunlight or heat sources to air dry completely.
 - Ensure the apron is fully dry before storing to prevent mildew or odor.
3. **Storage:**

- Store the apron flat or rolled loosely to avoid creases or folds that could weaken the material over time.
- Keep in a cool, dry place, away from sharp objects or chemicals.

5. TROUBLESHOOTING

This section addresses common concerns you might encounter with your apron.

- **Issue: Apron feels stiff or has creases.**

Solution: The material is designed to be flexible. Storing it rolled loosely or hanging can help prevent permanent creases. Over time, the material will soften with use. Avoid folding tightly.

- **Issue: Odor develops on the apron.**

Solution: Although the apron has antibacterial properties, regular cleaning is essential. Ensure the apron is thoroughly cleaned and completely dried after each use. If an odor persists, a mild disinfectant spray designed for fabrics can be used, followed by thorough rinsing and drying.

- **Issue: Water seeps through the apron.**

Solution: Inspect the apron for any punctures, tears, or damage to the welded seams. While highly durable, extreme conditions or sharp objects can compromise its integrity. If damage is found, the protective qualities may be compromised, and replacement might be necessary.

6. SPECIFICATIONS

General Product Specifications

Attribute	Value
Model Number	TL1515
Manufacturer	Servo
ASIN	B0107MRPDU
First Available	11 May 2022
Package Dimensions	32.3 x 27.4 x 4.1 cm
Item Weight	322 g

6.1 Size Information

サイズ	SS	S	M	L
対応身長	—	150~160	160~170	170~180
前中心丈	80	100	110	120
身巾	57	90	90	90

Figure 2: Detailed size chart for the Servo TL1515 Apron. Measurements are in centimeters.

The size chart above provides specific dimensions for different apron sizes (SS, S, M, L) including corresponding height, front length, and body width. Please refer to this chart to select the appropriate size.

6.2 Material Properties

Figure 3: Visual representation of the apron's lightweight and antibacterial features.

- **Lightweight:** The welded processing makes the apron lighter than traditional PVC materials, enhancing user comfort.
- **Antibacterial:** The blended P/U film material is treated to resist bacterial growth, contributing to hygiene.

7. WARRANTY AND SUPPORT

For specific warranty information regarding your Servo TL1515 Tough Light Soft Apron, please refer to the documentation provided at the time of purchase or contact the manufacturer directly. Servo is committed to providing quality products.

If you have any questions, require technical assistance, or need to report an issue, please contact Servo customer support through their official website or the retailer from whom you purchased the product.
