Servo TL1515

Servo TL1515 Tough Light Soft Apron Instruction Manual

INTRODUCTION

This manual provides instructions for the proper use, care, and maintenance of your Servo TL1515 Tough Light Soft Apron. Please read this manual thoroughly before using the product to ensure safe and effective operation and to maximize its lifespan.

PRODUCT OVERVIEW

The Servo TL1515 is a durable and lightweight apron designed for various work environments. It features a welded construction for superior waterproofing and durability, and an antibacterial blended P/U film for hygiene.

Key Features:

- Welded construction for enhanced durability and waterproofing.
- Antibacterial blended P/U film (0.25 mm thick) for improved hygiene.
- Lightweight design for comfort during extended use.
- Includes a matching cord for secure fastening.

サイズ	SS	S	M	L
対応身長	—	150~160	160~170	170~180
前中心丈	80	100	110	120
身巾	57	90	90	90

Product Description:

The Servo TL1515 is a welded apron offering superior waterproofing, durability, and antibacterial properties. The welder processing method involves folding the edges and crimping them with high-frequency heating. This advanced technique results in a product that is lighter than traditional PVC material while providing robust protection for various tasks.

SETUP

The Servo TL1515 apron is designed for immediate use with minimal setup required.

Unpacking:

Carefully remove the apron from its packaging. Inspect the apron for any signs of damage, such as tears or punctures. If any damage is found, do not use the product and contact customer support for assistance.

Wearing the Apron:

1. Place the apron over your clothing, ensuring it covers the desired area for protection.
2. Adjust the neck and waist cords for a comfortable and secure fit. The apron should fit snugly but not restrict movement.
3. Utilize the included matching cord to further secure the apron, preventing it from shifting during activity.

OPERATING INSTRUCTIONS

The Servo TL1515 apron is intended to provide effective protection during various tasks in work environments.

General Use:

Wear the apron to protect your clothing from splashes, spills, dirt, and general wear and tear in professional settings. Its waterproof and antibacterial properties make it ideal for environments requiring high standards of hygiene and protection.

Always ensure the apron is properly secured to prevent it from interfering with your work, snagging on equipment, or posing a safety hazard.

Specific Applications:

This apron is particularly suitable for tasks in food service, healthcare, cleaning, or any industry where protection against liquids and bacterial contamination is crucial. Its lightweight nature ensures comfort and ease of movement, even during extended periods of use.

MAINTENANCE

Proper care and maintenance will significantly extend the life and effectiveness of your Servo TL1515 apron.

Cleaning:

- Wipe the apron clean with a damp cloth and a mild, non-abrasive detergent immediately after use to prevent stains and buildup.
- Do not use harsh chemicals, abrasive cleaners, bleach, or solvents, as these may damage the P/U film and compromise the apron's protective properties.
- Rinse thoroughly with clean water to remove any soap residue.

Drying:

- Air dry the apron completely in a well-ventilated area before storing.
- Do not tumble dry, iron, or expose the apron to direct heat sources (e.g., radiators, direct sunlight for prolonged periods), as this can damage the material.

Storage:

- Store the apron in a cool, dry place away from direct sunlight, extreme temperatures, and sharp objects.
- Avoid folding the apron tightly for long periods to prevent permanent creasing or damage to the material. Hang it if possible.

TROUBLESHOOTING

This section addresses common issues you might encounter with your Servo TL1515 apron.

Apron appears damaged (e.g., tears, punctures):

- **Cause:** Physical stress, sharp objects, or prolonged wear.
- **Solution:** If the apron shows signs of significant tearing, punctures, or material degradation, its protective qualities may be compromised. For safety and hygiene, it is recommended to replace the apron. Attempting to repair may not restore full protection.

Apron is not providing adequate protection (e.g., liquids seeping through):

- **Cause:** Incorrect fit, material damage, or improper use.
- **Solution:**
 - Ensure the apron is correctly sized and worn, covering all necessary areas.
 - Inspect the material for any subtle damage, pinholes, or thinning that might not be immediately obvious.
 - Verify that the apron is being used within its intended protective capabilities.

SPECIFICATIONS

Detailed specifications for the Servo TL1515 Tough Light Soft Apron are provided below:

- **Type:** Apron (Tough Light Soft)
- **Model Number:** TL1515
- **Material:** Antibacterial blended P/U film (0.25 mm thick)
- **Construction:** Weldered
- **Features:** Waterproof, Durable, Antibacterial, Lightweight
- **Package Dimensions:** 31.2 x 25.5 x 4 cm
- **Item Weight:** 327.99 g
