## 3. SAFETY INFORMATION

Please observe the following safety precautions to prevent injury or damage to the product:

- Do not exceed the maximum power rating of 15A / 125V.
- Ensure proper grounding during installation.
- Do not disassemble or modify the unit.
- Keep away from water and excessive moisture.
- This product is intended for indoor use only.
- Ensure the installation surface is stable and can support the unit.
- Keep children away from the unit during operation.

## 4. PACKAGE CONTENTS

Verify that all items are present in the package:

## 5. INSTALLATION (SETUP)

Follow these steps to install your Pop Up Outlet Socket:

1. **Prepare the Surface:** Ensure the installation surface (e.g., countertop, desk) is clean and clear. Verify there is at least 11.4 inches of clear space underneath the table for the unit to retract fully.

2. **Mark the Cutout:** Use the provided ring lock as a template to mark the exact location for the hole. The required hole size is approximately 3.15 inches (80mm) in diameter.

3. **Cut the Hole:** Carefully cut a 3.15 inch (80mm) diameter hole in the marked location.

4. **Insert the Unit:** Place the pop-up outlet vertically into the cut hole.

5. **Secure the Unit:** From underneath the surface, tighten the locking ring along the thread until the unit is securely fastened.

## 6. OPERATING INSTRUCTIONS

### Extending the Outlet:

To extend the outlet, gently press down on the top cap. The unit will pop up, revealing the AC outlets and USB ports.

### Retracting the Outlet:

To retract the outlet, push down on the top cap until it locks into its recessed position, flush with the surface.

### Using the Ports:

- Plug your devices into the 3 US standard AC outlets.
- Connect your USB-compatible devices to the 2 USB-A ports for charging.

## 7. Maintenance

- **Cleaning:** Wipe the exterior with a soft, dry cloth. Do not use abrasive cleaners or solvents. Ensure the unit is unplugged before cleaning.
- **Inspection:** Periodically check the power cord and the unit for any signs of damage. If damage is found, discontinue use and contact support.
- **Mechanism Care:** Keep the pop-up mechanism free from debris to ensure smooth operation.

## 8. Troubleshooting

| Problem | Possible Cause | Solution |
|---------|----------------|----------|

| Problem | Possible Cause | Solution |
|---|---|---|
| No power from outlets/USB ports | Unit not plugged in; circuit breaker tripped; internal fault. | Ensure the unit's power cord is securely plugged into a live wall outlet. Check your home's circuit breaker. If the issue persists, contact support. |
| Unit does not pop up/retract smoothly | Obstruction in mechanism; debris in the hole; improper installation. | Check for any obstructions around or within the mechanism. Ensure the installation hole is clear. Verify the locking ring is not overtightened or misaligned. |
| Devices not charging via USB | USB cable faulty; device not compatible; device requires more power than available. | Try a different USB cable or device. Ensure the device's power requirements are within the USB port's specifications (5V/2.1A). |
