## PRODUCT OVERVIEW

---

The Plantronics Explorer 500 is a versatile Bluetooth headset designed for universal compatibility and comfortable use. It offers reliable wireless communication and a compact, lightweight design for all-day wear.

The Plantronics Explorer 500 Bluetooth Headset, featuring a sleek black design with an ear hook.

## SETUP

---

### 1. Charging the Headset

Before first use, fully charge your Explorer 500 headset. Use the provided USB charging cable to connect the headset to a power source.

The USB charging cable for the Plantronics Explorer 500, featuring a unique magnetic connection for easy charging.

## 2. Pairing with a Device

To pair your headset with a smartphone, tablet, or other Bluetooth-enabled device:

1. Turn on the headset by sliding the power switch.
2. Activate Bluetooth on your device.
3. Select "PLT\_E500" from the list of available devices.
4. If prompted, enter the passcode "0000" (four zeros).

The headset will confirm successful pairing.

## 3. Earpiece Adjustment

The Explorer 500 comes with multiple earpiece sizes (small, medium, large) to ensure a comfortable and secure fit. Choose the size that best fits your ear. The microphone boom is ergonomic and can be adjusted for optimal voice pickup.

## OPERATION

---

### Power On/Off

Slide the dedicated power switch located on the back of the headset to turn it on or off.

### Volume Control

Use the volume up and down buttons on the headset to adjust the audio level during calls or media playback.

### Call Management

- **Answer/End Call:** Press the Call button once.
- **Reject Call:** Press and hold the Call button for 2 seconds.

- **Redial:** Double-press the Call button.
- **Voice Commands:** Press and hold the Call button to activate your smartphone's voice assistant (e.g., Siri, Google Assistant).

## Ambidextrous Design

The headset features an ambidextrous design, allowing you to wear it comfortably on either your right or left ear by simply flipping the microphone boom.

## MAINTENANCE

---

To ensure the longevity and optimal performance of your Plantronics Explorer 500 headset, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the headset with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the headset in a cool, dry place away from extreme temperatures and direct sunlight.
- **Charging Port:** Keep the charging port clean and free of dust and debris. The magnetic connection helps protect it.
- **Water Resistance:** The headset is water-resistant, but it is not waterproof. Avoid submerging it in water.

## TROUBLESHOOTING

---

### No Power

- Ensure the headset is fully charged. Connect it to the charger and check the indicator light.
- Verify the power switch is in the "On" position.

### Cannot Pair

- Make sure the headset is in pairing mode (usually indicated by a flashing LED).
- Ensure Bluetooth is enabled on your device and it is discoverable.
- Move the headset closer to your device.
- If previously paired, try deleting the headset from your device's Bluetooth list and re-pairing.

### Poor Audio Quality

- Ensure the headset is within the 10-meter wireless range of your device.
- Check for obstructions between the headset and your device.
- Adjust the volume on both the headset and your connected device.
- Ensure the earpiece is properly seated in your ear.
