Jobar JB5824

Jobar International JB5824 Extra Wide Talking Scale

User Manual

Product Overview

The Jobar International JB5824 Extra Wide Talking Scale is designed to provide accurate weight measurements with enhanced accessibility features. This digital scale boasts a high weight capacity and a user-friendly design, making it suitable for a wide range of users, including those with visual impairments.

An image of the Jobar International JB5824 Extra Wide Talking Scale, showcasing its sleek black design, tempered glass top, and large LCD display. The scale is designed for stability and ease of use, with a wide platform.

Key Features:

- **High Capacity:** Supports up to 550 lbs (250 kg).
- **Extra Wide Platform:** Provides enhanced stability and comfort during use.
- **Tempered Glass Top:** Durable and easy to clean surface.
- **Talking Function:** Announces weight measurements clearly, beneficial for visually impaired users.
- **Large LCD Display:** Easy-to-read digital readout.
- **Two-Person Memory:** Stores up to 30 memories for two individual users.
- **Auto On/Off:** Tap-on activation and automatic shut-off for convenience and battery saving.
- **Low-Battery Indicator:** Alerts when battery replacement is needed.

Setup Guide

1. Unpacking

Carefully remove the scale from its packaging. Inspect the scale for any signs of damage. Retain the packaging for future storage or transport.

2. Battery Installation

1. Locate the battery compartment on the underside of the scale.
2. Open the battery compartment cover.
3. Insert the required 9-volt batteries, ensuring correct polarity (+/-) as indicated inside the compartment.
4. Close the battery compartment cover securely.

3. Placement

Place the scale on a hard, flat, and stable surface. Uneven or soft surfaces (like carpet) can affect accuracy. Ensure the scale is not near strong electromagnetic fields.

Operating Instructions

1. Taking a Weight Measurement

1. Gently tap the center of the scale with your foot to activate it. The display will show "0.0" or "0.00".
2. Once "0.0" is displayed, step onto the scale with bare feet, standing still and centered on the platform.
3. The scale will display your weight and then announce it clearly.
4. Step off the scale. The scale will automatically turn off after a few seconds to conserve battery life.

2. Switching Weight Units (LB/KG)

The scale supports both pounds (LB) and kilograms (KG). To switch between units:

- Locate the unit switch button, usually found on the underside of the scale near the battery compartment.
- Press the button to toggle between LB and KG. The selected unit will be indicated on the LCD display.

3. Using the Two-Person Memory Feature

This scale can store weight data for two individual users, with up to 30 memories each. Refer to the specific instructions provided with your scale for detailed steps on setting up user profiles and recalling past measurements. Typically, this involves a "MODE" or "USER" button on the scale.

4. Auto Zero and Auto Shut-Off

The scale features an automatic zeroing function, ensuring accurate measurements by resetting to zero before each use. The auto shut-off feature conserves battery power by turning the scale off automatically after a period of inactivity.
Note: The talking feature volume is fixed and cannot be adjusted or muted. Be mindful of your surroundings when using the scale if privacy is a concern.

Maintenance

1. Cleaning

To clean the scale, wipe the tempered glass surface with a soft, damp cloth. Do not use abrasive cleaners or immerse the scale in water. Avoid harsh chemicals that may damage the finish.

2. Storage

Store the scale in a dry place at room temperature. Avoid extreme temperatures or high humidity. Do not place heavy objects on the scale when not in use.

3. Battery Replacement

When the low-battery indicator appears on the display, or if the scale fails to turn on, replace the batteries promptly. Follow the battery installation steps outlined in the "Setup Guide" section.

Troubleshooting

Problem	Possible Cause	Solution
Scale does not turn on.	Dead or incorrectly installed batteries.	Check battery polarity; replace batteries if necessary.
Inaccurate readings.	Scale on uneven or soft surface; scale not zeroed.	Place scale on a hard, flat surface. Tap to activate and wait for "0.0" before stepping on.
Talking feature not working.	Low batteries; internal issue.	Replace batteries. If issue persists, contact customer support.
Display shows "Lo" or "Err".	Low battery; overload.	Replace batteries ("Lo"). Ensure weight does not exceed 550 lbs ("Err").

Specifications

- **Model:** JB5824
- **Brand:** Jobar International
- **Weight Capacity:** 550 lbs (250 kg)
- **Display:** Large LCD
- **Platform Material:** Tempered Glass
- **Features:** Talking function, 2-person memory (30 memories each), Auto Zero, Auto Shut-Off, Low-Battery Indicator
- **Power Source:** 9-volt batteries (not included)
