Union Products 39-Inch Lighted Noel Candle (Model C01200) Instruction Manual

Model: C01200 | Brand: Union

1. INTRODUCTION

This manual provides essential instructions for the safe and effective use of your Union Products 39-inch Lighted Noel Candle. This blow-molded plastic candle is designed to provide illuminated decoration for both indoor and outdoor settings. Please read this manual thoroughly before assembly and operation, and retain it for future reference.

2. SAFETY INFORMATION

To reduce the risk of fire, electric shock, or injury, always follow these basic safety precautions:

- **Read all instructions:** Familiarize yourself with the product before use.
- **Electrical Safety:** Ensure the electrical cord and plug are in good condition. Do not use if damaged. Connect to a properly grounded outlet.
- **Outdoor Use:** This product is suitable for outdoor use. However, ensure all electrical connections are protected from moisture.
- **Stability:** For outdoor placement, secure the candle to prevent it from tipping over, especially in windy conditions. Consider adding weight to the base if necessary (e.g., a sandbag inside a plastic bag).
- **Placement:** Do not place near heat sources or flammable materials. Keep out of reach of children and pets.
- **Bulb Replacement:** Always unplug the unit before attempting to replace the light bulb. Use only the specified bulb type.
- **Storage:** Unplug and store the candle in a cool, dry place when not in use.

Proposition 65 Warning: This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to

www.P65Warnings.ca.gov.

3. PACKAGE CONTENTS

Verify that all components are present:

- 1 x Union Products 39-inch Lighted Noel Candle unit
- 1 x Electric Cord (UL certified)
- 1 x Light Bulb (pre-installed or included separately)

4. SETUP

Follow these steps to set up your lighted Noel candle:

1. **Unpack:** Carefully remove all components from the packaging. Inspect for any damage.
2. **Bulb Installation (if not pre-installed):** If the bulb is not already installed, gently screw it into the socket located inside the candle unit. Ensure it is secure but do not overtighten.
3. **Placement:** Choose a suitable location for your candle. For outdoor use, select a flat, stable surface. For indoor use, ensure it is away from high-traffic areas and flammable materials.
4. **Securing the Candle (Outdoor Use):** To enhance stability, especially in windy conditions, you may need to add weight to the base. This can be done by placing a plastic bag filled with sand or small rocks inside the hollow base of the candle. Alternatively, stakes (not included) can be used to secure it to the ground if the design allows.
5. **Connect Power:** Plug the UL-certified electric cord into a standard electrical outlet. For outdoor use, ensure the outlet is weather-protected and rated for outdoor use.

Shine Bright **This Holiday Season**

Built-in LED light brings your yard to life with a warm festive glow—no extra setup required.

Classic Noel Candle in 39-Inch Design

Uses traditional blow-mold construction—popular for collectors and homeowners who love vintage Christmas décor. Modern alternatives rarely have this authentic retro look.

Tough Construction for All-Weather Use

Made from heavy-duty, weather-resistant materials
to shine bright through rain, snow, and cold.

5. OPERATING INSTRUCTIONS

The Union Products Lighted Noel Candle is designed for simple operation:

- Once properly plugged into a power outlet, the internal light bulb will illuminate, providing a warm glow.
- To turn off the candle, simply unplug the power cord from the electrical outlet.
- There is no on/off switch on the unit itself; operation is controlled by plugging and unplugging the unit.

6. MAINTENANCE

- **Cleaning:** Disconnect from power before cleaning. Wipe the surface with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Bulb Replacement:** If the light bulb burns out, unplug the unit. Carefully remove the old bulb and replace it with a new one of the same type and wattage. Refer to the specifications section for bulb details.

- **Storage:** When not in use, unplug the candle and store it in its original packaging or a protective container in a cool, dry place, away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Candle does not light up.	No power to the outlet. Bulb is loose or burnt out. Damaged electrical cord.	Check the power outlet with another device. Ensure the bulb is securely screwed in or replace it. Inspect the cord for damage; discontinue use if damaged.
Candle tips over easily.	Unstable placement. Insufficient weight in base.	Place on a flat, level surface. Add sand or small rocks in a plastic bag to the base for stability.
Light is dim or flickering.	Bulb nearing end of life. Loose connection.	Replace the light bulb. Ensure the bulb is tightly screwed in.
