UPBRIGHT AQ85000G

UpBright 9V AC Adapter for Hyper Tough AQ85000G 8V Cordless Rotary Tool Instruction Manual

INTRODUCTION

This manual provides instructions for the safe and effective use of your UpBright 9V AC Adapter. This adapter is designed to provide power and charge compatible devices, specifically the Hyper Tough AQ85000G 8-Volt Lithium-Ion Cordless Rotary Tool and other devices requiring a 9V DC 500mA power supply with a barrel connector. Please read this manual thoroughly before using the product and retain it for future reference.

UpBright AC Adapter Power Supply Compatible with:

SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and personal injury.

- Ensure the adapter's voltage and current ratings match your device's requirements. This adapter provides 9V DC at 500mA.
- Do not expose the adapter to rain, moisture, or extreme temperatures.
- Do not use the adapter if the cord or plug is damaged.
- Unplug the adapter from the power outlet when not in use or during electrical storms.
- This adapter features Over Voltage Protection (OVP), Over Current Protection (OCP), and Short Circuit Protection (SCP) to ensure safe operation.
- Keep out of reach of children.

PACKAGE CONTENTS

The package includes the following item:

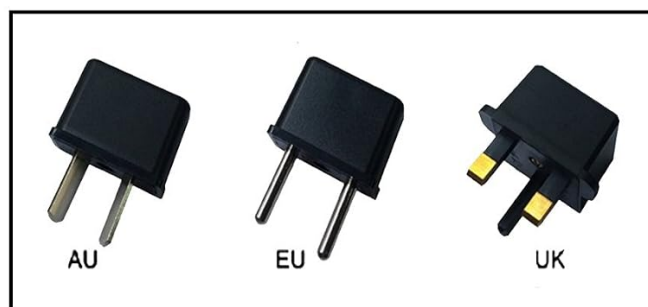

- 1 x UpBright 9V AC Adapter

Image: The UpBright 9V AC Adapter featuring a standard US plug and barrel connector.

For international orders, a suitable outlet adapter (AU, EU, or UK type) may be included to fit your country's power outlets.

SETUP

1. **Verify Compatibility:** Before connecting, ensure your device requires a 9V DC input with a 500mA current rating and has a compatible barrel connector. This adapter is specifically compatible with the Hyper Tough AQ85000G 8-Volt Lithium-Ion Cordless Rotary Tool and EOBAR Power Model EBS0050A-0900500AU.
2. **Connect to Device:** Insert the barrel connector end of the UpBright AC Adapter into the charging port or power input of your compatible device.
3. **Connect to Power Outlet:** Plug the AC adapter into a standard wall power outlet (100-240VAC, 50/60Hz). If you are in a region requiring a different plug type, use the provided international outlet adapter.

Image: The UpBright 9V AC Adapter with its label displaying input and output specifications, confirming its 9V DC 500mA output.

OPERATING

Once connected, the adapter will begin to supply power or charge your device. For devices with rechargeable batteries, observe the device's charging indicator (if available) to monitor the charging status.

- Allow sufficient time for your device's battery to fully charge as per its manufacturer's recommendations.
- The adapter is designed for continuous use within its specified limits.
- Disconnect the adapter from the device and power outlet once charging is complete or when the device is not in use for extended periods.

MAINTENANCE

- **Cleaning:** Disconnect the adapter from all power sources before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or sprays.
- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and moisture when not in use. Avoid wrapping the cord too tightly around the adapter to prevent damage.
- **Inspection:** Periodically inspect the adapter's cord and plug for any signs of damage, such as cuts, fraying, or bent prongs. If damage is found, discontinue use immediately.

TROUBLESHOOTING

Device not charging or powering on:

- Ensure the adapter is securely plugged into both the wall outlet and the device.
- Verify that the wall outlet is functional by testing it with another appliance.
- Confirm that the adapter's specifications (voltage, current, connector type) precisely match your device's requirements.
- *Note:* Rechargeable batteries have a limited lifespan (typically 1 to 3 years). If your device's battery is old or faulty, it may not accept a charge, which is a battery issue, not an adapter issue.
- Inspect the adapter's cord and connector for any visible damage.

Adapter feels warm during use:

- It is normal for power adapters to become slightly warm during operation. If the adapter becomes excessively hot, disconnect it immediately and contact support.
- Ensure the adapter is in a well-ventilated area and not covered.

SPECIFICATIONS

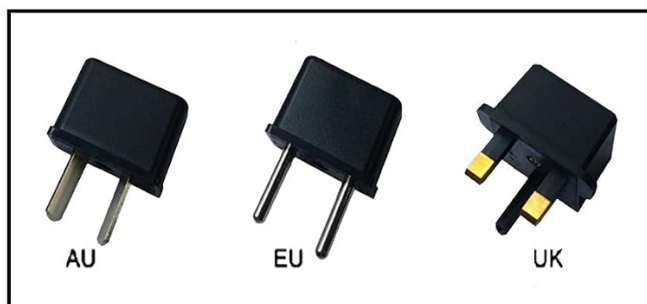

Brand:	UPBRIGHT
Model (Adapter):	Compatible with EOBAR Power EBS0050A-0900500AU
Compatible Device Model:	Hyper Tough AQ85000G 8-Volt Lithium-Ion Cordless Rotary Tool
Input Voltage:	100-240VAC, 50/60Hz (Worldwide)
Output Voltage:	9V DC
Output Current:	500mA (0.5A)
Wattage:	4.5 Watts
Connector Type:	Barrel Connector
Special Features:	OVP (Over Voltage Protection), OCP (Over Current Protection), SCP (Short Circuit Protection)
Color:	Black
Dimensions:	Approximately 3 x 2 x 1 inches
Weight:	Approximately 1.76 ounces

WARRANTY AND SUPPORT

UpBright products are tested and in great working condition. This product comes with a 30-day refund policy and a 24-month exchange warranty.

For warranty claims or technical support, please refer to the contact information provided with your purchase or visit the official UpBright store on Amazon: [UPBRIGHT Store](#).
