Rii K12+ Mini Wireless Keyboard with Touchpad Mouse

Instruction Manual

PRODUCT OVERVIEW

The Rii K12+ Mini Wireless Keyboard with Touchpad Mouse is an ultra-slim, portable input device designed for convenience and versatility. Featuring a durable stainless steel back cover and 2.4 GHz wireless technology, it provides a seamless experience for controlling various devices.

Key Features:

- Ultra-slim design with stainless steel construction.
- Portable and elegant form factor.
- Built-in rechargeable lithium-ion battery.
- Integrated touchpad with multi-finger functions: single-finger click for left mouse function, two-finger click for right mouse function.
- Automatic sleep mode for enhanced battery life.
- Conveniently stored USB receiver in the keyboard's back cover.

SETUP INSTRUCTIONS

Follow these steps to set up your Rii K12+ Mini Wireless Keyboard:

- 1. Unpack Contents:** Ensure you have the mini wireless keyboard, 2.4G receiver adapter, charging data cable, and user manual.
- 2. Charge the Keyboard:** Connect the provided USB charging cable to the keyboard and a power source (e.g., computer USB port, USB wall adapter). The red indicator light will illuminate during charging and turn off when fully charged. A full charge typically takes about 3 hours.
- 3. Locate USB Receiver:** The wireless USB receiver is stored in a compartment on the back of the keyboard for safekeeping. Gently slide open the compartment to retrieve it.
- 4. Connect USB Receiver:** Insert the 2.4G USB receiver adapter into an available USB 2.0 port or above on your device (PC, laptop, Smart TV, etc.).
- 5. Power On:** Locate the power switch on the keyboard (usually on the top or side) and slide it to the 'ON' position. The keyboard will automatically connect to the receiver.

Portable & Durable

OPERATING INSTRUCTIONS

Your Rii K12+ keyboard is ready for use after successful setup. Here's how to operate its key features:

Keyboard Functions

- **Typing:** Use the QWERTY layout for standard text input.
- **Function Keys (Fn):** Press the 'Fn' key in combination with other keys (e.g., F1-F12, multimedia keys) to access secondary functions.
- **Backlight:** The keyboard features a backlight for improved visibility in low-light conditions. Refer to the specific key combinations in your quick guide for backlight control (e.g., changing colors or turning on/off).

Touchpad Functions

The integrated touchpad supports multi-finger gestures:

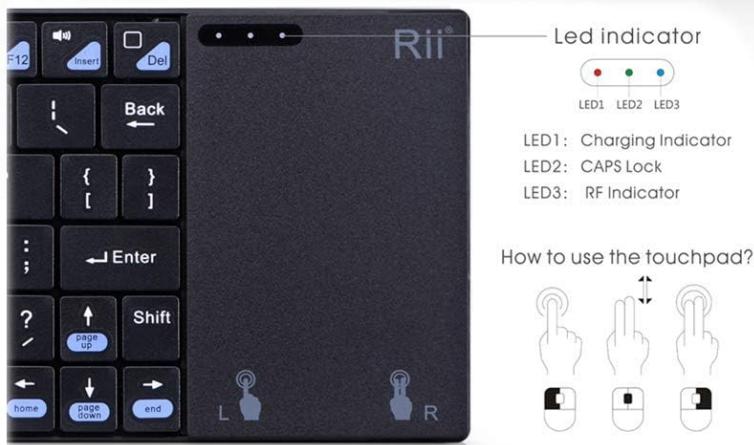

- **Left Click:** Single-finger tap on the touchpad or press the dedicated left mouse button.
- **Right Click:** Two-finger tap on the touchpad or press the dedicated right mouse button.

- **Scrolling:** Slide one finger along the right edge of the touchpad to scroll vertically.

MAINTENANCE

To ensure the longevity and optimal performance of your Rii K12+ Mini Wireless Keyboard, follow these maintenance guidelines:

- **Charging:** Charge the keyboard for approximately 3 hours to achieve a full battery. Avoid overcharging for extended periods.
- **Battery Preservation:** The keyboard features an auto-sleep function to conserve battery power. To reactivate, simply click any key.
- **Cleaning:** Use a soft, dry cloth to clean the keyboard surface. Avoid using harsh chemicals or abrasive materials.
- **Storage:** When not in use, store the USB receiver in its designated compartment on the back of the keyboard to prevent loss. Store the keyboard in a cool, dry place.

TROUBLESHOOTING

If you encounter issues with your Rii K12+ Mini Wireless Keyboard, refer to the following common problems and solutions:

- **Q1: Keyboard and touchpad do not respond, and indicators are not illuminated.**

A: Check whether the switch is in the 'ON' position. If it is in the 'ON' position, please charge the battery with the USB charging cable located in the bottom.

- **Q2: How long is required to charge the battery?**

A: The red indicator will be lighted during charging and off when it is fully charged. It requires about 3 hours to charge the battery fully.

- **Q3: The USB cable in the bottom can be used for data transmission?**

A: No. It is only used to charge the battery.

- **Q4: The keyboard works but the touchpad does not respond.**

A: Press F5.

- **Q5: The blue indicator (the fourth one) keeps blinking.**

A: It is to indicate that the battery power is low. You need to charge the battery.
