## 5. MAINTENANCE

---

Proper care of your Blu-ray discs will ensure their longevity and continued high-quality playback:

- **Handling Discs:** Always hold discs by their edges or by placing a finger through the center hole. Avoid touching the shiny playback surface to prevent fingerprints and scratches.
- **Cleaning Discs:** If a disc becomes dirty, gently wipe it with a soft, lint-free cloth (e.g., a microfiber cloth) from the center outwards. Do not use abrasive materials or harsh chemical cleaners. For stubborn smudges, a small amount of water or a specialized disc cleaning solution can be used.
- **Storage:** Store discs in their original cases, away from direct sunlight, extreme temperatures, and high humidity. Keep cases upright to prevent discs from warping.
- **Digital Copy:** The set includes a Digital Copy redemption code. Ensure you redeem this code as per the instructions provided on the insert inside your Blu-ray package to access the digital versions of the films. Keep the code in a safe place after redemption.

## 6. TROUBLESHOOTING

If you encounter any issues with your Blu-ray set, try the following solutions:

- **Disc Not Playing:**
  - Ensure the disc is clean and free of scratches or smudges.
  - Verify that the disc is inserted correctly, label side up.
  - Confirm your player is a Blu-ray player, not just a DVD player.
  - Try playing another Blu-ray disc to determine if the issue is with the disc or the player.
  - Update your Blu-ray player's firmware, if available, as this can resolve compatibility issues.
- **No Audio/Video:**
  - Check all cable connections (HDMI, audio cables) between your player, TV, and audio receiver.
  - Ensure your TV is set to the correct input source.
  - Verify audio settings on your Blu-ray player and TV.
- **Digital Copy Redemption Issues:**
  - Ensure you are entering the code exactly as it appears.
