## Aigostar 182236

# Aigostar Retro Table Lamp Instruction Manual

Model: 182236

## PRODUCT OVERVIEW

Thank you for choosing the Aigostar Retro Table Lamp. This manual provides essential information for the safe and efficient use of your new lamp. Please read it thoroughly before installation and operation, and retain it for future reference.

The Aigostar Retro Table Lamp is designed for versatility and ease of use, featuring an adjustable neck and a compact design suitable for various environments such as reading, bedside, study, or office desks.

## SETUP INSTRUCTIONS

- 1. Unpack the Lamp:** Carefully remove all components from the packaging. Ensure all parts are present and undamaged.
- 2. Install the Bulb:** This lamp requires an E27 type bulb (not included). Screw the E27 bulb into the lamp holder until it is secure. Do not overtighten.

Image: The lamp's E27 bulb base, illustrating the type of bulb required. Bulbs are not included.

3. **Position the Lamp:** Place the lamp on a stable, flat surface. The compact base (13.5 cm diameter) is designed to save space.
4. **Connect to Power:** Plug the power cord into a suitable electrical outlet. The lamp features a 153 cm long cable with an integrated on/off switch.

Image: Dimensional diagram of the lamp, including the cord length and switch location.

## OPERATING INSTRUCTIONS

- 1. Turning On/Off:** Use the push-button switch located on the power cord to turn the lamp on or off.
- 2. Adjusting the Light Angle:** The lamp features a flexible gooseneck and an anti-scald adjustment metal bar. Gently bend the gooseneck to direct the light as needed. Use the metal bar to adjust the lampshade angle without touching the hot shade.

**OUR**

**Anti-scald adjustment angle metal bar**

You can avoid the burns caused by gripping the lampshade to adjust the angle

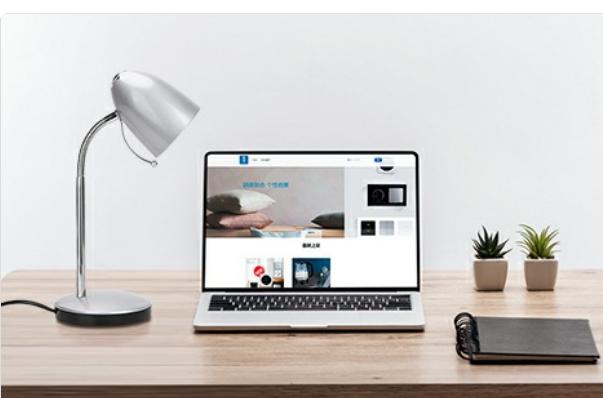

**Other**

The lamp shade in use too high temperature, through the lamp shade to adjust the angle will cause burns to the hands

## MAINTENANCE

- Cleaning:** Disconnect the lamp from the power supply before cleaning. Use a soft, dry cloth to wipe the lamp. Do not use abrasive cleaners or solvents, as these may damage the finish.
- Bulb Replacement:** Ensure the lamp is unplugged and the bulb has cooled down completely before attempting to replace it. Unscrew the old bulb and screw in a new E27 type bulb.

- **Heat Dissipation:** The lamp is designed with excellent heat dissipation features. Ensure that the ventilation holes on the lampshade are not obstructed to prevent overheating.
