

Dolphin Premier

Dolphin Premier Robotic Pool Cleaner User Manual

Model: Premier

1. INTRODUCTION

This manual provides essential instructions for the safe and efficient operation, maintenance, and troubleshooting of your Dolphin Premier Robotic Pool Cleaner. The Dolphin Premier is designed for in-ground swimming pools up to 50 feet in length, offering automated cleaning of the pool floor, walls, and waterline.

Image 1.1: The Dolphin Premier Robotic Pool Cleaner, ready for use.

2. SETUP AND INITIAL USE

Follow these steps for the initial setup of your Dolphin Premier Robotic Pool Cleaner:

1. **Unboxing:** Carefully remove all components from the packaging. Ensure all parts are present according to the packing list.
2. **Power Supply Placement:** Position the power supply unit approximately 10 feet (3 meters) from the edge of the pool. Ensure it is not exposed to direct sunlight or standing water.
3. **Cable Connection:** Connect the floating cable from the cleaner to the power supply unit. Ensure the connection is secure.
4. **Submerging the Cleaner:** Gently place the Dolphin Premier into the pool. Allow it to sink to the bottom. Ensure the floating cable is untangled and spread out across the pool surface to prevent kinks.
5. **Power On:** Plug the power supply into a grounded electrical outlet. Press the single power button on the power supply to begin the cleaning cycle.

Image 2.1: The 'Drop and Go' installation method, showing the cleaner being placed into the pool.

The cleaner is designed for 'Drop and Go' installation, simplifying the initial setup process.

3. OPERATING INSTRUCTIONS

The Dolphin Premier utilizes advanced navigation and cleaning technologies for comprehensive pool coverage.

3.1 Cleaning Cycle

Once activated, the cleaner will navigate your pool, cleaning the floor, walls, and waterline. A typical cleaning cycle lasts approximately 3 hours. The CleverClean technology employs advanced algorithms to ensure complete pool coverage, while the anti-tangle patented swivel cable allows for unrestricted movement.

Image 3.1: The Dolphin Premier performing waterline scrubbing, ensuring thorough cleaning up to the pool's edge.

3.2 Weekly Scheduler

The power supply unit includes an automatic weekly scheduler. You can program the cleaner to operate daily, every other day, or every third day. Refer to the power supply unit's interface for specific programming instructions.

Image 3.2: The power supply unit featuring the automatic weekly timer and full media indicator light for convenient control.

3.3 Tangle-Free Swivel

The integrated 360-degree tangle-free swivel on the cable prevents tangling, ensuring continuous and efficient cleaning without interruptions.

Image 3.3: Close-up of the 360-degree tangle-free swivel, designed to prevent cable entanglement during operation.

4. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your Dolphin Premier.

4.1 Filter Cleaning

The Dolphin Premier offers multiple filter options: bottom-load fine cartridge filters, ultra-fine cartridge filters, and an oversized fine filter bag. The power supply unit features a full filter indicator light, signaling when the filter requires cleaning.

1. **Retrieve Cleaner:** After each cleaning cycle, carefully remove the cleaner from the pool.
2. **Access Filters:** Open the filter compartment according to the cleaner's design.
3. **Empty and Rinse:** Remove the chosen filter media (cartridges or bag) and empty collected debris. Rinse the filter thoroughly with a garden hose until clean.
4. **Reinstall:** Reinsert the clean filter media into the compartment and close it securely.

MULTIMEDIA ONE ROBOT

FOUR MEDIA TYPES

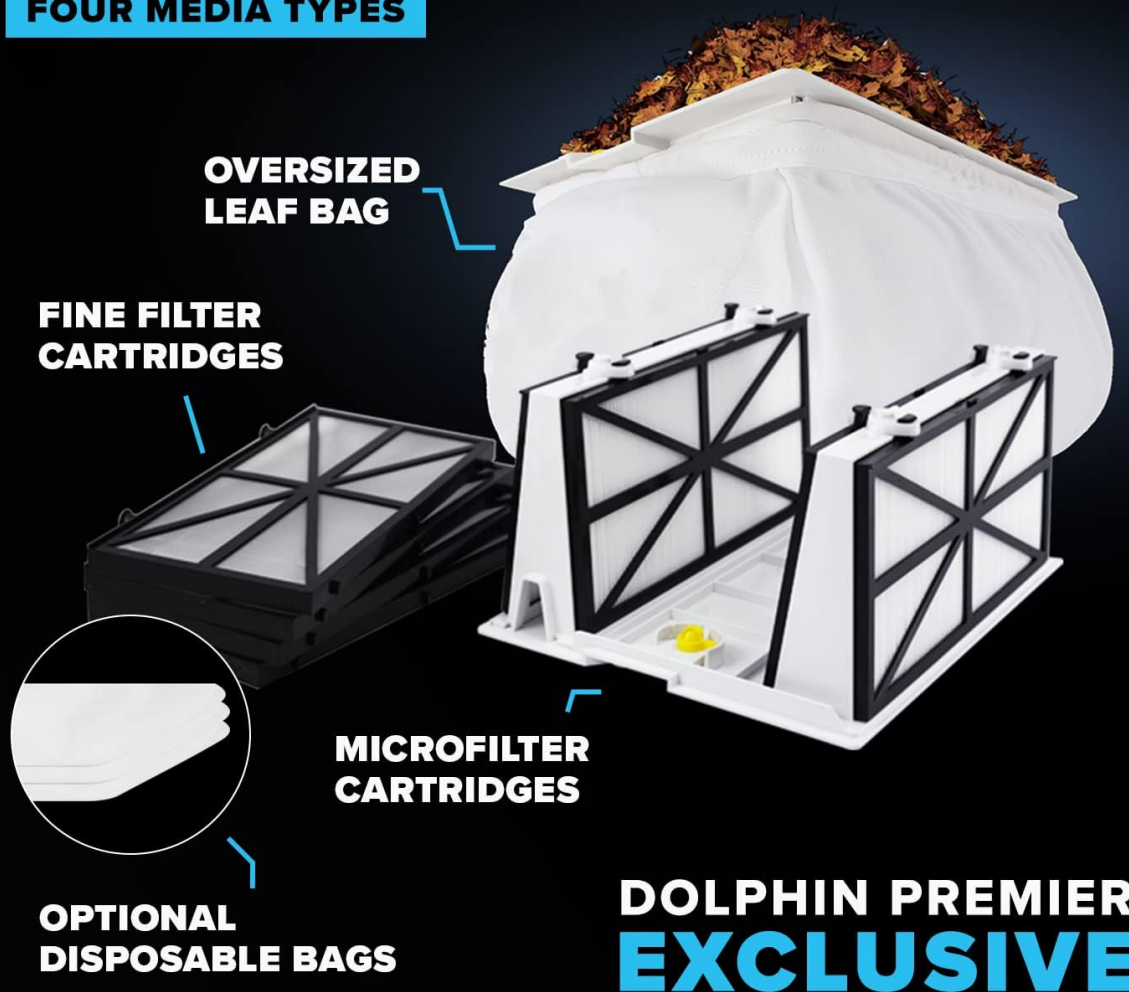

Image 4.1: The Dolphin Premier's multimedia filtration system, showcasing the oversized leaf bag, fine filter cartridges, and microfilter cartridges.

4.2 General Care

- Wipe down the exterior of the cleaner with a soft cloth after use.
- Inspect the scrubbing brushes for wear and tear. Replace if necessary.
- Store the unit in a dry, shaded area when not in use, away from direct sunlight and extreme temperatures.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your Dolphin Premier.

Problem	Possible Cause	Solution
Cleaner does not start or stops unexpectedly.	No power, tangled cable, clogged filter, motor issue.	Ensure power supply is plugged in and receiving power. Check for cable tangles. Clean filters. If issues persist, contact support.

Problem	Possible Cause	Solution
Poor cleaning performance.	Clogged filters, worn brushes, improper water chemistry.	Clean or replace filters. Inspect and replace worn brushes. Ensure pool water chemistry is balanced.
Cleaner does not climb walls or waterline effectively.	Clogged filters, air in cleaner, slippery pool surfaces (algae).	Clean filters. Ensure cleaner is fully submerged and air has escaped. Manually brush heavy algae from pool surfaces before operating.
Cable tangles frequently.	Improper cable deployment, swivel malfunction.	Ensure cable is fully extended and untangled before placing cleaner. Check the swivel for obstructions or damage.

If you encounter issues not listed here or if solutions do not resolve the problem, please contact Dolphin customer support.

6. SPECIFICATIONS

Key technical specifications for the Dolphin Premier Robotic Pool Cleaner:

Feature	Detail
Model Name	Dolphin Premier
Brand	Dolphin
Manufacturer	Maytronics
Control Method	Touch
Voltage	115 Volts
Power Source	Corded Electric
Hose Length	60 Feet
Item Weight	36.1 pounds
Installation Type	Drop and Go
Efficiency	Cleans pools in approximately 3 hours, Energy Efficient
Special Feature	Self Propelled
UPC	055989025834, 081159076436

7. WARRANTY AND SUPPORT

7.1 Warranty Information

The Dolphin Premier Robotic Pool Cleaner is backed by a 3-year limited quality assurance warranty. This warranty covers manufacturing defects and ensures the product meets specified quality standards. For detailed terms and conditions, please refer to the warranty documentation included with your product or contact Dolphin customer service.

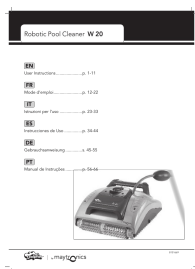

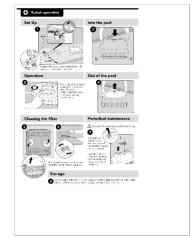

7.2 Customer Support

For technical assistance, troubleshooting guidance, or warranty claims, please contact Dolphin customer support. Have your product model and serial number ready when contacting support to expedite the process. You can find contact information on the official Dolphin website or in the documentation provided with your cleaner.

EN IMPORTANT SAFETY INSTRUCTIONS
READ AND FOLLOW ALL INSTRUCTIONS
Please adhere strictly to the following WARNINGS:

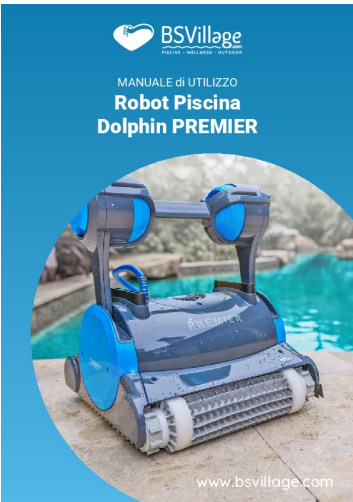

WARNING	Position the Caddy and power supply at least 3 m / 10 ft from pool's edge during operation.
WARNING	Take the robotic pool cleaner out of the pool before allowing people to enter the pool.
WARNING	When examining the robotic pool cleaner, disconnect the main power supply.
WARNING	Cleaning and maintenance shall not be done by children. Keep the robotic pool cleaner out of the reach of children or persons with reduced physical sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction.
WARNING	Only an original power cord can be used at any time. If damaged, it must be replaced by a certified robotic pool cleaner technician to avoid hazards.
WARNING	The power supply must be connected only to a supply circuit that is protected by a ground fault circuit interrupter (GFCI). The GFCI should be tested on a routine basis. To test the GFCI, push the test button. The GFCI should interrupt power. Push the reset button. Power should be restored if the GFCI fails to operate in this manner, the GFCI is defective. If the GFCI interrupts power to the power supply without the test button being pushed, a ground current may be flowing, indicating the possibility of an electric shock. Do not reuse the power supply. Disconnect the power supply and contact the manufacturer for assistance.
WARNING	To reduce the risk of electric shock, replace damaged cord immediately.
WARNING	Do not use an extension cord to connect unit to the outlet; provide a properly sized outlet.
Please ensure that the following CAUTIONS are implemented:	
CAUTION	Only a trained operator should operate the robotic pool cleaner.

maytronics!
