1. INTRODUCTION

The Bose Solo 15 Series II TV Sound System is designed to enhance your television audio experience. This one-piece speaker system delivers clear dialogue, a wide soundstage, and deep bass, significantly improving upon standard TV speakers. Its compact design allows for placement under most TVs up to 50 inches or on an open shelf. The system also features Bluetooth connectivity for wireless music streaming and includes a universal remote control for simplified operation of multiple devices.

2. WHAT'S IN THE BOX

Verify that all components are present before proceeding with setup:

- Bose Solo 15 Series II TV sound system
- Universal remote control

- Power cord
- Optical digital audio cable
- Analog cable
- 2 AA batteries (for remote control)

3. SETUP

3.1 Placement

The Solo 15 Series II system is designed to be placed directly under your television or on an open shelf. Ensure the placement does not obstruct the sound system's speakers or your TV's infrared (IR) sensor.

Image: The Bose Solo 15 Series II TV Sound System positioned beneath a television, demonstrating typical placement.

3.2 Connecting to Your TV

Connect the sound system to your TV using one of the following methods:

1. **Optical Digital Audio Cable (Recommended):** Connect one end of the optical cable to the **OPTICAL IN** port on the sound system and the other end to the **OPTICAL OUT** port on your TV.
2. **Analog Cable:** If your TV does not have an optical output, use the provided analog cable. Connect one end to the **AUDIO IN** port on the sound system and the other end to the **AUDIO OUT** ports (red and white) on your TV.

Important: After connecting, ensure your TV's internal speakers are turned off or muted to prevent echo or distorted sound. Refer to your TV's user manual for instructions on disabling internal speakers.

3.3 Power Connection

Connect the power cord to the **POWER** input on the sound system, then plug the other end into a working AC power outlet.

4. OPERATING THE SYSTEM

4.1 Universal Remote Control

The included universal remote control allows you to operate the Solo 15 Series II system and other connected devices (TV, cable box, Blu-ray player). Install the two AA batteries into the remote before first use.

Image: A detailed view of the Bose universal remote control, highlighting its various buttons for controlling the sound system and other devices.

To program the remote for other devices, refer to the detailed instructions in the full user manual or the Bose support website. The remote's volume buttons exclusively control the Bose system's volume.

4.2 Adjusting Audio Settings

- **Dialogue Mode:** Press the **Dialogue** button on the remote to enhance vocal clarity, making speech easier to understand, especially during movies or TV shows with complex soundtracks.
- **Bass Adjustment:** Use the **Bass** button on the remote to increase or decrease the bass level. The system provides visual feedback (LED indicators) to show the current bass setting.

4.3 Bluetooth Connectivity

The Solo 15 Series II system supports wireless audio streaming via Bluetooth from compatible devices (e.g., smartphones, tablets).

1. Press the **Bluetooth** button on the remote control. The Bluetooth indicator on the sound system will blink.
2. On your mobile device, enable Bluetooth and select "Bose Solo 15 II" from the list of available devices.
3. Once connected, the indicator on the sound system will glow solid blue, and you can stream audio wirelessly.

5. MAINTENANCE

5.1 Cleaning

Clean the surface of the sound system with a soft, dry cloth. Do not use liquid cleaners or solvents. Ensure the system is unplugged before cleaning.

5.2 Battery Replacement (Remote)

When the remote control's performance degrades, replace the two AA batteries with new ones. Ensure correct polarity when inserting batteries.

6. TROUBLESHOOTING

Problem	Possible Solution
---------	-------------------

Problem	Possible Solution
No sound from the system.	• Ensure the power cord is securely connected and the system is powered on. • Verify the audio cable (optical or analog) is correctly connected to both the TV and the sound system. • Check that the correct input source is selected on the sound system (e.g., TV input). • Confirm your TV's internal speakers are disabled or muted. • Increase the volume on both the sound system and your TV.
Sound is distorted or has an echo.	• Ensure your TV's internal speakers are completely turned off. • Check audio cable connections for looseness or damage.
Remote control not working.	• Replace the batteries with new AA batteries. • Ensure there are no obstructions between the remote and the sound system. • Verify the remote is pointed directly at the sound system.
Bluetooth device cannot connect.	• Ensure the sound system is in Bluetooth pairing mode (blinking indicator). • Make sure Bluetooth is enabled on your mobile device. • Move your mobile device closer to the sound system. • Try unpairing and re-pairing the device.

Het nieuwe Solo 15 series II systeem is slechts 62,8 cm breed, 35,6 cm diep en 7,6 cm hoog, en past onder de meeste televisies met een schermformaat van maximaal 50 (27" cm). Het nieuwe Solo 5 systeem is 54,8 cm breed, 3,6 cm diep en 7 cm hoog, en daarmee nog kleiner dan de andere systemen uit de Bose® Solo-serie. Het systeem kan bovendien vrijwel overal worden geplaatst: voor de tv, op een plank of aan de muur.

Dezelfde de gertagende Bluetooth®-technologie kunnen de nieuwe Solo systemen ook fungeren als draadloos multiplatform voor het streamen van afspelijsten, muziekdiensten of wat je ook maar op de telefoon of tablet hebt staan. Alles waarmee je luistert via een Bluetooth®-hoofdtelefoon, of draagbare Bluetooth®-luidsprekers kan nu net zo eenvoudig worden afgespeeld via het Solo 15 series II en Solo 5 systemen, maar dan inlichtiger en met betere prestaties.

Hij is verkrijgbaar:
Het Bose Solo 15 series II system is vanaf 24 september 2015 bij Bose verkrijgbaar voor € 449,95. Het Solo 5 TV sound system
alleen in Europa vanaf 24 september 2015 verkrijgbaar voor € 249,95. De systemen zijn verkrijgbaar bij Bose® Stores,
geautoriseerde Bose® dealers en op Bose.nl.

DESCRIPTION

Flat-screen tvs are made for great picture, not great sound: the solution is the bose® solo 15 series ii tv sound system: an easy to set up, one-piece speaker featuring advanced bose technologies: each word and detail will sound clear at any volume so you'll no longer find yourself reaching for the remote from scene to scene, with added bluetooth® connectivity it's easy to play your music through the speaker too One-piece speaker delivers dramatically better sound than your TV alone Dialogue mode to hear each word and detail clearly Bluetooth® built in, connects with two devices at the same time One connection to your TV Universal remote controls TV, bass, Bluetooth® connections and more The specifics behind the sound So what's inside this elegant, pedestal-style speaker? Plenty. Speaker arrays positioned at each end of the cabinet work with proprietary TrueSpace® technology for full, spacious sound. A dedicated centre speaker—and digital signal processing—enables clear dialogue at any volume. This sound system for TVs delivers more detail and better sound from your favourite TV shows than you've heard before. Setup couldn't be easier: you want your TV programmes to shine. But you don't want a ton of equipment to make it happen. That's the beauty of this system—one speaker, one connection to the TV. Plug the speaker into the wall, and enjoy the show. It's that easy to add better sound to most TVs up to 117 cm and some up to 127 cm. Low notes how you like them: Dramatic programmes, Live concerts, Superstar! series. There are times you just know you'll want a little more bass when watching TV. Go ahead—you can adjust the bass control to your liking with the remote control's bass control button. Universal remote includes direct command of your blu-ray player, bluetooth® connectivity and gaming system with the included universal remote control, easily control both the system and most video sources connected to your tv.
