Burco 4111

Burco 4111 Driver Side Replacement Mirror Glass Instruction Manual

For Cadillac Escalade, Chevy Avalanche, Suburban, Tahoe, GMC Sierra (2007-2014)

INTRODUCTION

This manual provides detailed instructions for the proper installation and care of your Burco 4111 Driver Side Replacement Mirror Glass. Designed as a high-quality alternative to OEM mirror assemblies, this product is manufactured in the USA using high-end CNC equipment, meeting or exceeding OEM specifications. It includes the mirror glass, adhesive pads, and a step-by-step instruction sheet to ensure a straightforward replacement process.

Note: This product does NOT include a backing plate, motor mount, or heating element. It is designed to replace the glass component only.

SAFETY INFORMATION

Always prioritize safety during installation. Wear appropriate personal protective equipment (PPE) to prevent injury.

- Wear safety glasses to protect your eyes from glass shards.
- Wear cut-resistant gloves to protect your hands.
- Consider wearing a long-sleeve shirt for additional arm protection.
- Ensure proper ventilation when working with adhesives and cleaners.
- Perform installation in a warm, dry environment for optimal adhesive performance.

VEHICLE COMPATIBILITY

This Burco 4111 Driver Side Replacement Mirror Glass is compatible with the following vehicles:

- 2007-2014 Cadillac Escalade/ESV/EXT
- 2007-2013 Chevy Avalanche
- 2007-2013 Chevy Silverado 1500
- 2007-2014 Chevy Silverado 2500 HD & 3500 HD
- 2007-2014 Chevy Suburban 1500 & 2500

- 2007-2014 Chevy Tahoe
- 2007-2013 GMC Sierra 1500
- 2009-2014 GMC Sierra 2500 HD & 3500 HD

Important: Measure your existing mirror glass diagonally (longest dimension from top corner to opposing bottom corner) to ensure it matches 10 1/16 inches. Also, compare the shape of your mirror to the replacement mirror to confirm compatibility, as multiple Burco Redi Cuts options may exist for your vehicle.

WHAT'S INCLUDED

Your Burco 4111 Replacement Mirror Glass package contains:

- Burco 4111 Driver Side Replacement Mirror Glass
- Redi-Stick Adhesive Pads
- Instruction Sheet (also available online)

TOOLS REQUIRED

To complete the installation, you will need the following tools:

- Putty Knife or Flat Head Screwdriver
- Rubbing Alcohol
- Glass Cleaner
- Clean Towel or Cloth

INSTALLATION INSTRUCTIONS

Follow these five easy steps to install your Burco 4111 Replacement Mirror Glass. Refer to the installation code on your Burco replacement mirror box for specific instructions if provided.

Video: "B: Drop Fit Mirror Installation" - This video demonstrates the step-by-step process for installing a Burco Redi Cuts mirror replacement, including removal of broken glass, cleaning, adhesive application, and final placement.

1. Step 1: Remove All Broken Glass

Carefully remove all existing broken glass and adhesive from the mirror's plastic frame and backing plate. Use a putty knife or flat head screwdriver to gently pry and scrape away debris. Ensure all loose pieces are cleared.

Image: Burco 4111 Driver Side Replacement Mirror Glass. This image shows the shape and reflective surface of the replacement mirror glass.

2. Step 2: Clean and Test Fit

Thoroughly clean the backing plate with rubbing alcohol to remove any residue. Allow it to dry completely. Then, clean the new mirror glass with glass cleaner. Before applying adhesive, test fit your new Burco mirror glass replacement to ensure it aligns correctly with the backing plate.

3. Step 3: Apply Adhesive

Apply the provided Redi-Stick adhesive pads to the backing plate or directly to the mirror replacement, if applicable. Ensure the paper backing is removed from the adhesive pads to expose the sticky surface. For best results, install in a warm, dry environment. You may supplement with silicone or urethane adhesive if additional adhesion is desired, though the included pads are designed for strong hold.

4. Step 4: Install Replacement Mirror

Align the new mirror glass replacement with the backing plate. Press the mirror directly onto the backing plate with firm yet gentle pressure. Ensure even contact across the entire surface for secure adhesion.

5. Step 5: Clean Up

Once the mirror is securely installed, clean the surface of the new Burco mirror glass replacement with glass cleaner to remove any fingerprints or smudges, ensuring clear visibility.

MAINTENANCE

To maintain the clarity and longevity of your Burco replacement mirror glass:

- Regularly clean the mirror surface with a standard automotive glass cleaner and a soft, lint-free cloth.
- Avoid abrasive cleaners or harsh chemicals that could damage the mirror coating.
- Inspect the mirror periodically for any signs of loosening or damage.

TROUBLESHOOTING

Mirror Not Adhering Properly:

- Ensure the backing plate was thoroughly cleaned and dry before adhesive application. Any grease, dirt, or moisture can prevent proper adhesion.
- Verify that the paper backing was fully removed from the adhesive pads.
- Ensure sufficient and even pressure was applied during installation.
- Confirm installation was done in a warm, dry environment. Cold temperatures can affect adhesive performance.

Mirror Does Not Fit Correctly:

- Double-check the diagonal measurement of your original mirror glass against the product specifications (10 1/16 inches).
- Confirm the shape of the replacement mirror matches your vehicle's original mirror.
- Verify that the product model (Burco 4111) is indeed correct for your specific vehicle make, model, and year as listed in the "Vehicle Compatibility" section.

SPECIFICATIONS

Feature	Detail
Brand	Burco
Model Number	4111
Auto Part Position	Left Outer (Driver Side)
Mounting Type	Door Mount
Lens Curvature	Flat
Diagonal Measurement	10 1/16 inches
